

Comprehensive Plan Periodic Review

Parks Zone

Parks and Recreation Commission
January 4, 2024
Adam Zack, Senior Planner
Department of Community Planning and
Development

Purpose

To provide the Parks and Recreation Commission an overview of the initial parks zone draft and gather input on three questions.

Agenda

Background

What is a comprehensive plan?

- Required by the WA State Growth Management Act (GMA).
- Implements the GMA planning goals for counties and cities.
- Provides the policy basis for local capital budget decisions, development regulations, and special programs.
- A key purpose of the Comprehensive Plan is to ensure that growth is orderly and does not outpace the City's service capacity.

Background

- The GMA requires cities in King County to complete the comprehensive plan periodic review by December 31, 2024.
- The periodic review scope of work set by Council in 2022 and supplemented in 2023 ([Resolution No. 1621](#) and [Resolution No. 1646](#)).
- Drafting a new Parks Zone was included in this scope of work.
- The Parks Zone will be adopted in Title 19 Mercer Island City Code (MICC), which requires a specific legislative review process.

We are here

Parks Zone Overview

- New zone to regulate development in City parks.
- Will be adopted with the Comprehensive Plan Update.
- Would apply to City-owned, -leased, or –managed parks.
- Ensure that park development is consistent with the adopted PROS Plan.

Parks Zone Overview

- Establishing a new zone requires amendments to the City Zoning Map.
- A draft of the Zoning Map with parks was included as Exhibit 3.
- Zoning Map shows where the Parks Zone regulations would apply.

Parks Zone Overview

- Parks Zone regulations are composed of:
 - Zone establishment (by amendment of MICC 19.01.040);
 - Zone purpose and designation requirements;
 - Permitted land uses;
 - Development standards; and
 - Definitions (by amendment of MICC 19.16.010).

Gather PRC Input

1

Purpose Statement

2

Permitted Land Uses

3

Development Standards

Gather PRC Input

1

Purpose Statement

- The purpose describes why the City is establishing the Parks Zone.
- Draft purpose highlights that this zone is intended to establish regulations for parks because their intended land uses substantially differ from other zones.
- The principal focus is the facilitation and continuation of recreational uses of publicly owned park lands.

Gather PRC Input

1

Are there modifications suggested for the purpose statement of the Parks Zone?

- A. Purpose. The purpose of the Parks Zone (P) is to accomplish all of the following:
1. Implement the Comprehensive Plan and other applicable plans by designating areas that conserve and preserve a variety of park and open space lands in the City;
 2. Regulate the land uses permitted within publicly owned parks in the City; and
 3. Preserve urban forests, critical habitat, environmental resources, and maintain access to recreational opportunities.

Gather PRC Input

2

Permitted Land Uses

The list of permitted uses should be:

Broad enough to ensure that the City can develop its park land to realize the PROS Plan, and

Narrow enough to preserve parks from being developed with incompatible uses.

Any allowed land uses would go through the City's planning processes including approval of the budget, listing the project on the capital improvement plan, and design review.

Gather PRC Input

2

Are there permitted land uses for the Parks Zone that should be added, removed, or modified?

- Recreational uses.
- Recreational facilities.
- Agricultural activities.
- Government offices and government services.
- Public parking, parking structures, and underground parking.
- Temporary uses and structures.
- Transit stops.
- Public art.
- Signs.
- Wireless communications facilities.
- Utilities. Utilities must be placed underground whenever feasible.

Gather PRC Input

3

Development Standards

- Development standards include parking requirements, setbacks, height limits, and maximum impervious surfaces. Intended to help reduce the impact of allowed uses on neighboring land uses, and vice versa.
- Standards are focused on ensuring park development occurs consistent with the Comprehensive Plan and PROS Plan.
- The full text of the proposed development standards can be found on page 3, line 37 of Attachment A.

Gather PRC Input

3

Are there development standards for the Parks Zone that should be added, removed, or modified?

Topic	Proposed Standard Summary
Setbacks	<ul style="list-style-type: none">• No setback required between Parks Zone and institutional, commercial, and mixed-use zones;• 20 feet between Parks Zone and residential zones; and• The following developments are exempt from setback requirements: picnic tables, fences, gates, culverts, trails, landscaping, and parking areas.
Building Height	35-foot maximum, approximately three stories. This is the maximum for most zones outside of Town Center.
Impervious Surfaces	<ul style="list-style-type: none">• No net new impervious surfaces unless authorized by an adopted Park Master Plan, ADA Plan, and• Emergency vehicle lanes, trails, and synthetic turf athletic fields are exempt.

