Mr. Terry Wolf
Vice President of Power Supply and Operations
Missouri Basin Municipal Power Agency
d.b.a. Missouri River Energy Services
P.O. Box 88920
Sioux Falls, SD 57109-8920

Dear Mr. Schelkoph and Mr. Wolf:

Attached, for your consideration, is a DocuSign envelope of proposed Designated Entity Contract No. 23-UGPR-28 (Contract) between the City of Marshall, Minnesota (Marshall), Missouri Basin Municipal Power Agency d.b.a. Missouri River Energy Services (MRES), and Western Area Power Administration (WAPA). The Contract provides the terms and conditions MRES shall follow in providing Renewable Energy Certificate (REC) Management Services to Marshall, consistent with the WAPA Upper Great Plains Region (UGPR) REC Program Principles and the applicable General Power Contract Provisions (GPCP) dated September 1, 2007. Also attached, for reference, are the WAPA UGPR REC Program Principles.

The Parties agree that the Contract may be signed and executed digitally in accordance with WAPA's policy. A digital signature is the same as a handwritten signature and shall be considered valid and acceptable.

The Contract is in final form for your signature. If the Contract is satisfactory, please take the following actions to ensure proper execution and administration:

- Have the appropriate official fill in the appropriate blocks and digitally sign the Contract using DocuSign.
- Have the official's signature attested by filling in the appropriate blocks and digitally sign using DocuSign.
- For Marshall: Attach a copy of the city council meeting minutes or resolution approving the Contract.
- For MRES: Complete the Certificate using DocuSign.
- Apply the seal, if there is one, to the signature page.
- Any changes or alterations made to the Contract shall render them null and void.
- Please DocuSign the Contract within 60 days of the date above or the Contract shall be null and void.

Once both Marshall and MRES have signed, WAPA will review the Contract upon return and, if satisfactory, execute and date the Contract with a digital signature. One executed Contract will then be returned to each Party for their use.

If you have any questions concerning the Contract, please contact Brianna Gray at (406) 255-2936, bgray@wapa.gov, or Marsha Thomas at (605) 354-8417, mthomas@wapa.gov.

Sincerely,

Lori L. Frisk

CONTRACT FOR MISSOURI BASIN MUNICIPAL POWER AGENCY D.B.A.
MISSOURI RIVER ENERGY SERVICES TO ADMINISTER
RENEWABLE ENERGY CERTIFICATES
FOR THE CITY OF MARSHALL, MINNESOTA
(Designated Entity)

1. PREAMBLE: This Contract is made on _____, pursuant to the Acts of Congress approved June 17, 1902 (32 Stat. 388), December 22, 1944 (58 Stat. 887), August 4, 1977 (91 Stat. 565), and Acts amendatory or supplementary to the foregoing Acts between the UNITED STATES OF AMERICA, acting by and through the Administrator, Western Area Power Administration, Department of Energy, hereinafter called WAPA, represented by the officer executing this Contract, a duly appointed successor, or a duly authorized representative, hereinafter called the Contracting Officer, the CITY OF MARSHALL, MINNESOTA, a municipal corporation duly organized under and by virtue of the laws of the State of Minnesota, hereinafter called Marshall or Contractor, their successor and assigns, and MISSOURI BASIN MUNICIPAL POWER AGENCY, a body corporate and politic duly organized under and by virtue of the laws of the State of Iowa, doing business as Missouri River Energy Services, hereinafter called MRES or Contractor, their successors or assigns, each sometimes hereinafter called the Party or all sometimes hereinafter collectively called the Parties.

Contract No. 23-UGPR-28
City of Marshall, Minnesota
Missouri Basin Municipal Power
Agency d.b.a. Missouri River
Energy Services

2. EXPLANATORY RECITALS:

2.1 WAPA's Upper Great Plains Region (WAPA-UGPR) implemented a new Renewable Energy Certificate (REC) Program.

2.2 This REC Designated Entity Contract (Contract) was developed in accordance with the WAPA-UGPR REC Program Principles, effective September 27, 2022, as amended.

2.3 Marshall entered into Firm Electric Service Contract No. 12-UGPR-1000 (FES Contract), dated August 1, 2012, with WAPA.

2.4 RECs are considered an attribute of the energy received under the FES Contract. Marshall is eligible to receive RECs in accordance with the WAPA-UGPR REC Program Principles.

2.5 Marshall selected MRES to provide REC Management Services for Marshall.

2.6 This Contract provides the terms and conditions MRES shall follow in providing REC Management Services to Marshall, consistent with the WAPA-UGPR REC Program Principles and the applicable General Power Contract Provisions dated September 1, 2007.

3. DEFINITIONS:

3.1 Designated Entity: The entity designated by Marshall to provide REC Management Services for Marshall.

3.2 Export: The electronic movement of RECs from a Midwest Renewable Energy Tracking System (M-RETS) account to an account in another tracking system compatible with M-RETS.

Contract No. 23-UGPR-28
City of Marshall, Minnesota
Missouri Basin Municipal Power
Agency d.b.a. Missouri River
Energy Services

3.3 Midwest Renewable Energy Tracking System (M-RETS): An online tracking system which issues, stores, retires, transfers, and exports RECs.

3.4 Renewable Energy Certificate (REC): A digital certificate which represents the generation of renewable electricity. One megawatt hour of renewable energy is equal to one REC.

3.5 REC Management Services: The acceptance of the transfer of RECs on behalf of Marshall from WAPA and the retirement of such RECs on behalf of Marshall.

3.6 Retirement: The removal of a REC from circulation for voluntary or compliance purposes. A REC cannot be transferred or sold once retired.

3.7 Transfer: The electronic movement of RECs from an M-RETS account to another M-RETS account.

3.8 WAPA-UGPR Marketing Area: Montana (east of the Continental Divide), all of North Dakota and South Dakota, Nebraska east of the 101° meridian, Iowa west of the 94½° meridian, and Minnesota west of a line on the 94½° meridian from the southern boundary of the state to the 46° parallel and then northwesterly to the northern boundary of the state at the 96½° meridian.

4. AGREEMENT: The Parties agree to the terms and conditions set forth herein.

Contract No. 23-UGPR-28
City of Marshall, Minnesota
Missouri Basin Municipal Power
Agency d.b.a. Missouri River
Energy Services

5. TERM:

5.1 This Contract shall become effective on its date of execution, and subject to prior termination as otherwise provided for herein, shall remain in effect until expiration or termination of the FES Contract.

