# Mayor's Budget Message

## **1) Executive Summary**

This budget focuses on essentials, reliability, and affordability. The budget as presented includes CPI rate adjustments generating \$110,000 in revenue. I propose achieving 0% rate increases for Electric, Water, and Sewer through strategic cost reductions and alternative revenues—protecting affordability while building fiscal resilience.

### **By the Numbers (2026)**

#### **Proposed Rate Policy:**

- **0% increase** for Electric, Water, Sewer (replacing \$110K CPI revenue through efficiencies)
- **Stormwater:** CPI adjustment per ordinance (~3%)
- **Property Tax:** No levy increase (bank capacity)
- **Utility Taxes:** No percentage increases

#### **Affordability Strategy (replaces \$110K CPI revenue):**

- Light & Power: Reduce department expenses = **\$205,000** savings
- Solar Farm: **\$43,000** annual revenue (zero city capital cost)
- Transportation Benefit District: \$40,000-\$80,000 potential
- Business licensing and city fee review: \$10,000-\$25,000 potential
- **Total: \$298,000-\$353,000 | Net surplus: \$188,000-\$243,000**

#### **Additional Revenue Consideration:**

- Fire Levy: Evaluate placing lapsed fire levy before voters for Fire service funding

#### **Major Projects:**

- **Beerbower Park Phase 1:** \$753,000 (RCO \$500K + Commerce \$253K + \$93K in-kind match)
- **Streets:** \$532,000 capital investment (federal grant + match)
- **Alleys:** Priority for 2026 maintenance

## **2) Community Highlights & 2026 Priorities**

### **2025 Accomplishments:**

- Completed W. Maple Street sidewalk (Beehive to Transit Station)
- Finished chip & fog sealing on poor-condition streets
- Installed wastewater treatment plant chiller
- Recovered legacy payment errors and reduced unnecessary spending
- Restored Civil Service Commission with regular meetings
- Modernized utility meter-reading and outage reporting systems
- Installed public safety cameras at Beerbower Park and Transit Station

## **2026 Focus:**

- Deliver Beerbower Park Phase 1 improvements
- Complete Light & Power cutover project
- Implement operational efficiencies in the Power Department to protect residents from rate increases
- Advance Solar Farm for long-term rate stability (\$43K annually, \$860K+ over 20 years)
- Develop Transportation Benefit District, business licensing, and comprehensive city fee review
- Evaluate fire levy ballot measure for Fire service funding

## **3) Rate Policy & Financial Strategy**

### **Proposed 0% Rate Increases**

The budget includes \$110,000 from CPI rate increases. I propose giving up this revenue and replacing it through:

1. **Light & Power Cost Reduction:** Reduce department expenses = \$205,000 savings (requires operational restructuring and Council approval)
2. **Solar Farm:** \$43,000 annually (zero capital cost; \$3,583/month cost of delay)
3. **Transportation Benefit District:** \$40,000-\$80,000 (vehicle fee \$20-50; ~2,000 vehicles)
4. **Business licensing and city fee review:** \$10,000-\$25,000 (supports economic development tracking and ensures fees reflect actual service costs)

**Financial Result:** Creates \$188,000-\$243,000 surplus for reserve rebuilding, infrastructure investment, and fiscal resilience.

### **Fire Levy Consideration**

The City's fire levy has lapsed. Council should consider placing a fire levy measure before voters to provide dedicated funding for Fire services. This would:

- Provide sustainable funding for fire protection services
- Reduce pressure on General Fund for Fire operations
- Allow voters to directly support public safety services
- Require ballot measure preparation and public education campaign
- Timeline: Could be placed on 2026 ballot with Council direction

**Note:** Stormwater follows CPI ordinance (calculated as average of Seattle-Tacoma-Bremerton and US All City CPI-U, June-to-June). No utility tax percentage increases proposed.

