

ORDINANCE NO. 23-014

**ORDINANCE AMENDING
MARSHALL CITY CODE OF ORDINANCES – CHAPTER 30, ARTICLE 30-II
RELATING TO SURFACE WATER MANAGEMENT**

The Common Council of the City of Marshall does ordain as follows:

Section 1: City Code of Ordinances, Chapter 30-Environment, Article 30-II Surface Water Management, Section 30-22 is hereby amended and Section 30-27 is hereby added as follows:

Section 30-22 Findings of Fact

The city hereby finds that uncontrolled and inadequately planned use of wetlands, woodlands, natural habitat areas, areas subject to soil erosion, areas used for material storage and areas containing restrictive soils adversely affects the public health, safety and general welfare by impacting water quality and contributing to other environmental problems, creating nuisances, impairing other beneficial uses of environmental resources and hindering the ability of the city to provide adequate water, sewage, flood control and other community services. In addition, extraordinary public expenditures may be required for the protection of persons and property in areas which may be affected by unplanned land usage.

Section 30-27 Bulk Storage of Deicing Chemicals

Proper salt storage practices are required at commercial, institutional, and industrial facilities in accordance with the effective Minnesota Pollution Control Agency's General Permit to Discharge Stormwater Associated with Small Municipal Separate Storm Sewer Systems. The following requirements apply to all designated salt storage areas at commercial, industrial, and industrial facilities:

- a) Salt storage areas must be fully covered or indoors;
 - b) Salt storage areas must be located on an impervious surface;
 - c) Practices must be implemented to reduce exposure when transferring material in designated salt storage areas (e.g., sweeping, diversions, and/or containment).
-

Section 2: This Ordinance shall take effect after its passage and summary publication.

Passed and adopted by the Common Council this 13th day of June, 2023.
