Subject: Housing Element

Category: Discussion

Staff Contact(s): Stephanie Keyser, Planning Manager

Summary

The draft Housing Element is attached for a first discussion. Just as with previous amendments, if something is **red and underlined** that means it's new, if it's **red** that means it's existing language that has been relocated.

Please note that there were a handful of policies not incorporated in this draft because they're land use policies, not housing. I've included them at the end of the draft for your review.