5.2 Any Party may terminate this Contract, with termination effective at the end of any calendar year, upon at least 90 days' prior written notice to the other Parties. Following a material breach of this Contract by MRES and/or Marshall, any Party shall have the right to terminate this Contract, in addition to all other rights and remedies under law for damages, before the annual transfer of RECs. Such termination shall be effective immediately upon receipt of written notification to the other Parties.

5.3 WAPA may suspend or terminate the REC Program upon 90 days' advance written notice to UGPR customers. If this occurs, this Contract will suspend or terminate upon the suspension or termination date of the REC Program.

6. EXISTING FIRM ELECTRIC SERVICE CONTRACT:

6.1 WAPA and Marshall entered into the FES Contract which provides for firm electric service to Marshall through December 31, 2050.

6.2 The Parties agree that by entering into this Contract, the rights, duties, and obligations contained in the FES Contract between WAPA and Marshall are unchanged.

6.3 RECs are subject to the same terms and conditions contained in Marshall's FES Contract.

Contract No. 23-UGPR-28
City of Marshall, Minnesota
Missouri Basin Municipal Power
Agency d.b.a. Missouri River
Energy Services

7. DESIGNATED ENTITY ARRANGEMENTS: In accordance with WAPA-UGPR's REC Program:

7.1 Marshall selected MRES to be their Designated Entity, and MRES agrees to manage Marshall's RECs on Marshall's behalf.

7.2 WAPA shall transfer or export Marshall's RECs to MRES from M-RETS on an annual basis for MRES to manage the RECs on Marshall's behalf.

7.3 MRES shall provide REC Management Services to Marshall.

7.4 All transfer, export, retirement, and M-RETS and other tracking system account fees are the sole responsibility of MRES and/or Marshall. As of the execution date of this Contract, there are no fees for transfers between M-RETS accounts. This is subject to change should M-RETS begin charging for transfers.

7.5 WAPA will not retire RECs on behalf of Marshall or MRES.

7.6 Upon WAPA's receipt of any required payment, WAPA will transfer or export RECs to MRES.

7.7 RECs issued to Marshall cannot be resold. This includes RECs transferred or exported to MRES on behalf of Marshall.

7.8 MRES may charge a fee to recover the costs of REC Management Services provided, as agreed to by Marshall and MRES.

7.9 If MRES transfers or exports RECs to another entity, MRES must ensure the transferred and/or exported RECs are not sold. MRES may charge a fee to recover the costs of transferring and/or exporting RECs to Marshall's members and/or end use

Contract No. 23-UGPR-28
City of Marshall, Minnesota
Missouri Basin Municipal Power
Agency d.b.a. Missouri River
Energy Services

customers. Marshall's members or end use customers must be located within the WAPA-UGPR Marketing Area.

7.10 WAPA is not liable for damages related to MRES' management of Marshall's RECs. MRES and Marshall shall hold harmless and indemnify WAPA for any and all claims, liability, and damages related to the management of RECs.

7.11 In no event shall a Party be liable to any other Party for incidental, consequential, or indirect damages arising out of or resulting from the performance under, or brought in connection with, this Contract whether arising in contract, tort, or otherwise.

7.12 All WAPA transfers and exports of RECs are final and cannot be reversed.

8. BILLING AND PAYMENT PROVISIONS:

8.1 WAPA shall bill MRES and MRES shall make electronic payment annually, in advance, as instructed on the Bill for Collection, for any tracking system costs assessed to WAPA associated with the transfer or export of RECs to MRES on Marshall's behalf, as applicable. As stated above in Subsection 7.4, as of the execution date of this Contract, there are no fees for transfers between M-RETS accounts.

8.2 Actual cost accounting shall be utilized in this Contract. WAPA shall keep detailed records of actual costs incurred by WAPA to transfer or export RECs. If costs are projected to exceed the amount of advanced funds, WAPA will inform MRES of the additional cost and provide a written revised estimate, together with a Bill for Collection, for the difference. MRES shall then pay WAPA the additional amount by the due date specified on the Bill for Collection. If, upon completion of the transfer or export, costs

Contract No. 23-UGPR-28
City of Marshall, Minnesota
Missouri Basin Municipal Power
Agency d.b.a. Missouri River
Energy Services

incurred by WAPA are less than the sum of the payments made to WAPA by MRES, WAPA shall refund the difference to MRES, without interest, as soon as the necessary vouchers can be processed.

8.3 WAPA will not transfer or export RECs until advance annual payment is received.

9. GENERAL POWER CONTRACT PROVISIONS: The GPCP, effective September 1, 2007, attached hereto, are made part of this Contract the same as if they had been expressly set forth herein except that Provisions 2 through 30, 33, and 36 shall not apply.

10. NO THIRD-PARTY BENEFICIARIES: There are no intended third-party beneficiaries of this Contract. Nothing in this Contract shall be construed to create any duty to, any standard of care with reference to, or any liability to, any person or entity not a Party to this Contract.

11. USE OF DIGITAL SIGNATURES: The Parties agree that this Contract may be signed and executed by digital signature in accordance with WAPA's policy. A digital signature is the same as a handwritten signature and shall be considered valid and acceptable.

12. EXECUTION IN COUNTERPARTS: This Contract may be executed in any number of counterparts and, upon execution and delivery by each Party, the executed and

Contract No. 23-UGPR-28
City of Marshall, Minnesota
Missouri Basin Municipal Power
Agency d.b.a. Missouri River
Energy Services

delivered counterparts together shall have the same force and effect as an original instrument as if all Parties had signed the same instrument. Any signature page of this Contract may be detached by any counterpart of this Contract without impairing the legal effect of any signatures thereon, and may be attached to another counterpart of this Contract identical in form hereto, by having attached to it one or more signature pages.

Contract No. 23-UGPR-28
City of Marshall, Minnesota
Missouri Basin Municipal Power
Agency d.b.a. Missouri River
Energy Services

IN WITNESS WHEREOF, the Parties have caused this Contract to be executed the day
and year first above written.

