

MEMORANDUM

DATE: **October 12, 2023**

TO: **Melissa R. Marsh, City Manager**

FROM: **Sean P. Ballantine, Director of Public Services**

SUBJECT: **Project Award - DPS Facility Pavement Repairs**

Over the last several budget cycles, DPS has continued a phased replacement of the failing pavement around the building and yard. This phased approach has allowed us to both reduce the impact on the budget and allow for normal DPS operations to continue while the work is being done. The next identified phase is the western driveway and staging areas.

Staff reached out to Nowak and Fraus, the City's consulting engineers, to measure and estimate the cost of this phase based on DiLisio's unit bid price for concrete. DiLisio was awarded the most recent bid for both the R-3 reconstruction and Major and Local Sectional paving projects. The scope of work is within the budgetary amount, and DiLisio will be able to replace the concrete this fall, or in the spring if the weather changes.

This phase of pavement repair corrects significant drainage issues involving the police reserve carport, as well as providing a staging pad for the large plows and other equipment, which currently sink into the gravel where they are stored. A permanent concrete brine containment unit is also being constructed as part of the project, replacing the temporary plastic and wood structure currently in place. These repairs will greatly improve operating conditions for the DPS and Police Reserves, and regulatory compliance as it relates to brine storage and runoff prevention.

Staff recommends that Council award the contract for the DPS Pavement Repairs to DiLisio Contracting, of Clinton Township, Michigan, in a project amount of \$310,000.64. Funding is budgeted and available.
