

### City of Madeira Beach Special Area Plan Town Center Character Districts

Prepared by the Pinellas Planning Council with data provided by the Pinellas County Information Systems Department and the City of Madeira Beach. The data contained herein is offered "as is", with no claim or warranty as to its accuracy or completeness. The data is for reference only and should not be considered to be of survey precision. None of the information is official source documentation. While considerable effort is made to verify the information, due to its volume and highly dynamic nature, only the official source documents should be used where accuracy, completeness and currency are required.

**Development Standards**

The following table describes the maximum density and intensity of development, and other development standards, in each of the districts within the Town Center.

Table 1: Development Standards

District	Density		Floor Area Ratio		ISR <sup>2</sup>	Stories above BFE <sup>3</sup>
	Residential units	Temporary Lodging units	Commercial only	Mixed Uses		
Causeway	15	60	0.55	*	0.70	3
Commercial Core	15	60	1.2	Permitted	0.85	3
Beachfront	15	30	0.55	*	0.70	3
Peninsula	15	15	0.30	*	0.70	3
Transition	15	60	1.2	*	0.70	2

\* Shall not exceed, in combination, the respective number of units per acre and floor area ratio permitted, when allocated in their respective proportion to the gross land area of the property.

The development standards for a Temporary lodging Use in the Commercial Core and C-3 and C-4 zoning districts of the Causeway districts may be increased consistent with the standards set forth in the Resort Facilities High (RFH) plan category when part of a zoning amendment

**Calculating Proportionate Share and Mixed Uses**

Within the Beachfront, Peninsula, and Transition districts, and any portion of the Causeway district other than that zoned C-3 and C-4, when mixed uses are proposed on one parcel or within one building, the combined uses shall not exceed the number of units per acre or floor area ratio (FAR) in proportion to the development site. The proposed development must identify the specific uses proposed, the maximum density or intensity of each specific use, and the proportion of the development site to be devoted to that use. The proposed development shall demonstrate that the combined uses do not exceed the units or FAR in proportion to the development site. The City will implement this requirement through existing land development regulations to ensure that mixed uses comply with the Pinellas Planning Council Countywide Plan rules as well as any new mixed use zoning districts that may be created to implement the Town Center Special Area Plan.

<sup>2</sup> ISR – impervious surface ratio

<sup>3</sup> BFE – base flood elevation
