

2023 City Legislative Priorities

Strong cities make a great state. Cities are home to 65% of the state's residents, drive the economy, and provide the most accessible government. The continued success of cities depends on adequate resources and local decision-making to best meet the needs of our residents.

Washington's 281 cities ask the Legislature to partner with cities and act on the following priorities:

Respond to the *Blake* decision

Support clarification around the crime of possessing a controlled substance so that individuals, law enforcement, and treatment providers can respond appropriately. Revise the current system of two referrals prior to criminal charges, so it can be more effectively administered across the state.

Support additional investments to help cities with the costs stemming from the *Blake* decision on how possession of controlled substances is handled by the criminal justice system. This includes:

- Funding to help offset the costs of vacating criminal convictions, repaying legal financial obligations, administering diversion programs, and mitigating municipal court impacts.
- Investment in alternative response teams; treatment facilities for adults and juveniles; treatment in jails; and social workers, treatment providers, and system navigators to help direct people to treatment.

Address vehicle pursuits for public safety

Clarify the ability for law enforcement to conduct vehicle pursuits using a reasonable suspicion standard in specific circumstances. This is essential to allow for effective and safe pursuit of suspects when there is an immediate threat to public safety. Cities will continue to support safety standards and training for officers who engage in vehicle pursuits.

Ensure basic infrastructure funding

Fully fund the Public Works Assistance Account (PWAA), allow the current revenue diversions to sunset at the end of fiscal year 2023, and refrain from further fund transfers or diversions to other infrastructure programs or non-infrastructure accounts. Expand state funding opportunities to assist with maintenance and operations of local infrastructure.

Increase housing availability & affordability

Support a proactive approach that creates new tools, incentives, and revenues that cities can use to help increase housing supply and address affordability. Cities need resources to encourage development of housing at all income levels—especially for our lowest-income residents.

Provide behavioral health resources

Create greater access to community-based behavioral health services to include substance use disorder treatment and dual diagnosis treatment facilities. Support continued state funding to help communities establish alternative response programs like co-responder programs, diversion programs, and others that provide options beyond law enforcement for responding to situations that involve individuals suffering from behavioral health issues.
