

# Manor City Council 1<sup>st</sup> Quarterly Report

Committee: Health Committee

Starting Date: October 1, 2023

Ending Date: December 31, 2023

## Committee Members:

Anne Weir & Aaron Moreno

## Accomplishments

Met with the Black Men's Health Clinic (BMHC) to discuss the potential partnership for creating a local health department. Through an 18-month implementation grant from Bristol Myers's Squibb Foundation, the Black Men's Health Clinic is working to establish a health department to enhance coordination of services and programs throughout the community.

## Challenges

Challenges is determining our role as a city/committee with this program and our commitments. We also currently do not have any space for a health liaison or department.

## Needs

Monthly meetings are needed in order to have a better understanding of our current standing and financial commitment with this partnership and bring back a plan to present with council for approval.

## Next Quarter Goals:

Gather information and have a plan of execution to present to council.
