An emergency preparedness informational pamphlet was presented to the committee and recommendations for revisions were offered and accepted. The QR code that links to the Emergency Preparedness page on the Medina Police website was recommended to be added to a sandwich board sign at the upcoming community events for community members to scan to receive the information immediately on their cell phones. The sandwich board will be set up for Shredder Day events as well.

The Committee discussed having a presence at the upcoming community events. It was decided to combine the handouts and information for the Emergency Preparedness Committee with the Medina Police Department's station at the events.

Giveaway items were presented to the Committee. Emergency preparedness-specific items included the small first aid kits and Medina Police pens that include a flashlight on the end.