## Affordability & Reserves

- Develop low-income utility assistance policy
- General Fund reserves currently at 17.8% of expenditures (below recommended 25-35%)
- Surplus from affordability strategy enables reserve rebuilding toward industry standards
- Property tax capacity banked to preserve future flexibility

## 4) Major Expenditures & Capital Projects

### Beerbower Park Phase 1 – Fully Funded (\$753,000)

**Funding:** RCO \$500K + Commerce \$253K + in-kind match \$93K

#### Improvements:

- Playground extension (20 ft), equipment replacement, inclusive pieces, rubber tile surface
- Walking path loop around park
- Pickleball and basketball court resurfacing
- ADA restroom upgrades with full replumb
- Electronic reader board, south parking resurfacing
- Community garden in northwest corner
- Beautification: benches, picnic tables, planters, landscaping

**Timeline:** Archaeological review early 2026; construction through year

### Streets & Transportation (\$532,000)

- Federal transportation grant project (planning/engineering phase)
- Routine maintenance: crosswalks, curb painting, pothole response
- **Alleys:** Top priority
- Lower 3rd Street: Reserve match; pursuing legislative support
- S. 6th Street sidewalk: Maintain 5% TIB match for connectors

## Public Safety

- Police equipment: \$4,453 (state standards compliance)
- Fire equipment: \$10,000
- Fire Levy LID Lift: \$211,901 (completing projects; fund depleted)

## Utilities

- Light & Power: Complete cutover project; operational restructuring; \$113K reserve utilization
- Water/Sewer/Storm: Advance Capital Facilities Plan; prioritize reliability and compliance

# 5) Staffing, Risks & Implementation

## Staffing & Operational Efficiency

- **Light & Power:** Reduce department expenses by \$205,000 through operational restructuring — requires detailed plan with service level protections and performance monitoring
- **Citywide hiring freeze:** No new positions except critical emergencies
- IBEW negotiations underway; any agreement incorporated via amendment
- Emphasis on cross-training, process improvements, and workload management

## Key Risks & Mitigation

1. **Operational risk:** Light & Power expense reduction requires excellent transition planning and service level monitoring
2. **Solar Farm delay:** \$3,583/month cost; resolve deliberations and begin Q1 2026
3. **Alternative revenue timing:** TBD, business licensing, and fee review require Q1 Council actions
4. **Financial cushion:** Core strategy (Power savings \$205K + Solar \$43K = \$248K) provides \$138K surplus even if TBD/licensing/fees produce zero

## Critical Decisions

1. Utility rate policy (CPI vs. 0% with replacement strategy)
2. Light & Power expense reduction plan (\$205,000 savings)
3. Solar Farm approval (\$43,000 annual benefit, zero capital cost)
4. Transportation Benefit District formation (Q1 2026)
5. Business licensing ordinance and comprehensive city fee review (Q1 2026)
6. Fire levy ballot measure consideration for voter approval

## 6) The Choice: Two Paths Forward

### Path A (Budget as Presented):

- Apply CPI increases (~\$110K revenue)
- Maintain current staffing
- Reserves decline \$290,709

### Path B (Mayor's Proposal):

- **0% rates** for Electric, Water, Sewer
- Reduce Light & Power expenses by \$205,000
- Activate Solar Farm and alternative revenues
- Create **\$188K-\$243K surplus** for reserves and infrastructure
- Transform Light & Power from deficit to surplus
- Build long-term revenue diversification
- Demonstrate operational excellence and fiscal innovation

### Path B Requirements:

- Light & Power operational restructuring plan
- Solar Farm approval
- Council actions on TBD, business licensing, and fee review
- Performance monitoring
- Fire levy ballot measure evaluation and preparation

## 7) Closing

This budget reflects my commitment to keeping McCleary affordable while moving our city forward. Through operational efficiency and smart revenue strategies, we can protect residents from rate increases, strengthen our fiscal position, and invest in our community's future. McCleary will remain an affordable place to live, work, and raise a family.

**Respectfully submitted,**

**Chris Miller**  
Mayor of McCleary

## Elected Officials

		<u>Term Expires:</u>
Chris Miller	Mayor	December 31, 2025
Jacob Simmons	Council Position #1	December 31, 2026
Brycen Huff	Council Position #2	December 31, 2026
Brent Schiller	Council Position #3	December 31, 2025
Andrea Dahl	Council Position #4	December 31, 2025
Keith Klimek	Council Position #5	December 31, 2025

## Staff

Jon Martin	City Administrator
Jamie Vinyard	City Clerk-Treasurer
Vacant	Public Works Director
Ryan Miskell	Police Chief

# Budget Development Process

The budget includes financial planning and legal authority to obligate public funds. Additionally, the budget provides policy direction by the City Council to the staff and community.

