Subject: Request for Repairs & Improvements – East Side of Tennis Court
Date: 2025-06-10

I'm reaching out to request funding from the Parks Equipment Replacement Fund (ERF) for repairs and improvements to the east side of the tennis court. The current fence has bent poles and a section with a cut hole, which poses a safety risk to players and visitors. Addressing this issue is also a necessary step in the larger project to install the Sterling Walsh family backboard.

The total estimated cost is \$10,800: \$7,800 to replace the damaged fence and \$3,000 to add the infrastructure needed for the backboard installation. The \$3,000 for the backboard support will be reimbursed to the Parks ERF through ongoing fundraising efforts.

I'm requesting approval for the full \$10,800 to ensure the fence is repaired and the court is ready for the new backboard.
