Hello, In accordance with the provisions of the Public Records Act, Chapter 42.56 RCW (the "PRA"), I hereby submit a request for access to pertinent records held by your Agency. I am seeking to review all available records, which may be in written or electronic form, including but not limited to memos, written notes, documented meeting minutes, correspondence, emails, and text messages. These records should encompass documents from both Agency-issued and personal devices such as mobile phones and computers. I would like to note that I do not require any electronic metadata for this request. The focus of this request is to acquire records that reveal any instances where your Agency, or any third-party entity acting on its behalf, has engaged in the practice of organizing or delivering training, courses, workshops, seminars, or related educational activities to its employees that were racially segregated or that denied participation to individuals based on racial or skin color criteria. These records should include all instances, if any, when your Agency banned white staff from attending such training opportunities. Furthermore, I am seeking detailed explanations or justifications provided by your Agency for such racial segregation, specifically any records that appeal to a justification similar to the "separate but equal" doctrine. For this Public Records Request, specify the desired time frame, starting from January 1, 2000, up to the present day. If this is not suitable, please provide an alternative time range that you would prefer. Please don't hesitate to let me know if any clarifications are needed.