WESTERN AREA POWER ADMINISTRATION
GENERAL POWER CONTRACT PROVISIONS

I. APPLICABILITY.

1. Applicability.

1.1 These General Power Contract Provisions (Provisions) shall be a part of the contract to which they are attached. In the event these Provisions differ from requirements of the contract, specific terms set forth in the contract shall prevail.

1.2 If the Contractor has member utilities which are either directly or indirectly receiving benefits from the contract, then the Contractor shall require such members to comply with Provisions 10, 17, 18, 19, 29, 30, 36, 43, 44, and 45 of these General Power Contract Provisions.

II. DELIVERY OF SERVICE PROVISIONS.

2. Character of Service.

Electric energy supplied or transmitted under the contract will be three-phase, alternating current, at a nominal frequency of sixty (60) hertz (cycles per second).

3. Use of Capacity or Energy in Excess of Contract Obligation.

The Contractor is not entitled to use Federal power, energy, or capacity in amounts greater than the Western contract delivery obligation in effect for each type of service provided for in the contract except with the approval of Western. Unauthorized overruns of contract delivery obligations shall be subject to charges specified in the contract or the applicable rate schedules. Overruns shall not establish any continuing right thereto and the Contractor shall cease any overruns when requested by Western, or in the case of authorized overruns, when the approval expires, whichever occurs first. Nothing in the contract shall obligate Western to increase any delivery obligation. If additional power, energy, or capacity is not available from Western, the responsibility for securing additional power, energy, or capacity shall rest wholly with the Contractor.

4. Continuity of Service.

Electric service will be supplied or transmitted continuously except for: (1) fluctuations, interruptions, or reductions due to uncontrollable forces, as defined in Provision 34 (Uncontrollable Forces) herein, (2) fluctuations, interruptions, or reductions due to operation of devices installed for power system protection; and (3) temporary fluctuations, interruptions, or reductions, which, in the opinion of the party supplying the service, are necessary or desirable for the purposes of maintenance, repairs, replacements, installation of equipment, or investigation and inspection. The party supplying service, except in case of emergency, will give the party to whom service is being provided reasonable advance notice of such temporary interruptions or reductions and will remove the cause thereof with diligence.

5. Multiple Points of Delivery.

When electric service is supplied at or transmitted to two or more points of delivery under the same rate schedule, said rate schedule shall apply separately to the service supplied at or transmitted to each point of delivery; Provided, That where the meter readings are considered separately, and during abnormal conditions, the Contractor's system is interconnected between points of delivery such that duplication of metered power is possible, the meter readings at each affected point of delivery will be adjusted to compensate for duplication of power demand recorded by meters at alternate points of delivery due to abnormal conditions which are beyond the Contractor's control or temporary conditions caused by scheduled outages.

6. Metering.

6.1 The total electric power and energy supplied or transmitted under the contract will be measured by metering equipment to be furnished and maintained by Western, a designated representative of Western, or where situations deem it appropriate as determined by Western, by the Contractor or its agent(s). In the event metering equipment is furnished and maintained by the Contractor or its agent(s) and the equipment is used for billing and other accounting purposes by Western, the Contractor shall ensure that the metering equipment complies with applicable metering policies established by Western.

6.2 Meters shall be secured by appropriate security measures and meters shall not be accessed except when the meters are to be inspected, tested, adjusted, or repaired. Representatives of affected parties shall be afforded reasonable opportunity to be present upon such occasions. Metering equipment shall be inspected and tested each year by the party responsible for meter maintenance, unless a different test interval is determined in accordance with good utility practices by an applicable regional metering policy, or as agreed upon by the parties. Meters shall also be tested at any reasonable time upon request by a party hereto, or by an affected supplemental power supplier, transmission agent, or control area operator. Any metering equipment found to be damaged, defective, or inaccurate shall be repaired and readjusted or replaced by the party responsible for meter maintenance as soon as practicable. Meters found with security breaches shall be tested for tampering and, if appropriate, meter readings shall be adjusted by Western pursuant to Provision 6.3 below.

6.3 Except as otherwise provided in Provision 6.4 hereof, should any meter that is used by Western for billing or other accounting purposes fail to register accurately, the electric power and energy supplied or transmitted during the period of failure to register accurately, shall, for billing purposes, be estimated by Western from the best available information.

6.4 If inspections and tests of a meter used by Western for billing or other accounting purposes disclose an error exceeding 2 percent, or a lesser range in error as agreed upon by the parties, then a correction based upon the inaccuracy found shall be made to the service records for the period of inaccuracy as determined by Western. If the period of inaccuracy cannot be determined, the inaccuracy shall be assumed to have existed during the entire monthly billing period immediately preceding the billing period in which the inspection or test was made and the resulting correction shall be made accordingly.

6.5 Any correction in billing or other accounting information that results from a correction in meter records shall be made in a subsequent monthly bill rendered by Western to the Contractor. Payment of such bill shall constitute full adjustment of any claim between the parties arising out of inaccurate metering equipment.

7. Existence of Transmission Service Contract.

If the contract provides for Western to furnish services using the facilities of a third party, the obligation of Western shall be subject to and contingent upon the existence of a transmission service contract granting Western rights to use such facilities. If Western acquires or constructs facilities which would enable it to furnish direct service to the Contractor, Western, at its option, may furnish service over its own facilities.

8. Conditions of Transmission Service.

8.1 When the electric service under the contract is furnished by Western over the facilities of others by virtue of a transmission service arrangement, the power and energy will be furnished at the voltage available and under the conditions which exist from time to time on the transmission system over which the service is supplied.

8.2 Unless otherwise provided in the contract or applicable rate schedule, the Contractor shall maintain a power factor at each point of delivery from Western's transmission agent as required by the transmission agent.

8.3 Western will endeavor to inform the Contractor from time to time of any changes planned or proposed on the system over which the service is supplied, but the costs of any changes made necessary in the Contractor's system, because of changes or conditions on the system over which the service is supplied, shall not be a charge against or a liability of Western.

8.4 If the Contractor, because of changes or conditions on the system over which service under the contract is supplied, is required to make changes on its system at its own expense in order to continue receiving service under the contract, then the Contractor may terminate service under the contract upon not less than sixty (60) days written notice given to Western prior to making such changes, but not thereafter.

