Hello All,

This last month we had 2 outages, completed 6 maintenance work orders and other miscellaneous projects.

One outage was a tree down on Summit Rd and the other was the scheduled outage that transferred 130 of our customers from the 4KV sub to the 12KV sub. At this point we only have another 19 customers cutovers in the city limits and 51 customers that live in the Sand Creek Area. We are currently preparing the Sand Creek area for cutovers and hopefully have them on the 12KV sometime in August.

This week the crew will be assisting in preparations for Bear Festival.

Have a happy and safe 4<sup>th</sup> of July!!

If anyone has any questions or concerns, feel free to contact us...

Paul
