Date:	7/5/2026
Department:	Public Works

Hello Everyone,

Bear fest is right around the corner! The Crew is working hard to get the city looking good for 4th of July and Bear fest.

In June the crew completed a water leak on summit rd. what was found was a 1” Steel line that we had no record on. With the help of City of Elma, they brought in their Vac Truck since we have a lot of utilities in that area to make the project go smoother. Once we located the line, we found that there were 2 leaks on that service line.

Once Bear fest is concluded, we will be starting a few storm projects on 2nd Street. These problems were sent to FEMA last winter; we have been in contact with FEMA and have a certain amount of time to get these projects completed. Please see attached picture.

If you have any questions, feel free to reach out to me

Thank You

Cory Marsh