8.5 If Western notifies the Contractor that electric service provided for under the contract cannot be delivered to the Contractor because of an insufficiency of capacity available to Western in the facilities of others over which service under the contract is supplied, then the Contractor may terminate service under the contract upon not less than sixty (60) days written notice given to Western prior to the date on which said capacity ceases to be available to Western, but not thereafter.

9. Multiple Points of Delivery Involving Direct and Indirect Deliveries.

When Western has provided line and substation capacity under the contract for the purpose of delivering electric service directly to the Contractor at specified direct points of delivery and also has agreed to absorb transmission service allowance or discounts for deliveries of energy over other system(s) to indirect points of delivery and the Contractor shifts any of its load served under the contract from direct delivery to indirect delivery, Western will not absorb the transmission service costs on such shifted load until the unused capacity, as determined solely by Western, available at the direct delivery points affected is fully utilized.

10. Construction, Operation, and Maintenance of Contractor's Power System.

The Contractor shall, and, if applicable, shall require each of its members or transmission agents to construct, operate, and maintain its power system in a manner which, as determined by Western, will not interfere with the operation of the system of Western or its transmission agents over which electric services are furnished to the Contractor under the contract, and in a manner which will coordinate with the protective relaying and other protective arrangements of the system(s) of Western or Western's transmission agents. Western may reduce or

discontinue furnishing services to the Contractor if, after notice by Western, the Contractor fails or refuses to make such changes as may be necessary to eliminate an unsatisfactory condition on the Contractor's power system which is determined by Western to interfere significantly under current or probable conditions with any service supplied from the power system of Western or from the power system of a transmission agent of Western. Such a reduction or discontinuance of service will not relieve the Contractor of liability for any minimum charges provided for in the contract during the time said services are reduced or discontinued. Nothing in this Provision shall be construed to render Western liable in any manner for any claims, demands, costs, losses, causes of action, damages, or liability of any kind or nature arising out of or resulting from the construction, operation, or maintenance of the Contractor's power system.

III. RATES, BILLING, AND PAYMENT PROVISIONS.

11. Change of Rates.

Rates applicable under the contract shall be subject to change by Western in accordance with appropriate rate adjustment procedures. If at any time the United States promulgates a rate changing a rate then in effect under the contract, it will promptly notify the Contractor thereof. Rates shall become effective as to the contract as of the effective date of such rate. The Contractor, by written notice to Western within ninety (90) days after the effective date of a rate change, may elect to terminate the service billed by Western under the new rate. Said termination shall be effective on the last day of the billing period requested by the Contractor not later than two (2) years after the effective date of the new rate. Service provided by Western shall be paid for at the new rate regardless of whether the Contractor exercises the option to terminate service.

12. Minimum Seasonal or Annual Capacity Charge.

When the rate in effect under the contract provides for a minimum seasonal or annual capacity charge, a statement of the minimum capacity charge due, if any, shall be included in the bill rendered for service for the last billing period of the service season or contract year as appropriate, adjusted for increases or decreases in the contract rate of delivery and for the number of billing periods during the year or season in which service is not provided. Where multiple points of delivery are involved and the contract rate of delivery is stated to be a maximum aggregate rate of delivery for all points, in determining the minimum seasonal or annual capacity charge due, if any, the monthly capacity charges at the individual points of delivery shall be added together.

13. Billing and Payment.

13.1 Western will normally issue bills to the Contractor for services furnished during the preceding month within ten (10) days after the end of the billing period.

13.2 If Western is unable to issue timely monthly bill(s), Western may elect to render estimated bill(s). Such estimated bill(s) shall be subject to the same payment provisions as final bill(s), and any applicable adjustments will be shown on a subsequent monthly bill.

13.3 Payments of bills issued by Western are due and payable by the Contractor before the close of business on the twentieth (20th) calendar day after the date of issuance of each bill or the next business day thereafter if said day is a Saturday, Sunday, or Federal holiday. Bills shall be considered paid when payment is received by Western. Bills will be paid electronically or via the Automated Clearing House method of payment unless a written request to make payments by mail is submitted by the Contractor and approved by Western. Should Western agree to accept payments by mail, these payments will be accepted as timely and without assessment of the charge provided for in Provision 14 (Nonpayment of Bills in Full When Due) if a United States

Post Office first class mail postmark indicates the payment was mailed at least three (3) calendar days before the due date.

13.4 The parties agree that net billing procedures will be used for payments due Western by the Contractor and for payments due the Contractor by Western for the sale or exchange of electric power and energy, use of transmission facilities, operation and maintenance of electric facilities, and other services. Payments due one party in any month shall be offset against payments due the other party in such month, and the resulting net balance shall be paid to the party in whose favor such balance exists. The parties shall exchange such reports and information that either party requires for billing purposes. Net billing shall not be used for any amounts due which are in dispute.

14. Nonpayment of Bills in Full When Due.

14.1 Bills not paid in full by the Contractor by the due date specified in Provision 13 (Billing and Payment) hereof shall bear a charge of five hundredths percent (0.05%) of the principal sum unpaid for each day payment is delinquent, to be added until the amount due is paid in full. Western will also assess a fee of twenty-five dollars (\$25.00) for processing a late payment. Payments received will first be applied to the charges for late payment assessed on the principal and then to payment of the principal.

14.2 Western shall have the right, upon not less than fifteen (15) days advance written notice, to discontinue furnishing the services specified in the contract for nonpayment of bills in full when due, and to refuse to resume such services so long as any part of the amount due remains unpaid. Such a discontinuance of service will not relieve the Contractor of liability for minimum charges during the time service is so discontinued. The rights reserved to Western herein shall be in addition to all other remedies available to Western either by law or in equity, for the breach of any of the terms hereof.

15. Adjustments for Fractional Billing Period.

The demand or capacity charge and minimum charges shall each be proportionately adjusted when fractional billing periods are applicable under this contract. A fractional billing period can occur: 1) at the beginning or end of electric service; 2) at the beginning or end of irrigation pumping service each year; 3) for a fractional billing period under a new rate schedule; or 4) for fractional periods due to withdrawals of electric services. The adjustment will be made based on the ratio of the number of hours that electric service is available to the Contractor in such fractional billing period, to the total number of hours in the billing period involved. Energy billing shall not be affected by fractional billing periods.

