<b>2. Development Regulations</b>	In relation to the completion of the Comprehensive Plan in October 2024, the Land Capacity Analysis (LCA) noted: <i>In partnership with LDC, the City has analyzed development capacity for the 2024-2044 planning period according to King County UGCR and Commerce guidance applicable to new State regulations implementing HBs 1220 and 1337. This LCA found that the City has housing capacity through zoned and ADU development potential but lacks zoning that supports housing affordable to households with income less than 80% of AMI. Consequently, there is a shortfall of 19 housing units that must be addressed to meet the requirements of RCW 36.70A.070(2). To address this shortfall, Medina is exploring alternative zoning options.</i>	Staff: Work with the consultant to get the stnds. updated.	Yes, LDC	The deliverable will conform to the changes made under the 2024 Comp Plan Update.	The Comp Plan grant approved for Medina will fund part of this project. The Dev. Regs. <b>3. Middle Housing Update</b>	This is in response to the State Legislature passed both Accessory Dwelling Unit legislation (ESHB 1337) and Middle Housing legislation (HB 1110, as modified by ESSB 2321) (codified as RCW 36.70A.635 - .638; RCW 36.70A.630; and RCW 36.70A.680 - .682). These laws require certain cities to allow accessory dwelling units on single-family lots subject to certain conditions and require certain cities to allow changes to density on single-family lots, as well as require certain cities to allow zero-lot line subdivisions. The deadline for cities to have land use code updates in compliance with these laws is June 6/30/25 for King County cities.	Staff: Work with the consultant to get the Middle Housing mandates intergrated into the MMC.
