## **SUMMARY**

#### **BACKGROUND**

Emergency Medical Service (EMS) revenues are directly tied to the average budgeted salary and benefit costs, excluding overtime, of four firefighters originally hired in 1996. The four firefighter positions increased the capacity to handle simultaneous EMS calls during high-call demand. This cost constitutes the annual revenue requirement to the General Fund.

The current EMS utility rate structure was impacted by the Council's decision – during its 2011-2012 budget deliberations – to institute a Basic Life Service (BLS) ambulance transport fee to help balance the budget. Per Washington State Law, this action unintentionally replaced the long-standing variable EMS rate structure (different rates for each customer class based on actual service calls) with the same flat rate (per equivalent service unit) for each customer class.

Customer account data (as measured by equivalent service units) has been updated for the proposed 2025 EMS rates. The City experienced slight growth in the Single Family and Public/Other customer classifications.

#### **CALCULATION OF 2025 REVENUE REQUIREMENT**

The 2025 revenue requirement is based on the 2024 average, budgeted salary, and benefit costs for four firefighters, which equals \$790,241 (excluding the Fire Chief, Deputy Fire Chief, and Fire Marshal). Compared to the prior fiscal year (2023) revenue requirement of \$746,235, this represents an increase of 5.9%.

This increase is due to the 6.0% cost of living adjustment (COLA) applied in 2024 to staff represented by the International Association of Firefighters, AFL-CIO Local 2878 with Eastside Fire & Rescue.

#### **EMS RATE PROPOSAL**

The proposed 2025 EMS rates, which are needed to generate the \$790,241 revenue requirement in 2025, are compared to the 2024 rates in Table 1 below.
