BUDGETED AMOUNT: NA

FUNDS REQUESTED: N/A

FUND:

EXECUTIVE SUMMARY:

CLEMIS has served Oakland County courts and public safety agencies for decades by providing a shared technology platform that allows courts to access, share, and manage critical public safety information. The attached Participation Agreement authorizes the 43rd District Court – Madison Heights to continue participating in the Courts and Law Enforcement Management Information System (CLEMIS) under a newly established CLEMIS Authority. While the management of the system is transitioning from the Oakland County Information Technology Department to an independent intergovernmental authority, the services and functionality currently relied upon by the 43rd District Court – Madison Heights will remain in place. The new structure is designed to ensure the continued operation and oversight of the CLEMIS system by the entities that use it.

The Participation Agreement maintains existing protections related to data ownership, security, confidentiality, and CJIS compliance, while ensuring participating entities retain ownership and access to their data. The CLEMIS Authority is governed by representatives from participating members, and as a member, the 43rd District Court – Madison Heights will have representation on the Authority Board. This provides 43rd District Court – Madison Heights with a voice in future decisions regarding the operation, services, and costs associated with the system. Approval of the Participation Agreement will allow 43rd District Court – Madison Heights to remain an active partner in a regional public safety network while helping guide the future of a system that is essential to our court operations.

RECOMMENDATION:

Sharon Arseneault, Court Administrator for the 43rd District Court – Madison Heights recommends City Council approve the attached CLEMIS Participation Agreement.