The budget serves four functions:

## **It is a Policy Document**

The budget functions as a policy document in that the decisions made within the budget will reflect the general principles or plans that guide the actions taken for the future. As a policy document, the budget makes specific attempts to link desired goals and policy direction to the actual day-to-day activities of the City staff.

## **It is an Operational Guide**

The budget of the city reflects its operations. Activities of each City fund or department have been planned, formalized and described in the following sections. This process will help to maintain an understanding of the various operations of the City and how they relate to each other and to the attainment of the policy issues and goals of the City Council.

## **It is a Link with the General Public**

The budget provides a unique opportunity to allow and encourage public review of City operations. The budget describes the activities of the city, the purpose of those activities, future implications, and the direct relationship to citizens.

## **It is a Legally Required Financial Planning Tool**

Preparing and adopting a budget is a state law requirement of all cities as stated in Title 35A of the Revised Code of Washington (RCW). The budget must be adopted as a balanced budget and must be in place prior to the beginning of the City's fiscal year. The budget is the legal authority to expend public funds and controls those expenditures by limiting the amount of appropriation at the fund level. The revenues of the City are estimated, along with available cash carry-forward, to determine funds available.

The City operates on a calendar-year basis. The city utilizes an incremental budgeting approach that assumes, for most functions of government, that the current year's budget is indicative of the base required for the following year. Any increases are incremental and based on needs defined by budget policies, emerging issues, Council goals and available resources.

# Budget Calendar

## **October 22**

- Mayor's proposed budget + budget message presented to Council
- Public hearing – revenue sources

## **November 5**

- First read – property tax ordinance
- Budget discussion (if needed)

## **November 19**

- Public hearing on preliminary budget
- Second read – property tax ordinance
- First read – budget ordinance

## **December 3**

- Public hearing on final budget
- Second read – budget ordinance & budget adoption

After the budget is adopted, the City enters a budget implementation and monitoring stage. Throughout the year, expenditures are monitored by the City Clerk and department directors to ensure that funds are within the approved budget. The City Clerk provides the City Council with quarterly reports to keep them current with the City's financial condition.

The Mayor is authorized to transfer budgeted amounts within a fund; however, any revisions that alter the total expenditures of a fund, or that affect the number of authorized employee positions, position titles, salary ranges or other conditions of employment must be approved by the City Council.

When the City Council determines that it is in the best interest of the City to increase or decrease the appropriation for a fund, it may do so by ordinance adopted by Council.

# Budget Principles

## **General Principles**

- Department directors have primary responsibility for formulating budget proposals in line with City Council and Mayor directions, and for implementing them once they are approved.
- The City Clerk Treasurer is responsible for coordinating the overall preparation and administration of the City's budget. This function is fulfilled in compliance with applicable State of Washington statutes governing local government budgeting practices.
- The City Clerk Treasurer assists department staff in identifying budget problems, formulating solutions and alternatives, and implementing any necessary corrective actions.
- If presented, Interfund charges will be based on recovery of costs associated with providing those services.
- Budget adjustments requiring City Council approval will occur through the ordinance process at the fund level prior to the end of the fiscal year.
- The City's budget presentation will be directed at displaying the City's budget in a Council and Citizen-friendly format.

