	<input checked="" type="checkbox"/> Adopt/Approve
	<input type="checkbox"/> Other:

Proposed Council Action: Approve

Summary

The City of Medina owns two bridges located in the 400 block of Overlake Drive East. Both structures were built in 1951 and span approximately 60 feet across a natural hillside depression. The May 2025 inspection report identified deficiencies in the south bridge (1014C) substructure. As a result of these deficiencies and deterioration, the bridge load rating has been reduced from 5 tons per axle to a total load limit of 5 tons.

This contract provides for the repair and/or replacement of timber pile caps and repair of concrete tub girders, traffic control, erosion control, site restoration and other work all in accordance with the Contract Plans, Special Provisions, and Standard Specifications.

Council Priorities

This proposal furthers Council Priorities 1, 2, 3 and 4.

1. Financial Stability and Accountability
2. Quality Infrastructure
3. Efficient and Effective Government
4. Public Safety and Health
5. Neighborhood Character and Community Building

Budget/Fiscal Impact: \$157,950.00

Recommendation: Approve

City Manager Approval:

Proposed Council Motions: I move to authorize the City Manager to negotiate and enter into an agreement with **Zemek Construction Company** for the Overlake Drive East Bridge Repair Project.