16. Adjustments for Curtailments to Firm Service.

16.1 Billing adjustments will be made if firm electric service is interrupted or reduced because of conditions on the power system of the United States for periods of one (1) hour or longer in duration each. Billing adjustments will not be made when such curtailment of electric service is due to a request by the Contractor or a discontinuance of electric service by Western pursuant to Provision 14 (Nonpayment of Bills In Full When Due). For purposes of billing adjustments under this Provision, the term power system of the United States shall include transmission facilities used under contract but not owned by the United States.

16.2 The total number of hours of curtailed firm electric service in any billing period shall be determined by adding: (1) the sum of the number of hours of interrupted electric service to (2) the product, of each reduction, of: the number of hours reduced electric service and the percentage by which electric service was reduced below the delivery obligation of Western at the time of each said reduction of electric service. The demand or capacity charge and applicable minimum charges shall each be proportionately adjusted in the ratio that

the total number of hours of electric service determined to have been curtailed bears to the total number of hours in the billing period involved.

16.3 The Contractor shall make written claim within thirty (30) days after receiving the monthly bill, for adjustment on account of any curtailment of firm electric service, for periods of one (1) hour or longer in duration each, alleged to have occurred that is not reflected in said bill. Failure to make such written claim, within said thirty-day (30-day) period, shall constitute a waiver of said claim. All curtailments of electric service, which are due to conditions on the power system of the United States, shall be subject to the terms of this Provision; Provided, That withdrawal of power and energy under the contract shall not be considered a curtailment of electric service.

IV. POWER SALES PROVISIONS.

17. Resale of Firm Electric Service (Wholesale Sales for Resale).

The Contractor shall not sell any firm electric power or energy supplied under the contract to any electric utility customer of the Contractor for resale by that utility customer; Provided, That the Contractor may sell the electric power and energy supplied under the contract to its members on condition that said members not sell any of said power and energy to any customer of the member for resale by that customer.

18. Distribution Principles.

The Contractor agrees that the benefits of firm electric power or energy supplied under the contract shall be made available to its consumers at rates that are established at the lowest possible level consistent with sound business principles, and that these rates will be established in an open and public manner. The Contractor further agrees that it will identify the costs of firm electric power or energy supplied under the contract and power from other sources to its consumers upon request. The Contractor will demonstrate compliance with the requirements of this Provision to Western upon request.

19. Contract Subject to Colorado River Compact.

Where the energy sold under the contract is generated from waters of the Colorado River system, the contract is made upon the express condition and with the express covenant that all rights under the contract shall be subject to and controlled by the Colorado River Compact approved by Section 13 (a) of the Boulder Canyon Project Act of December 21, 1928, 43 U.S.C. §§ 617a-e, and the parties to the contract shall observe and be subject to and controlled by said Colorado River Compact in the construction, management, and operation of the dams, reservoirs, and powerplants from which electrical energy is to be furnished by Western to the Contractor under the contract, and in the storage, diversion, delivery, and use of water for the generation of electrical energy to be delivered by Western to the Contractor under the contract.

V. FACILITIES PROVISIONS.

20. Design Approval.

All facilities, construction, and installation by the Contractor pursuant to the contract shall be subject to the approval of Western. Facilities interconnections shall normally conform to Western's current "General Requirements for Interconnection," in effect upon the signing of the contract document providing for each interconnection, copies of which are available from Western. At least ninety (90) days, unless otherwise agreed,

prior to the date the Contractor proposes to commence construction or to incur an obligation to purchase facilities to be installed pursuant to the contract, whichever date is the earlier, the Contractor shall submit, for the approval of Western, detailed designs, drawings, and specifications of the facilities the Contractor proposes to purchase, construct, and install. The Contractor assumes all risks for construction commenced or obligations to purchase facilities incurred prior to receipt of approval from Western. Western review and approval of designs and construction work in no way implies that Western is certifying that the designs meet the Contractor's needs.

21. Inspection and Acceptance.

Western shall have the right to inspect the materials and work furnished by the Contractor, its agents, employees, and subcontractors pursuant to the contract. Such inspections shall be at reasonable times at the work site. Any materials or work that Western determines is defective or not in accordance with designs, drawings, and specifications, as approved by Western, shall be replaced or modified, as directed by Western, at the sole expense of the Contractor before the new facilities are energized.

22. As-Built Drawings.

Within a reasonable time, as determined by Western, after the completion of construction and installation of facilities pursuant to the contract, the Contractor shall submit to Western marked as-built prints of all Western drawings affected by changes made pursuant to the contract and reproducible drawings the Contractor has prepared showing facilities of Western. The Contractor's drawings of Western facilities shall use drawing title blocks, drawing numbers, and shall be prepared in accordance with drafting standards all as approved by Western. Western may prepare, revise, or complete said drawings and bill the Contractor if the Contractor fails to provide such drawings to Western within a reasonable time as determined by Western.

23. Equipment Ownership Markers.

23.1 The Contractor shall identify all movable equipment and, to the extent agreed upon by the parties, all other salvageable facilities constructed or installed on the United States right-of-way or in Western substations pursuant to the contract which are owned by the Contractor, by permanently affixing thereto suitable markers clearly identifying the Contractor as the owner of said equipment and facilities.

23.2 If requested by the Contractor, Western shall identify all movable equipment and, to the extent agreed upon by the parties, all other salvageable facilities constructed or installed on the Contractor's right-of-way or in the Contractor's substations pursuant to the contract which are owned by the United States, by permanently affixing thereto suitable markers clearly identifying the United States as the owner of said equipment and facilities.

24. Third-Party Use of Facilities.

The Contractor shall notify Western of any proposed system change relating to the facilities governed by the contract or allowing third-party use of the facilities governed by the contract. If Western notifies the Contractor that said system change will, as solely determined by Western, adversely affect the operation of Western's system the Contractor shall, at no cost to Western, provide a solution to said adverse effect acceptable to Western.

25. Changes to Western Control Facilities.

If at any time during the term of the contract, Western determines that changes or additions to control, relay, or communications facilities are necessary to maintain the reliability or control of Western's transmission

system, and said changes or additions are entirely or partially required because of the Contractor's equipment installed under the contract, such changes or additions shall, after consultation with the Contractor, be made by Western with all costs or a proportionate share of all costs, as determined by Western, to be paid by the Contractor. Western shall notify the Contractor in writing of the necessary changes or additions and the estimated costs to be paid by the Contractor. If the Contractor fails to pay its share of said estimated costs, Western shall have the right, after giving sixty (60) days' written notice to the Contractor, to terminate the applicable facility installation provisions to the contract and require the removal of the Contractor's facilities.

