PROJECT REQUIREMENTS AND CONDITIONS

I. SCOPE OF WORK

1. Provide all labor, materials, and equipment necessary for the demolition and site restoration for the stated property in the City of Marshall, County of Lyon, State of Minnesota. Individual elements of work shall include, but is not limited to:

Demolition and removal of building structure, foundation and concrete.

Backfill excavated areas with suitable common borrow (clay) or granular material and compacted to a minimum standard proctor density of 95%.

Recap the existing sanitary sewer service line and water service line at the outside of the existing foundation at the right-of-way.

Coordinate the recapping of the sanitary sewer service line with City of Marshall Building Inspection.

Coordinate recapping of the termination of the water service line with Marshall Municipal Utilities.

Restoration of the site shall include placement of 12 inches of Class 5 over excavated areas to finish the site.

Protect all light poles, electric transformers and other utilities located on public right-of-way.

2. Remove all materials from the demolition site in accordance with federal, state and local regulations. Contractor shall provide the protection and safety fencing required for the site until final restoration has been completed.
3. The Contractor shall accept the site in its present condition and shall inspect the site for its character and the type of structure to be demolished. The owner assumes no responsibility for the condition of existing structure and other property within the demolition area, or the condition of the property before or after the solicitation for bids. No adjustment of bid price or allowance for any change in conditions that occur after the acceptance of the responsible, responsive bidder will be allowed.
4. The following items shall be salvaged by the Contractor for the City and delivered to a location within the City as directed by the City:
 - a. "Marshall Hotel" sign and supports (front of building)
 - b. "Hotel Entrance" sign (rear of building)
 - c. Wrought iron railings (front of building)

II. LOCATION

The structure is located in Marshall, Minnesota at 326 West Main Street.

III. GENERAL SPECIFICATIONS & INFORMATION

1. See attached Exhibit A for the site location and construction limits.
2. The Contractor shall be paid the lump sum price for demolition at the site as indicated in the bid and as approved by the owner or owner's representative, and this payment will be full compensation for removal of the building, foundation, building materials, contents of building, trash, rubbish and related work as specified. The Contractor shall pay for all charges, levies, fees, permits and other expenses necessary to complete the work in accordance with the plans and specifications.
3. The Contractor shall obtain all necessary permits from City, Lyon County and Minnesota Pollution Control Agency in conjunction with the demolition work and the waste disposal.
4. The Contractor will assume all liability for damage to the property of others which may occur during the demolition process. The Contractor shall take precautionary measures so as not to cause damage to any public right-of-way, structures, street utilities, or any other property adjacent to the parcel scheduled for demolition.
5. The Contractor shall be responsible for removing any demolition debris or mud from any street or right-of-way resulting from the execution of the demolition work.
6. The Contractor shall comply with applicable air pollution control requirements of the city, county, and state (Mn/DOT 1717). The Contractor shall take appropriate actions to minimize atmospheric pollution. To minimize atmospheric pollution, the city, county and state shall have the authority to require that reasonable precautions be taken to prevent particulate matter from becoming airborne. Such reasonable precautions shall include, but not be limited to: the use of water or chemicals for control of dusts in the demolition of the structure and the use of covers on open-bodied trucks transporting materials likely to produce airborne dusts.
7. Demolition, removal, and disposal work shall include all materials in the buildings and foundation of the structure. Use methods required to complete work within limitations of governing regulations (Mn/DOT 2103).
8. All excavations will be filled with natural materials of clay and/or gravel. The fill will be compacted by conventional methods. The backfill materials shall be obtained from suitable materials imported into the project from an approved source. All common borrow required for

backfilling shall be incidental to the amount of the bid. The final grading shall be shaped to drain to the street or alley at existing elevations.

9. No fires of any kind will be permitted in the demolition work area.
10. Temporary fence shall be erected around all excavation and debris piles to prevent access to the public. The fence shall be at least four feet high, consistently restrictive from top to grade, and without horizontal openings wider than two inches. The fence shall be erected before demolition and shall remain in place until the demolished materials are removed from the site and all holes or excavated areas are backfilled. The fencing, including all materials, shall be considered incidental to the demolition. The fencing material shall remain the property of the Contractor.
11. Contractor shall provide certificates of insurance to the Owner of adequate coverage consistent with the type of demolition work being completed on this project. The Owner shall be named as an additional insured on the certificate.
12. The Contractor is responsible for securing any staging areas required outside the limits of the demolition areas. Public rights-of-ways utilized as staging areas shall be by permit only.
13. Contractor shall implement BMP's to control both airborne and water pollution and erosion/sediment controls for the project site.
14. Any damage from the contract due to demolition will be the responsibility of the contractor at no additional cost to the City.
15. Vehicular access shall be maintained to the following areas at all times:
 - Rear parking lot behind Mainstay Café located at 316 West Main Street
 - Rear to parking lot located behind 117-127 North 3rd Street
16. The Contractor shall submit a request for any proposed closure of the alley adjacent to 326 West Main Street and the length of time(s) that the contractor proposes to have the alley closed to through traffic.
17. Contractor shall coordinate all work with Municipal Building Renovation contractor.
