Communications

- The Water department recently received its first partial order of new water meters that are for the meter replacement program, the water meters are intended for the Home acres, Treat Hwy & 223 and several commercial and business accounts, the water meters in this area were originally installed in 1996 and are due for replacement to assure reliability and continued accuracy.
- The water department recently published its annual water quality report. The report was published in the daily telegram on June 30th, 2026, copies of the report are available to anyone interested upon request or can be found on the township's website
- The WTP improvement project is going well, the second water filter has been installed at the water treatment plant, and the piping and valves for the filter are being constructed, along with lots of needed electrical upgrades, progress continues and the current schedule may be as early as the end of July or early August 2026.
