Re: BCT Suburban Communities Program
City of Manor FY2022 BCT Funded Paving Project
City of Manor, Texas

Dear Ms. Capesius:

The City of Manor has recently completed our approved FY2022 BCT Paving Improvements Project. The improvements consisted of street reconstruction and resurfacing including excavation, subgrade preparation, flexible base, mill and overlay, and hot mix asphalt concrete in selected areas. Approximately 2.01 miles of City Streets were repaired. The project was inspected by City of Manor staff and the project engineer and found to comply with our interlocal agreement and the Engineer's plans and specifications.

No funds were released to the City at the beginning of the project. Please allow this letter to serve as an invoice to request the release of the FY2022 funds which is \$1,065,048. Documentation pertaining to the cost of the project and photographs of the completed project are included with this invoice.

If you should have any questions or need additional information regarding the City of Manor's participation in the BCT Suburban Communities Program, please let us know.

Sincerely,

Scott Moore, City Manager
City of Manor, Texas
