Mixed-Density Neighborhood	Parks and Open Space	Community Mixed-Use	
Neighborhood Mixed-Use			

FUTURE LAND USE MAP

The Future Land Use Map serves as the guide for future zoning and development decisions and provides a foundation to support the vision and recommendations of the plan. This is accomplished by setting a land use framework that influences regulatory mechanisms and policy decisions that shape the built environment. Each of the designations presented on the land use categories below correlates with the map on the right.

-  Neighborhoods: Residential one- and two-family homes, along with townhomes, are found near neighborhood mixed-use areas and allow up to 8 dwelling units per acre.
-  Mixed-Density Neighborhoods: Mixed density residential uses primarily support a mix of housing options that may consist of one or more of the following housing types: single family detached, single family attached, duplexes, townhomes, cluster housing and small-scale multifamily.
-  Commercial Corridor: This category consists of nonresidential land uses that meet the needs of both local and regional residents. This includes big box stores and multi-tenant commercial uses.
-  Employment: This category applies to the business centers along SH 290 and FM 973. The primary uses for employment centers are large urban employment centers, corporate campuses, and mixed-use environments.
-  Neighborhood Mixed-Use: This category allows a combination of dense residential and nonresidential uses in a compact, neighborhood-scale design to create a walkable environment. Residential densities within this area should be between 4 and 20 dwelling units per acre.
-  Downtown Mixed-Use: This category includes commercial, business, and office uses that line the Old Highway 20 corridor and adjacent streets, including the traditional downtown shopping district of Manor.
-  Community Mixed-Use: This category allows a combination of dense residential and nonresidential uses in a compact, design at a larger scale than neighborhood mixed-use to create a walkable environment.
-  Public/Semi-Public: This category includes uses that are governmental, institutional or religious in nature.
-  Parks and Open Space: This category consists of parks, recreational facilities, and open spaces that are currently in existence or planned.