Gather PRC Input

3

Are there development standards for the Parks Zone that should be added, removed, or modified?

Topic	Proposed Standard Summary
Parking	<ul style="list-style-type: none">• No minimum number of parking spaces, City Engineer can determine the necessary number of parking spaces;• Screening required between parking areas and residential zones; and• Note: impervious surface requirement would limit the amount of new parking that could be created unless it was shown on an adopted City plan.
Lighting	New lighting must be shielded and directed downwards, consistent with International Dark Sky Association recommendations to minimize lighting impacts to neighboring properties and the night sky.

Next Steps

- Planning Commission will begin draft Parks Zone review including PRC input on January 24.
- Public comments on the draft will be accepted throughout the Planning Commission review.
- Remaining review to include Comprehensive Plan open house and public hearing.

Questions?

Additional Reference

Definitions (Proposed)

Agricultural Activities. The production of plants, animals, or their products, including but not limited to gardening, and fruit production.

Farmer's Market. An occasional or periodic market held in an open area or in a structure where groups or individual vendors offer for sale to the public items such as fresh produce, seasonal fruits, fresh flowers, arts and crafts, and food and beverages dispensed from booths located on-site.

Government Offices. A building or structure owned, operated, or occupied by a governmental agency to provide a governmental service to the public.

Definitions (Proposed)

Park. Any public or private land available for recreational, environmental, educational, or cultural uses.

Recreational Facility. Structures, pieces of equipment, or developments that are specifically provided for recreational uses. Recreational facility includes both indoor and outdoor facilities for public or private recreational use.

Recreational Uses. A land use that provides opportunity for amusement, entertainment, athletic, environmental, and/or other leisure-time activities.

Definitions (Proposed)

Temporary Structures, Uses, and Activities. A land use, structure, or activity that will only be in place for a limited period of time not to exceed 180 days in duration.

Trail. An off-street pedestrian, bicycle, or multi-use path.

Transit Stop. A transit facility located at selected points along transit routes for passenger pickup, drop off, or transfer, but excluding areas for vehicle repair or storage, parking lots, transfer stations, and park-and-ride stations.

Definitions (Existing)

Impervious surfaces: Includes without limitation the following:

1. Buildings — the footprint of the building and structures including all eaves;
2. Vehicular use — driveways, streets, parking areas and other areas, whether constructed of gravel, pavers, pavement, concrete or other material, that can reasonably allow vehicular travel;
3. Sidewalks — paved pedestrian walkways, sidewalks and bike paths;
4. Recreation facilities — decks, patios, porches, tennis courts, sport courts, pools, hot tubs, and other similar recreational facilities;
5. Miscellaneous — any other structure or hard surface which either prevents or retards the entry of water into the soil mantle as under natural conditions prior to development, or causes water to run off the surface in greater quantities or at an increased rate of flow from present flow rate under natural conditions prior to development.

Definitions (Existing)

Government services: Services provided by the city, King County, the state of Washington, or the federal government including, but not limited to, fire protection, police and public safety activities, courts, administrative offices, and equipment maintenance facilities.

Parking: A public or private area, under, within or outside a building or structure, designed and used for parking motor vehicles including parking lots, garages, and driveways. For the purposes of this definition only:

1. Parking structure shall mean a building or structure consisting of more than one level and used for the temporary parking and storage of motor vehicles.
2. Underground parking shall mean the location of that portion of the parking structure located below the existing grade of the ground abutting the structure.

Definitions (Existing)

Sign: Any series of letters, figures, design symbols, lights, structure, billboard, trademark or device intended or used to attract attention to any activity, service, place, subject, person, firm, corporation, or thing. Excluded are official traffic signs or signals, public notices, and governmental flags.

Utilities: Facilities providing infrastructure services by a public utility or private utility regulated by the state through fixed wires, pipes, or lines. Such facilities may include water, sewer, storm water facilities (lines, ditches, swales and outfalls) and private utilities such as natural gas lines, telecommunication lines, cable communication lines, electrical lines and other appurtenances associated with these utilities. "Utilities" does not include wireless communication facilities, but do include small wireless facilities.

Wireless communications facility (WCF): Any unstaffed facility for the transmission and/or reception of radio frequency signals usually consisting of antennas, an equipment cabinet, transmission cables, and a support structure to achieve the necessary elevation.
