<b>Subject:</b>	Project PK-011: C Street/Southview Drive Trail
<b>Background Information:</b>	<p>City staff secured a Transportation Alternatives grant in 2020 in the amount of \$399,528 for the construction of this shared use path. In addition, city engineering staff submitted for Active Transportation grant funds in 2024 with the hope of the AT grant funds covering the remaining local share of the project costs. If an AT grant is not secured, the city’s Municipal State Aid Street (MSAS) funds will be used to cover all costs in excess of \$399,528.</p> <p>This project is scheduled in our capital plan for 2025. Because the project is federal, the Engineering Department has a large permitting and process burden to overcome. Numerous steps have already been taken, but we are now looking to finalize our general route and plan for the project so we can finalize design and keep the process moving. Included in the packet is the proposed trail route and general features. City engineering staff will need to procure some easements from various property owners and work through some utility adjustments.</p>
<b>Fiscal Impact:</b>	
<b>Alternative/ Variations:</b>	No alternative actions recommended.
<b>Recommendations:</b>	Approval of the proposed route and general design considerations for this project.
