

# Notice of requested changes to PSE rates and public hearings

On February 15, 2024, PSE filed a general rate case with the Washington Utilities and Transportation Commission (UTC) requesting a multiyear adjustment to electric and natural gas rates. The UTC has the authority to approve rates that may be higher or lower than PSE's request. The UTC is examining the proposed rates; the examination can take up to 11 months.

## PSE has requested the following

### Electric Service

- 2025 – An overall 6.74% increase in rates generating an additional \$192.2 million in revenue. A typical residential customer using 800 kilowatt-hours would see an overall average 7.19% increase, or \$7.84 per month.
- 2026 – An overall 9.30% increase in rates generating an additional \$285.2 million in revenue. A typical residential customer using 800 kilowatt-hours would see an overall average 9.58% increase, or \$11.20 per month.

### Natural Gas Service

- 2025 – An overall 18.96% increase in rates generating an additional \$196 million in revenue. A typical residential customer using 64 therms would see an overall average 17.29% increase, or \$13.96 per month.
- 2026 – An overall 2.07% increase in rates generating an additional \$25.3 million in revenue. A typical residential customer using 64 therms would see an overall average 1.59% increase, or \$1.51 per month.

## PSE requests rate adjustments for the following reasons

- To continue to provide safe and reliable energy service through upgrades or modernization projects to existing facilities
- To deploy an advanced distribution management system to support customers' growing use of electric vehicles and distributed energy resources, such as rooftop solar, to reduce the need for large infrastructure projects
- To invest in pipeline reliability investments to enhance the safe operation of the natural gas delivery system and allow it to meet customer demands at times of peak need
- To introduce its Beaver Creek wind farm and provide 248 megawatts of clean energy to about 83,000 homes
- To fund wildfire and mitigation response that includes enhanced vegetation management and infrastructure upgrades, weather stations, AI cameras, advanced safety settings on power lines, and communications and community engagement
- To recover increased operating costs
- To set rates for a multiyear rate plan that reflect upcoming capital investments and operating costs over the two-year period

## Public hearing date and time

NOTE: The figures above represent averages by rate schedule including the basic charge. Individual customers will see a change that is greater or lesser than what is shown, depending on the amount of usage and participation in optional services or bill assistance programs. Most electric and all natural gas customers are billed monthly. Some electric customers are billed every other month. During the UTC's consideration of these proposed rates, other rates may change due to pending or previously approved rate filings. To contact PSE about these proposals: email [customercare@pse.com](mailto:customercare@pse.com); call **1-888-225-5773** (TTY: **1-800-962-9498**); or write to Puget Sound Energy, ATTN: Customer Care, P.O. Box 97034, Bellevue, WA, 98009-9734. Each of the proposed requests can be accessed at <https://www.pse.com/pages/rates/pending-utc-filings>. Bill assistance programs are available to qualified customers who need help with their energy bills. PSE customers can go to <http://www.pse.com/assistance> or call **1-888-333-9882** to learn if they are eligible. Payment plans are also available.
