To Whom It May Concern:

This letter is to confirm that the water conservation service and training program is a sole source taught and provided exclusively by SAMCO Leak Detection Services, Inc. located at 901 Mopac South, Barton Oaks One Suite 300, Austin TX 78746. No division of nor any other company, teaches nor provides a similar or competing water conservation service. This classroom to field training program must be purchased directly from SAMCO Leak Detection Services, Inc. at the address listed above. There are no agents or dealers authorized to represent this product.

Our team of experienced leak detection professionals ensures that all services and products are tailored specifically to the client's needs. Through these professional services, SAMCO delivers precise leak detection, providing real-time leak locations, and highly accurate data collection deliverables such as daily update reports, final reporting for State documentation, leak identification maps, and data collection for better water system management. These proven services allow clients of water systems to be proactive in taking care of their water system and delivers better management opportunities to operate their water system more efficiently. This is why no other company, dealer or vendor provides comprehensive deliverables like SAMCO Leak Detection Services, Inc. that include shareable content for viewing or distribution within internal organizations. Our customized data schema is deployed with specific deliverables such as dashboards, leak identification maps, or other web map applications.

If you desire additional information, don't hesitate to contact SAMCO Leak Detection Services, Inc. at 512.751.5325 at any time or visit our website at Samco-leakservice.com. Thank you for your interest in our products.

Sincerely,

Sam Godfrey, Owner
