

Section 86-166 Certification of Cannabis Business License Application with Zoning

- a) Definitions:
 - a. Cannabis or hemp edible business means any business that requires licensure under Minnesota Statutes, Chapter 342.
 - b. OCM means the Minnesota Office of Cannabis Management.
 - c. Potential licensee means an applicant that is seeking a license to operate a cannabis or hemp edible business from the OCM.
- b) The city administrator, or their designee, is authorized to certify whether a proposed cannabis business complies with the city's zoning ordinances, this chapter, and if applicable, state fire code and building code pursuant to Minnesota Statutes, section 342.13. Potential licensees are responsible for requesting and scheduling any inspections related to building and fire code compliance. Potential licensees may contact the city to have such inspections conducted prior to the city receiving the request for certification from the OCM. If a potential licensee is not able to have any building or fire code inspection complete within the 30-day review period provided under state law, the city will not certify the application.
