

MEMORANDUM

DATE: March 28, 2025
TO: MHDDA Board
FROM: Giles Tucker - Community & Economic Development Director
SUBJECT: Site Furnishings- Trash Bins

Quotes have been gathered from three companies for the purchase of a total of (4) trash bins for the project area. A summary of the unit costs and expected cost of shipping is as follows:

Trash Bins							
	Uline			ThePark		Victor Stanley	
	Terrace	Courtyard w/ bonnet	Plaza Trash Can No Rain Bonnet?	Executive w/Door	Executive No Door	S-42	SD-42 with bonnet
Unit	\$1,050.00	\$800.00	990	\$787.00	\$727.00	\$1,684.00	\$2,254.00
Qty.	4	4	4	4	4	4	4
Shipping	\$290.74	\$202.66	236.53	\$643.78	\$589.95		
Total	\$4,490.74	\$3,402.66	4196.53	\$3,791.78	\$3,497.95	\$6,736.00	\$9,016.00

Included with this memo is a summary of these bins including what they look like and their features. The "Plaza" bin by Uline doesn't have an option with a rain bonnet. Uline's "Courtyard" is quoted above with the bonnet but is available without it for modest savings per unit. All these options are powdered coated steel.

STAFF RECOMMENDATION:

Staff recommends the MHDDA select the "Executive" trash bin with rain bonnet and door by the company ThePark for the unit price of \$787.00 per bin. The rain-bonnet cuts down on the amount of water that would get into the bin, less wet trash is better. Adding a door to the bin makes it a lot easier for the trash to be removed, opposed to lifting the bonnet and top off and pulling the trash out from the top. The more products that are ordered from a single company, the greater savings in shipping we may have.
