

City of McCleary

STAFF REPORT

To:	Mayor Miller and City Council
From:	Kevin Trehwella
Date:	December, 2025
Department:	Water and Wastewater

Water and Wastewater:

More rain than we have seen recently, which increases flow to the WWTP, has caused us to make changes to operations. Thanks to an experienced operations team, we can keep the WWTP working smoothly.

The Water Treatment plant has now been operational for 12 years. We have some small, yet important, preventative maintenance and repairs coming up, this will keep the wells operating without unplanned interruption. New ethernet cable between well houses installed December 01, 2025.

Have a Great Holiday Season!

Kevin Trehwella
