Dear Representative Caraveo:

On behalf of the Town of Mead, I would like to express our heartfelt appreciation for your dedicated efforts in securing federal funding that will substantially contribute to our community's development and safety.

The allocation of \$1 million towards the 3rd and Welker intersection project is pivotal to improving safety for motorists, bicyclists, and pedestrians. This project's importance cannot be overstated, as it addresses critical safety concerns and aligns with our town's objectives of fostering a secure and accessible transportation network. Your advocacy and commitment to prioritizing Mead's needs are commendable.

Furthermore, we are thrilled about the federal funding to support the High Plains Boulevard I-25 Arterial Road, as we recognize its potential to transform Mead's landscape. We are confident that this arterial road will leave a lasting, positive impact on Mead's transit infrastructure, facilitating efficient commutes and advancing community growth.

We eagerly anticipate the tangible benefits of these infrastructure investments, which will undoubtedly enhance the quality of life for all Mead residents. Thank you for your unwavering support and dedication to the 8th District of Colorado. Your efforts are genuinely appreciated and valued.

Warm regards,

A handwritten signature in cursive script that reads "Colleen Whitlow".

Colleen Whitlow
Mayor, Town of Mead