26. Modification of Western Facilities.

Western reserves the right, at any time, to modify its facilities. Western shall keep the Contractor informed of all planned modifications to Western facilities which impact the facilities installation pursuant to the contract. Western shall permit the Contractor to change or modify its facilities, in a manner satisfactory to and at no cost or expense to Western, to retain the facilities interconnection pursuant to the contract. At the Contractor's option, Western shall cooperate with the Contractor in planning alternate arrangements for service which shall be implemented at no cost or expense to Western. The Contractor and Western shall modify the contract, as necessary, to conform to the new facilities arrangements.

27. Transmission Rights.

If the contract involves an installation which sectionalizes a Western transmission line, the Contractor hereby agrees to provide a transmission path to Western across such sectionalizing facilities at no cost or expense to Western. Said transmission path shall be at least equal, in terms of capacity and reliability, to the path in the Western transmission line prior to the installation pursuant to the contract.

28. Construction and Safety Procedures.

28.1 The Contractor hereby acknowledges that it is aware of the hazards inherent in high-voltage electric lines and substations, and hereby assumes full responsibility at all times for the adoption and use of necessary safety measures required to prevent accidental harm to personnel engaged in the construction, inspection, testing, operation, maintenance, replacement, or removal activities of the Contractor pursuant to the contract. The Contractor and the authorized employees, agents, and subcontractors of the Contractor shall comply with all applicable safety laws and building and construction codes, including the provisions of Chapter 1 of the Power System Operations Manual, entitled Power System Switching Procedure, and the Occupational Safety and Health Administration regulations, Title 29 C.F.R. §§ 1910 and 1926, as amended or supplemented. In addition to the safety program required herein, upon request of the United States, the Contractor shall provide sufficient information to demonstrate that the Contractor's safety program is satisfactory to the United States.

28.2 The Contractor and its authorized employees, agents, and subcontractors shall familiarize themselves with the location and character of all the transmission facilities of Western and interconnections of others relating to the work performed by the Contractor under the contract. Prior to starting any construction, installation, or removal work, the Contractor shall submit a plan of procedure to Western which shall indicate the sequence and method of performing the work in a safe manner. No work shall be performed by the Contractor, its employees, agents, or subcontractors until written authorization to proceed is obtained from Western.

28.3 At all times when the Contractor, its employees, agents, or subcontractors are performing activities of any type pursuant to the contract, such activities shall be under supervision of a qualified employee, agent, or subcontractor of the Contractor who shall be authorized to represent the Contractor in all matters pertaining to the activity being performed. The Contractor and Western will keep each other informed of the names of their designated representatives at the site.

28.4 Upon completion of its work, the Contractor shall remove from the vicinity of the right-of-way of the United States all buildings, rubbish, used materials, concrete forms, and other like material belonging to the Contractor or used under the Contractor's direction, and in the event of failure to do so the same may be removed by Western at the expense of the Contractor.

28.5 In the event the Contractor, its employees, agents, or subcontractors fail to comply with any requirement of this Provision, or Provision 21 (Inspection and Acceptance) herein, Western or an authorized representative may issue an order to stop all or any part of the work until such time as the Contractor demonstrates compliance with the provision at issue. The Contractor, its employees, agents, or subcontractors shall make no claim for compensation or damages resulting from such work stoppage.

29. Environmental Compliance.

Facilities installed under the contract by any party shall be constructed, operated, maintained, replaced, transported, and removed subject to compliance with all applicable laws, including but not limited to the National Historic Preservation Act of 1966, 16 U.S.C. §§ 470x-6, the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321-4347, the Endangered Species Act of 1973, 16 U.S.C. §§ 1531-1544, and the Archaeological Resources Protection Act of 1979, 16 U.S.C. §§ 470aa-470mm, and the regulations and executive orders implementing these laws, as they may be amended or supplemented, as well as any other existing or subsequent applicable laws, regulations, and executive orders.

30. Responsibility for Regulated Materials.

When either party owns equipment containing regulated material located on the other party's substation, switchyard, right-of-way, or other property, the equipment owner shall be responsible for all activities related to regulated materials in such equipment that are necessary to meet the requirements of the Toxic Substances Control Act, 15 U.S.C. §§ 2601-2692, the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901-6992k, the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. §§ 9601-9675, the Oil Pollution Act of 1990, 33 U.S.C. §§ 2702-2761, the Clean Water Act, 33 U.S.C. §§ 1251-1387, the Safe Drinking Water Act, 42 U.S.C. §§ 300f-j26, and the regulations and executive orders implementing these laws, as they may be amended or supplemented, and any other existing or subsequent applicable laws, regulations, and executive orders. Each party shall label its equipment containing regulated material in accordance with appropriate laws and regulations. If the party owning the equipment does not perform activities required under appropriate laws and regulations within the time frame specified therein, the other party may perform or cause to be performed the required activities after notice to and at the sole expense of the party owning the equipment.

VI. OTHER PROVISIONS.

31. Authorized Representatives of the Parties.

Each party to the contract, by written notice to the other, shall designate the representative(s) who is (are) authorized to act in its behalf with respect to those matters contained in the contract which are the functions and responsibilities of the authorized representatives of the parties. Each party may change the designation of its authorized representative(s) upon oral notice given to the other, confirmed promptly by written notice.

32. Effect of Section Headings.

Section headings or Provision titles appearing in the contract or these General Power Contract Provisions are inserted for convenience only and shall not be construed as interpretations of text.

33. Operating Guidelines and Procedures.

The parties to the contract may agree upon and put into effect from time to time, such other written guidelines and procedures as may be required in order to establish the methods of operation of the power system to be followed in the performance of the contract.

