

## *CITY OF MANGUM*

130 N. Oklahoma  
Mangum OK. 73554

### Waterway Landowners:

The waterway between Lincoln and Grant running South has become a nuisance. The debris allowed to flow down this waterway has affected the landowners on the south side of Grant for years and it is time to address the problem. The waterway has needed to be cleaned out and dead trees and limbs cleaned out of it to not only keep it from backing up and flooding the properties it runs through but also to keep trash and debris from washing down on other people's properties. The cleaning and maintaining of this waterway is going to be a financial and labor intense burden on all landowners who own the waterway. The city of Mangum is proposing that the city be granted a waterway easement through these properties after a survey. The granting of this easement will put the financial burden and cleanup at the Cities' expense. After the initial cleanup the maintenance of this waterway will be done by the city. Please get in contact with City Hall 580-782-2250 and make an appointment to discuss this nuisance.
