- On Saturday, February 10, 2024, the Medina Council held a retreat at Overlake Golf and Country Club. The purpose of the retreat was to set goals and priorities for 2024 and 2025. Staff has been working to provide a work plan to present to the Council for review, discussion, and direction.

The work plan is on the Monday, March 25 Council Meeting Agenda.

- SR 520 Expansion Joint Noise Reduction - The City of Medina has been working with the State of Washington to fund the University of Washington Expansion Joint Noise Reduction Project. The University of Washington has developed a potential product to reduce expansion joint noise on SR 520 but needs additional funding to test durability – Phase 3. The 2024 Washington State Transportation Budget did not include funding for the project. City staff will be working with legislators to fund the project through legislative and other methods.