34. Uncontrollable Forces.

Neither party to the contract shall be considered to be in default in performance of any of its obligations under the contract, except to make payment as specified in Provision 13 (Billing and Payment) herein, when a failure of performance shall be due to an uncontrollable force. The term "uncontrollable force" means any cause beyond the control of the party affected, including but not restricted to, failure of or threat of failure of facilities, flood, earthquake, storm, fire, lightning, epidemic, war, riot, civil disturbance or disobedience, labor dispute, labor or material shortage, sabotage, restraint by court order or public authority and action or nonaction by, or failure to obtain the necessary authorizations or approvals from, any governmental agency or authority, which by exercise of due diligence such party could not reasonably have been expected to avoid and which by exercise of due diligence it shall be unable to overcome. Nothing contained herein shall be construed to require a party to settle any strike or labor dispute in which it may be involved. Either party rendered unable to fulfill any of its obligations under the contract by reason of an uncontrollable force shall give prompt written notice of such fact to the other party and shall exercise due diligence to remove such inability with all reasonable dispatch.

35. Liability.

35.1 The Contractor hereby agrees to indemnify and hold harmless the United States, its employees, agents, or contractors from any loss or damage and from any liability on account of personal injury, death, or property damage, or claims for personal injury, death, or property damage of any nature whatsoever and by whomsoever made arising out of the Contractors', its employees', agents', or subcontractors' construction, operation, maintenance, or replacement activities under the contract.

35.2 The United States is liable only for negligence on the part of its officers and employees in accordance with the Federal Tort Claims Act, 28 U.S.C. §§ 1346(b), 1346(c), 2401(b), 2402, 2671, 2672, 2674-2680, as amended or supplemented.

36. Cooperation of Contracting Parties.

If, in the operation and maintenance of their respective power systems or electrical equipment and the utilization thereof for the purposes of the contract, it becomes necessary by reason of any emergency or extraordinary condition for either party to request the other to furnish personnel, materials, tools, and equipment for the accomplishment thereof, the party so requested shall cooperate with the other and render such assistance as the party so requested may determine to be available. The party making such request, upon receipt of properly itemized bills from the other party, shall reimburse the party rendering such assistance for all costs properly and reasonably incurred by it in such performance, including administrative and general expenses, such costs to be determined on the basis of current charges or rates used in its own operations by the party rendering assistance. Issuance and payment of bills for services provided by Western shall be in accordance with Provisions 13 (Billing

and Payment) and 14 (Nonpayment of Bills in Full When Due) herein. Western shall pay bills issued by the Contractor for services provided as soon as the necessary vouchers can be prepared which shall normally be within twenty (20) days.

37. Transfer of Interest in Contract or Change in Preference Status.

37.1 No voluntary transfer of the contract or of the rights of the Contractor under the contract shall be made without the prior written approval of the Administrator of Western. Any voluntary transfer of the contract or of the rights of the Contractor under the contract made without the prior written approval of the Administrator of Western may result in the termination of the contract; Provided, That the written approval of the Administrator shall not be unreasonably withheld; Provided further, That if the Contractor operates a project financed in whole or in part by the Rural Utilities Service, the Contractor may transfer or assign its interest in the contract to the Rural Utilities Service or any other department or agency of the Federal Government without such prior written approval; Provided further, That any successor to or assignee of the rights of the Contractor, whether by voluntary transfer, judicial sale, foreclosure sale, or otherwise, shall be subject to all the provisions and conditions of the contract to the same extent as though such successor or assignee were the original Contractor under the contract; and, Provided further, That the execution of a mortgage or trust deed, or judicial or foreclosure sales made thereunder, shall not be deemed voluntary transfers within the meaning of this Provision.

37.2 The Contractor shall maintain its status as an entity eligible for preference in Western's sale of Federal power pursuant to Reclamation law, as amended and supplemented.

37.3 Western shall give the Contractor written notice of Western's proposed determination that the Contractor has violated Provision 37.1 and Western's proposed action in response to the violation.

37.4 The Contractor shall have 120 days after receipt of Western's notice provided under Provision 37.3 to submit a written response to Western. The Contractor may also make an oral presentation to the Administrator during this 120-day period.

37.5 At any time during this process, the Contractor and Western may agree upon corrective action to resolve Western's proposed determination that the Contractor is in violation of Provision 37.1.

37.6 Within 30 days of receipt of the Contractor's written response provided under Provision 37.4, Western will notify the Contractor in writing of its final decision. The Administrator's written notice will include the intended action, the effective date thereof, and the reasons for taking the intended action. Implementation of the Administrator's action shall take place no earlier than 60 days from the Contractor's receipt of such notice.

37.7 Any successor to Western shall be subject to all the provisions and conditions of the contract to the same extent as though such successor were an original signatory to the contract.

37.8 Nothing in this Provision shall preclude any right to judicial review available to the Contractor under Federal law.

38. Choice of Law and Forum.

Federal law shall control the obligations and procedures established by this contract and the performance and enforcement thereof. The forum for litigation arising from this contract shall exclusively be a Federal court of the United States, unless the parties agree to pursue alternative dispute resolution.

39. Waivers.

Any waivers at any time by either party to the contract of its rights with respect to a default or any other matter arising under or in connection with the contract shall not be deemed a waiver with respect to any subsequent default or matter.

40. Notices.

Any notice, demand, or request specifically required by the contract or these Provisions to be in writing shall be considered properly given when delivered in person or sent by postage prepaid registered or certified mail, commercial delivery service, facsimile, electronic, prepaid telegram, or by other means with prior agreement of the parties, to each party's authorized representative at the principal offices of the party. The designation of the person to be notified may be changed at any time by similar notice. Where facsimile or electronic means are utilized for any communication covered by this Provision, the sending party shall keep a contemporaneous record of such communications and shall verify receipt by the other party.

41. Contingent Upon Appropriations and Authorization.

41.1 Where activities provided for in the contract extend beyond the current fiscal year, continued expenditures by the United States are contingent upon Congress making the necessary appropriations required for the continued performance of the United States' obligations under the contract. In case such appropriation is not made, the Contractor hereby releases the United States from its contractual obligations and from all liability due to the failure of Congress to make such appropriation.

41.2 In order to receive and expend funds advanced from the Contractor necessary for the continued performance of the obligations of the United States under the contract, additional authorization may be required. In case such authorization is not received, the Contractor hereby releases the United States from those contractual obligations and from all liability due to the lack of such authorization.

