**Date:** September 12, 2022  
**To:** Honorable Mayor and City Council  
**Via:** Stephen R. Burns, City Manager  
**From:** Ryan Osada, Public Works Director  
**Subject:** Public Works Monthly Report

---

1. **NE 7<sup>TH</sup> STREET IMPROVEMENTS** – Kamins Construction started the stormwater portion of the project last month which is scheduled to complete September 15<sup>th</sup>. The second phase of the project will be to perform pavement repairs, grind and overlay the surface of NE 7<sup>th</sup> Street. Pavement striping and landscape restoration will follow the overlay with substantial completion expected September 29<sup>th</sup>.

2. **TIB 2022 CRACK SEALING PROJECT** – In 2022, the Transportation Improvement Board (TIB) incorporated a maintenance program as part of the pavement preservation program. This new program provides several pavement repair options to extend the life of asphalt overlays. As a pilot to this new program, TIB awarded grants to cities allowing them to start the preliminary phases of preventative maintenance.

3. **TIB SMALL CITY APPLICATIONS** – Public Works submitted three grant applications to the Transportation Improvement Board for the 2022-2023 funding cycle. The applications included overlaying Upland Road, installing sidewalks on 81<sup>st</sup> Ave NE and additional crack sealing. TIB will meet in October 2022 to review the applications and reveal their project selection list in November 2022.

## Small City Programs

The Transportation Improvement Board provides funding for cities and towns with a poor match. The Small City Arterial Program (SCAP), the Active Transportation (ATP) Program, the Small City Preservation Program, and the Religious Landmark Preservation Program fund projects with the intent of providing suitable transportation infrastructure. These programs are designed to help communities that do not have the financial ability to fund large transportation improvements; to provide a match.

### Small City Arterial Program (SCAP)

OVERVIEW

4. **MAINTENANCE** - Summer has been increasingly busier for the Public Works crew. The parks are frequently used by our neighboring cities, especially Bellevue. Regular maintenance such as garbage requires multiple runs daily and overtime for weekend attendance. We are also dealing with keeping our plants and trees watered during the long periods of hot dry weather. Public Works also assists with summer events such as Medina Days and the Seafair festivities.

## **5. PROJECT UPDATES -**

**2015 Medina Park Stormwater Pond Imp.** – We are looking into alternate ways to dredge the stormwater ponds. Overlake Golf & Country Club is applying for a permit to dredge the northern ponds. Depending on the outcome, the city may use the same method.

**2017 Medina Beach Park Tree Replanting** – Phase III tree planting.

**Medina Park Playground Improvements** – completed

**Post Office Floor Replacement** – Our public works staff will evaluate the subfloor structure and recommended replacement scope.

**Citywide Stormwater System Mapping & Evaluation** – G&O has completed most of the mapping. We are currently working on scoping and mapping the storm infrastructure that is located on several private properties.

**2022 Hazardous Tree Removal** – in review

**NE 12th Street Sidewalk Improvements & Undergrounding** – Finalizing 90% construction drawings. Still waiting for final drawings for luminaire locations. First round of notices was sent to residents along the corridor. *Revised construction schedule Summer 2023.*

**77<sup>th</sup> Ave NE Stormwater Repair** – completed

**TIB\_NE 7th Street Overlay – 84th Ave NE to Overlake Dr** – expected to complete Sept 29th

**77th Ave NE Storm Repair Phase 2 & Phase 3** – partially completed with Phase 1

**2022 Localized Repair\_Stormwater** – site added on Overlake Dr E

**2022 City Hall Repairs – Miscellaneous** – in review