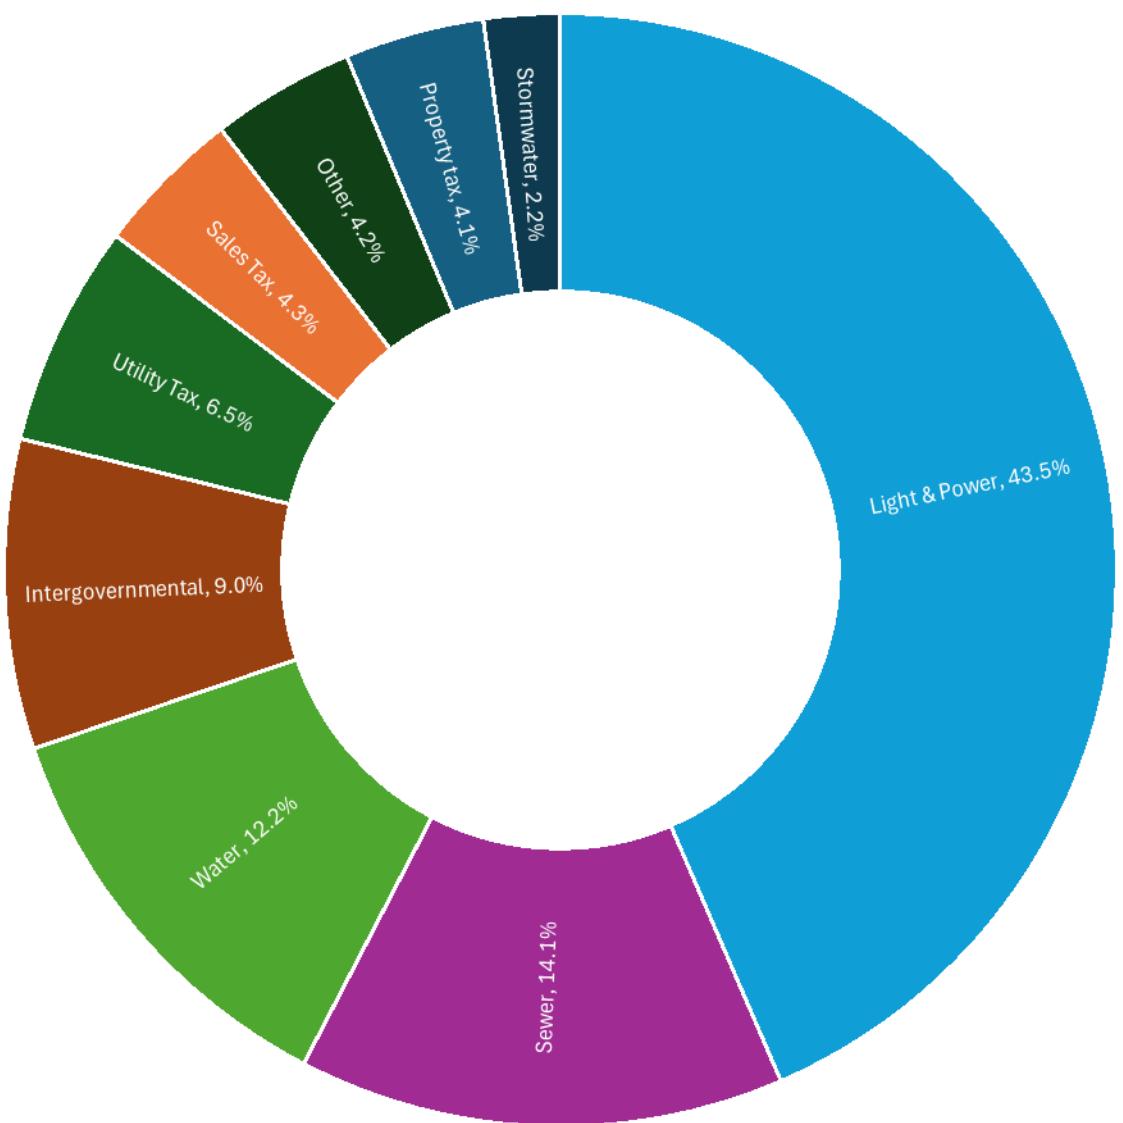

## **Basis of Accounting**

- Annual appropriated budgets are adopted for all funds on the cash basis of accounting.
- Budgets are adopted at the fund level that constitutes legal authority for expenditures. Annual appropriations lapse at the end of the fiscal period.
- The **General Fund** is the primary fund of the City. It accounts for all financial resources except those required or elected to be accounted for in another fund.
- **Special Revenue Funds** account for revenue sources that are legally restricted or designated to finance certain activities.
- **Capital Project Funds** account for major construction projects.
- **Enterprise Funds** account for operations that provide goods and services to the general public and are supported primarily by user charges.