42. Covenant Against Contingent Fees.

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure the contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, Western shall have the right to annul the contract without liability or in its discretion to deduct from the contract price or consideration the full amount of such commission, percentage, brokerage, or contingent fee.

43. Contract Work Hours and Safety Standards.

The contract, to the extent that it is of a character specified in Section 103 of the Contract Work Hours and Safety Standards Act (Act), 40 U.S.C. § 3701, as amended or supplemented, is subject to the provisions of the Act, 40 U.S.C. §§ 3701-3708, as amended or supplemented, and to regulations promulgated by the Secretary of Labor pursuant to the Act.

44. Equal Opportunity Employment Practices.

Section 202 of Executive Order No. 11246, 30 Fed. Reg. 12319 (1965), as amended by Executive Order No. 12086, 43 Fed. Reg. 46501 (1978), as amended or supplemented, which provides, among other things, that the Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin, is incorporated herein by reference the same as if the specific language had been written into the contract, except that Indian Tribes and tribal organizations may apply Indian preference to the extent permitted by Federal law.

45. Use of Convict Labor.

The Contractor agrees not to employ any person undergoing sentence of imprisonment in performing the contract except as provided by 18 U.S.C. § 3622(c), as amended or supplemented, and Executive Order No. 11755, 39 Fed. Reg. 779 (1973), as amended or supplemented.

Western Area Power Administration
Upper Great Plains Region (UGPR)
Renewable Energy Certificate Program Principles

1. Customers that receive Pick-Sloan Missouri Basin Program -- Eastern Division Firm Electric Service (FES) allocations and take delivery of firm energy are eligible to obtain Renewable Energy Certificates (RECs) under the Upper Great Plains Region (UGPR) REC Program (Program). Customers that receive FES allocations and take delivery of firm energy will be allocated RECs under the Program and will herein be called Participants. Peaking power contracts are excluded from the Program.
2. RECs will be allocated annually based upon the energy associated with each customer's FES allocation. Energy generated from U.S. Bureau of Reclamation (Reclamation) and the U.S. Army Corps of Engineers (CORPS) hydropower facilities during the preceding calendar year will be allocated in the ratio of one (1) REC to one (1) megawatt hour (MWh) generated. Purchase Power, including Purchase Power from renewable resources, is not part of the Program.
3. Generation from the hydropower facilities fluctuates each year. Participants will be allocated RECs on a proportionate share of the actual generation from the hydropower dams in UGPR, not to exceed each Participant's firm power allocation.
 - a. Should generation be less than the sum of the Participants' firm power allocations, Participants will receive a proportionate share of RECs for actual generation from each hydropower dam in UGPR that year. This amount may be less than the Participant's firm power allocation.
 - b. Should generation be greater than the sum of the Participants' firm power allocations, WAPA may, at its sole discretion, allocate the excess RECs to Participants on a proportionate share to offset lesser generation years.
 - c. The equation for determining each Participant's allocated RECs shall be the total available Program RECs multiplied by each Participant's percentage of firm energy, then rounded down to the last whole MWh.
 - d. Allocated RECs cannot exceed the Participant's firm power allocation.
4. WAPA offers these RECs as an additional benefit of the firm energy delivered to Participants and considers RECs an environmental attribute of the energy generated by Reclamation and the CORPS. RECs are subject to the same terms and conditions as the Participant's FES Contract. No additional contract or letter agreement between WAPA and the Participant is required.
5. RECs issued to Participants under this Program cannot be resold. Participants may transfer RECs issued under the Program to its members and/or end use customers located in the UGPR marketing area. Participants must ensure that any transferred RECs are not sold. Participants may charge a fee to recover the costs of transferring RECs to their members and/or end use customers.
6. WAPA makes no representations as to whether Program RECs qualify for or meet any renewable energy standards. It is the Participant's responsibility to verify whether Program RECs qualify for State, Federal, or other renewable energy standard requirements.

7. Tracking and Management of RECs: UGPR uses the Midwest Renewable Energy Tracking System (M-RETS) to track each Participant’s annual proportionate share of RECs from each of UGPR’s eight hydropower dams. Note, Yellowtail Dam’s generation was initially registered by WAPA’s Rocky Mountain Region in a different tracking system called Western Renewable Energy Generation Information System (WREGIS). UGPR’s portion of the Yellowtail Dam generation (50 percent) is transferred from WREGIS to M-RETS annually.
8. WAPA shall hold each Participant’s RECs in separate subaccounts in M-RETS, unless other arrangements have been requested. WAPA will not retire RECs for Participants in M-RETS.
9. Participants may request other arrangements for the tracking and management of their RECs which include: 1) managing their own RECs in M-RETS or a similar compatible tracking system, or 2) designating another entity (Designated Entity), approved by WAPA, to manage the Participant’s RECs in M-RETS or a similar compatible tracking system.
 - a. A separate contract with WAPA is required for Participants 1) requesting a Designated Entity manage their RECs, or 2) requesting to transfer RECs to a different REC tracking system that is compatible with M-RETS.
 - b. The Designated Entity will manage RECs on the behalf of the Participant to be used for the Participant’s benefit or transferred to the Participant’s end use customer, located in the UGPR marketing area.
 - c. Participants and/or their Designated Entity are responsible for:
 - i. tracking, managing, and retiring RECs and paying any associated fees.
 - ii. ensuring established REC Program Principles are followed, including but not limited to: following the terms of the FES Contract, no resale, ensuring transfers be made to customers and/or end users, a fee to recover costs may be charged, and customers and/or end users must be located within the established UGPR marketing area.
 - d. Upon request and receipt of associated fees, WAPA will transfer RECs to the Participant or Designated Entity in accordance with the separate contract as mentioned in 9a above.
10. RECs associated with Project Use Power Contracts will be allocated in the same manner as FES Contracts.
11. UGPR REC Program Costs:
 - a. Costs for WAPA to administer the program and costs for the initial issuance of RECs will be incorporated into the UGPR firm power rate.
 - b. Costs associated with transferring and/or exporting RECs to a Participant’s or Designated Entity’s account, and other costs as described in Principle 9c above, are the responsibility of the Participant and/or Designated Entity.
 - c. Advanced funding will be required.
12. WAPA reserves the right to suspend or terminate the Program upon reasonable advance written notice to Participants. Though WAPA may solicit input, it can change these Principles, without notice, at its discretion.
