Re: **Scope of Work – CHLPI Technical Assistance Project**

I. OVERVIEW OF CHLPI TECHNICAL ASSISTANCE

CHLPI provides targeted technical assistance to the grantees of the US Cardiovascular and Immunology Disparities and Global Cancer Disparities initiatives. The purpose of this technical assistance is to help grantees advance policy strategies that can be used to sustain and/or scale their work beyond the initial grant period. CHLPI operates on a six-month technical assistance cycle, providing technical assistance to 1-3 grantees every six months (September – February or March – August). Technical assistance projects are adapted to meet the specific needs of the individual grantee, but generally consist of either (1) development of a resource (e.g., white paper) that will help the grantee identify and assess policy strategies; (2) organization of a convening to educate relevant stakeholders on the grantee's work, opportunities to partner, and policy strategies that would sustain/scale the grantee's work; or (3) advocacy materials (e.g., public comments, letters to regulators).

II. PROPOSAL FOR CHLPI TECHNICAL ASSISTANCE TO SUPPORT BMHC

- **Timeline:** March 2024 – August 2024
- **Technical Assistance Project:** Black Men's Health Clinic has identified, as a priority issue, developing potential health department policies and procedures. In support of this objective, CHLPI will provide various analyses to inform such materials.

In particular, CHLPI is positioned, based on its expertise, to:

- 1) Research and analyze Texas law for legal requirements that govern municipal health department policy on matters relating to formation, powers, governance, and operations;
- 2) Identify and interview similarly situated health departments and other stakeholders, such as the National Association of County and City Health Officials, to collect policy and procedure-related recommendations, tools, and best practices in key areas such as governance and operations; and
- 3) Synthesize and translate learnings from the above research into key considerations for Black Men's Health Clinic and the City of Manor.

TIER 2