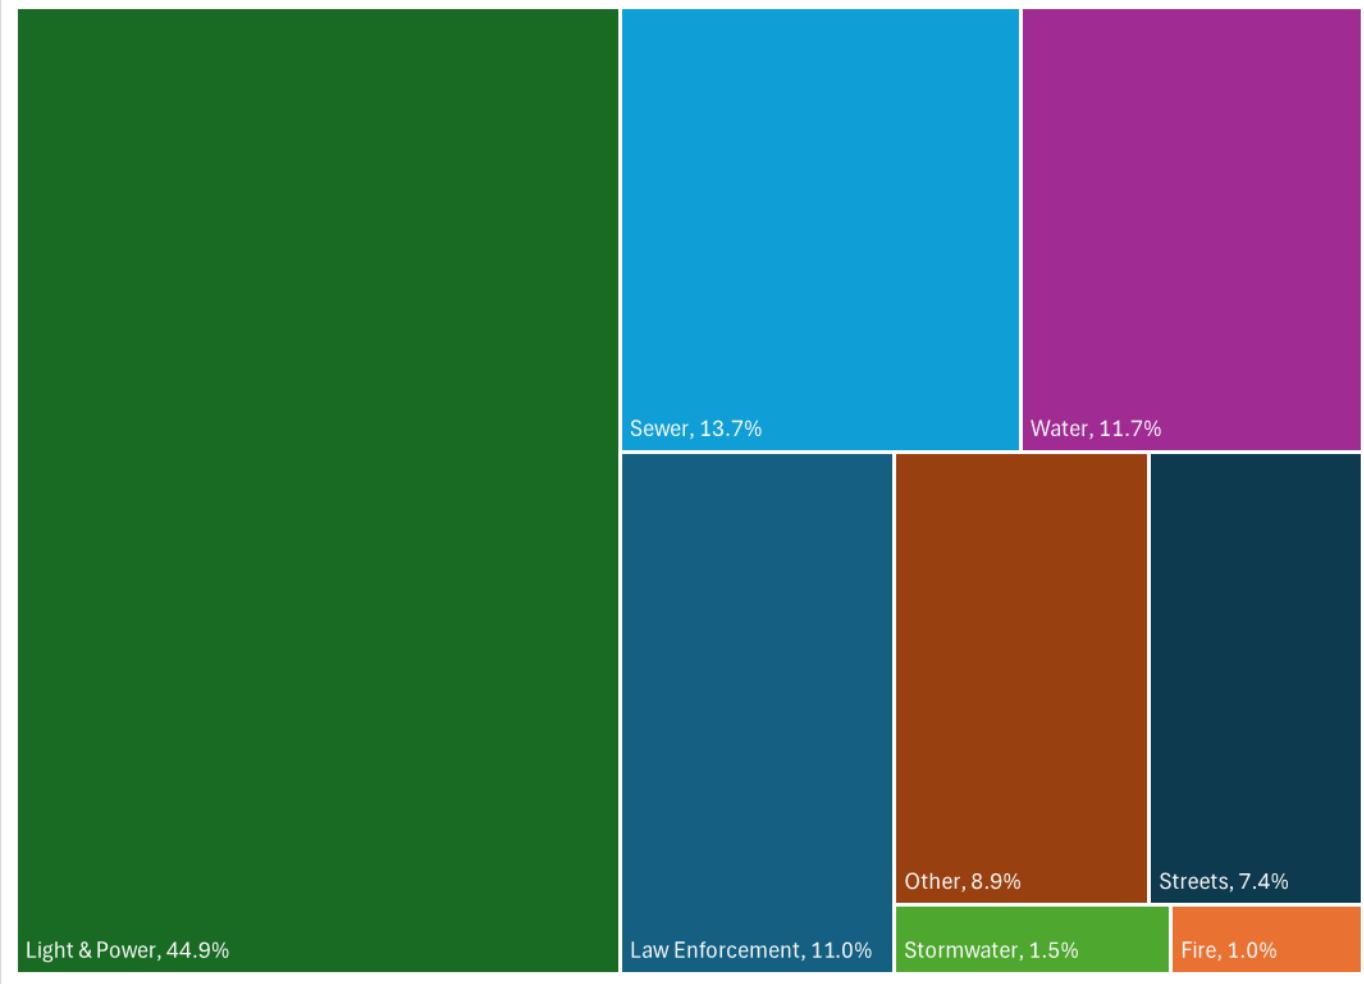

## City-Wide Budget Summary

<b>Fund</b>	<b>Beginning Fund Balance</b>	<b>Revenues</b>	<b>Expenditures</b>	<b>Increase (Decrease)</b>	<b>Ending Fund Balance</b>

### 2026 Revenue Sources - All City Funds

## 2026 Expenditures - All City Funds

# Cost Allocation

## **Background**

Indirect cost allocation is a method to determine and assign the cost of central services to the internal users of those services. Cost allocation enables local governments to more accurately account for the complete cost of the services it provides, and to provide a clear/concise method to use in budget development.

