

STAFF REPORT

Meeting Type: Operations Committee/Board of Directors

Title: Water Supply and Demand Analysis

From: Paul Sellier, Director of Water Resources

Through: Ben Horenstein, General Manager

Meeting Date: September 20, 2024

Handwritten signatures in blue ink, including one that appears to be "PS" and another that is more stylized.

TYPE OF ACTION: Action X Information Review and Refer

RECOMMENDATION: Receive an update on Water Supply and demand trends

SUMMARY: Staff will provide an update on water supply conditions and review demand trends.

DISCUSSION: Reservoir water storage levels are at 120% of normal for this date and at 84% of total capacity. The District continues to encourage customers to use water wisely and anticipates adequate supplies to meet both potable demand and environmental releases over the next year. At this meeting, staff will also provide an update on recent system demand trends.

ENVIRONMENTAL REVIEW: Not Applicable.

FISCAL IMPACT: None.

ATTACHMENT(S): None.
