

Project B
Downtown Development Authority Area (DDA)

Site Information

The contractor should assume that the right-of-way area (between the sidewalk and the street curb) along the major road, and to the rear property line for corner lots on side streets for all properties within the Downtown Development Authority Area will require mowing and maintenance services. An exception list will be provided prior to the mowing season each year. The DDA boundaries are: John R from Gardenia to 10 Mile Road and Eleven Mile Road from Interstate 75 to Lorenz, as shown on the enclosed map.

The trash removal services, upon approval by the DDA, shall encompass the same area. Existing receptacles are noted on the enclosed map as well.