Indirect costs include central services costs related to legislative, executive, administration, finance, and legal services.

Cost allocation plans share indirect costs across programs, activities, funds and departments. The term “allocation” implies that there is no precise method for charging indirect costs, however cost allocations should be designed to provide a consistent, reasonable and equitable means to allocate costs.

## **Funds to Be Charged**

An indirect cost allocation plan is intended to charge restricted funds for a fair and equitable portion of central services costs. The City has two fund types that could be eligible for indirect cost allocation – special revenue funds and enterprise funds.

Special revenue funds must be at least partially funded by an externally restricted or internally assigned revenue source; however, the special revenue funds can be, and many are, subsidized by the general fund. Therefore, there is no benefit to be had by including most special revenue funds in the indirect cost allocation plan (increasing expenditures in funds subsidized by the general fund would simply increase the amount of general fund subsidy required).

The City’s enterprise funds must be self-supporting and cannot receive general fund support in the form of subsidization or services provided at no charge. An indirect cost allocation plan is the appropriate way to charge enterprise funds for services provided by the general fund. The City’s current enterprise funds subject to allocation are Light & Power, Water, Sewer, Storm, and Ambulance.

The cost allocation plan shall be developed based on the principle that costs will be split between general government activities (those pertaining to the general fund and special revenue funds) and enterprise activities. Enterprise activities will be further allocated by fund, based on the criteria described below. General government activities will remain in the general fund.

## **Costs to Be Allocated**

The following costs are subject to allocation:

- Salaries, benefits, supplies, training, equipment, etc. associated with:
  - Mayor and City Council (511)
  - City Administrator/Mayor (513)
  - Finance Department (514)
  - Legal (515)

Costs listed above are paid for out of the general fund and primarily exist for the support of the City as a whole. Costs included in the allocation plan should be administrative in nature and must be reasonably perceived to benefit all City funds. Therefore, the cost of services such as public safety, street maintenance, community events, etc. are excluded from the plan and are not subject to allocation.

#### **Activities & Measurement Criteria**

The activities on which to base allocations and the measurement criteria for those activities are identified in the following table.

ACTIVITIES	MEASUREMENT CRITERIA
Payroll	Salaries/benefits expense
Utility Billing	Total revenue
Accounts Payable	Non-salary expenses
Mayor and Council	Quantity of agenda items
General accounting & administration	Total expenses w/out transfers or debt service
Insurance	Total expenses w/out transfers or debt service

#### **Budget & Accounting Procedures**

1/12<sup>th</sup> of the budgeted overhead allocation for the year will be charged each month.

At year end, actual costs shall be input into the plan and a year-end adjustment processed. The adjustment should be based on actual cost inputs into the plan (i.e., actual costs incurred by the "charging" General Fund departments). The allocation factors (each "receiving" department's proportionate share) will not be updated as part of the year end adjustment. The purpose of the year end adjustment is to allocate the correct total cost, but not to change the percentages charged to each fund.

The cost allocation plan should be reviewed during each budget development cycle. It is not necessary to update the activities or measurement criteria on an annual basis if the plan has been reviewed for general reasonableness. If significant changes have been made which may affect the overall allocation percentages then the plan should be updated. The plan should be updated at least every three years.

### **Costs Excluded from Allocation**

- A) This plan assumes that Public Works staff will begin charging direct time to appropriate funds/departments based on actual hours worked. The existing allocation process will be discontinued.
- B) Insurance will be charged directly based on the following percentages (percent of total expenses, excluding debt service and transfers):

001 General Fund – 22%  
401 Light & Power – 48%  
405 Water – 11%  
407 Sewer – 15%  
409 Stormwater – 2%  
413 Ambulance – 2%

<b>508 Ending Fund Balance</b>		<b>433,798</b>	<b>294,212</b>	<b>144,874</b>	<b>308,970</b>	<b>283,166</b>
<b>Ending Fund Balance as % of Expenditures</b>		<b>26%</b>	<b>19%</b>	<b>9%</b>	<b>22%</b>	<b>18%</b>

The budgeted decrease in fund balance is due to two one-time items: 1) 2026 is the last year in which property tax revenue will be decreased by \$16,000 to correct prior over-levy; 3) \$10,000 for a portion of the local match related to a grant-funded Street project (majority of the match is coming from the fire levy fund in the amount of \$212,000).
