

**COMMUNITY DEVELOPMENT  
DEPARTMENT REPORT**

HEARING DATE: 8/20/2024  
 TO: Mayor & City Council  
 FROM: Sonya Allen, Associate Planner  
 208-884-5533  
 sallen@meridiancity.org  
 APPLICANT: Engineering Solutions, LLP  
 SUBJECT: [H-2024-0032](#)  
 Timber Creek Recycling – MDA  
 LOCATION: Northwest corner of S. Locust Grove Rd. and E. Columbia Rd., in the SE 1/4 of Section 6, T.2N., R.1E.

**I. PROJECT OVERVIEW**

**A. Summary**

Modification to the existing development agreement (H-2018-0042, Inst. #2019-053058) to further clarify the current and future permitted uses and timelines, create guidelines to allow for efficient and continued use of the property, and ensure the operation is meeting all State and Federal guidelines.

**B. Issues/Waivers**

None

**C. Recommendation**

Staff: Staff recommends denial of all proposed changes to the DA that expand, extend and/or intensify the existing approved use and approval of other changes as noted in Section III below.

**D. Decision**

To be determined

**II. COMMUNITY METRICS**

### III. STAFF ANALYSIS

Comprehensive Plan and Unified Development Code (UDC)

#### A. History

This property was annexed with an R-4 zoning district in 2016 as part of the larger South Meridian annexation, which incorporated a total of 1,322-acres of land in south Meridian. A Development Agreement (DA) was recorded for this property as a provision of annexation (Murgoitio LLC – Inst. #[2016-007075](#)). The agreement allowed any currently allowed use in the County pertaining to raising and maintaining livestock; discharge of firearms; currently stored or maintained farm equipment, vehicles, materials necessary for the agricultural operation of the property, etc. to remain on the property; and continued operation of Timber Creek Recycling on the property as an interim use, until such time as the property is developed in the future. The agreement outlined the primary activities of the recycling business, including the type and amounts of materials delivered to the site daily from the Ada County Landfill and miscellaneous contractors (i.e. wood, grass, leaves, sheetrock and other materials); and the recycling activities that were approved to operate on the site. It also included details on the termination of recycling operations on the site.

A modification to the DA was approved by City Council in 2019 [L & G Murgoitio, LLC ([H-2018-0042](#)) – MDA Inst. #[2019-053058](#)], which replaced the original DA. The amendment added a commercial composting component and retail sales to the existing recycling operations on the site and included a concept plan depicting the layout of the site and location of specified operations. Materials proposed for composting consist of food and garden waste and demolition debris; additional activities and equipment associated with the use were included in the agreement. The amendment also removed the daily limit for deliveries to the site of certain types of materials resulting in unlimited deliveries. Hours of operation for the composting program were also included.

On April 16, 2019, a Petition for Judicial Review of the City Council’s decision was filed by several neighbors near the property. The parties litigated the matter for 2.5 years, and on November 24, 2021, the District Court entered a judgment upholding the City Council’s Findings of Fact and Conclusions of Law.

Many letters of testimony on the previous application were received by the City from nearby residents for and against the proposed business expansion and DA amendment. A general summary of the testimony includes the following concerns/ comments pertaining to the proposed use: (*see the [public record](#) for more detailed information*)

- 1) Increase in truck traffic entering/exiting the property and impact on adjacent roads and traffic (suggestion to limit truck traffic to non-commuting hours to reduce traffic conflicts of trucks using two lanes to turn at the Columbia/Locust Grove intersection);
- 2) Increase in dust generated from the existing and proposed use and mitigation thereof;
- 3) Increased noise generated from heavy equipment, grinders and trucks and impact on residential neighbors;

- 3) Size and height of recycling materials piles and potential fire hazard of compost piles;
- 4) Unpleasant odors generated from decomposition of materials (food and waste) to be recycled and pests (i.e. rodents, birds, skunks, flies, bees, mosquitos, etc.) - suggestion to require regular inspections to ensure best practices for recycling/composting are being practiced to reduce issues;
- 5) Unsightly landscape of the site (i.e. trash, stock piles of materials to be recycled, etc.);
- 6) Limitation of business hours that the recycling operation is open to the public and that recycling activities occur to reduce impacts of light pollution and noise on neighbors;
- 7) Require fencing around the perimeter of the site to prevent future conflicts between the business and area residents;
- 8) Reduced residential property values and a less desirable location with the proposed use;
- 9) Concern pertaining to water quality (potential for toxins leaching into the water) and water table; increased risk of contamination of surface and groundwater (leachate) from the facility which borders an irrigation canal;
- 10) Negative impact on quality of life for adjacent residents (excess dust, noise, odor, appearance of site);
- 11) Support of proposed recycling operation which will reduce trash in landfills and is good for the community and environment;
- 12) Success of composting program in the City of Boise and benefit for residents;
- 13) Emission of bioaerosols (airborne particles that contain live organisms or were released from living organisms, may contain bacteria, fungi, viruses, microbial toxins, pollen, plant fibers, etc.) from composting activities which may pose a hazard to susceptible members of the public;
- 14) Need for improvements to infrastructure to support homes that are currently under development in the area and increased traffic from large commercial trucks from the proposed use;
- 15) Industrial/commercial use does not belong in residential area that is continuing to grow with families;
- 16) High winds in this area blowing trash onto adjacent properties;
- 17) Potential for insects drawn to the proposed use to carry disease to residents, pets and livestock on neighboring properties; and,
- 18) Potential contamination of soil.

**Table 3: Project Overview**

Description	Details
History	H-2015-0019 South Meridian (Murgoitio LLC – Inst. # <a href="#">2016-007075</a> ); H-2018-0042 (L & G Murgoitio, LLC – MDA Inst. # <a href="#">2019-053058</a> )
Acreage	80.52-acres

**B. General Overview**

The Applicant requests a modification to the existing development agreement (H-2018-0042, Inst. #[2019-053058](#)) to further clarify the current and future permitted uses and timelines, create guidelines to allow for efficient and continued use of the property, and ensure the operation is meeting all State and Federal guidelines. This modification will replace the previous DA in its entirety and removes the parcel (i.e. Parcel 2) from the agreement located on Lake Hazel Rd. where some business operations were occurring as that property has since redeveloped. The existing site plan, included in Section VI.B below is proposed to be replaced with the updated site plan in Section VI.C.

### C. Staff's Analysis

The Applicant has submitted a full version of the proposed amended DA in strike-out/underline format showing the existing text and proposed changes to the agreement, which is included in the public record and also linked in Section VI.D below. The Applicant's narrative describing a summary of the proposed changes is also included in the public record.

The main changes proposed to the agreement are as follows: *(Staff's analysis of the proposed change is included in italics below each item)*

- The list of materials received on the site for recycling, which are currently specified, are proposed to be removed to allow "any" materials, provided they're not prohibited by the Idaho Department of Environmental Quality (IDEQ) and Central District Health (CDH) (i.e. #5.1); a provision has been added that clarifies recycled materials do *not* include biosolids as defined by IDEQ (i.e. #5.1).

*Staff is in favor of clarifying that biosolids are not an allowed recyclable material on the site. However, Staff is not in favor of removing the specific materials that are allowed due to possible negative impacts from new materials on adjacent residential neighbors, which could result in issues that aren't able to be addressed by Code Enforcement. Listing the specific materials provides clear direction on what materials are and are not allowed to be recycled on the site.*

- Clarification that recycling and associated activities will not include any materials or activities that are prohibited by IDEQ or CDH and removal of the description of each activity (i.e. #5.1).

*Staff is in favor of clarifying that recycling and associated activities won't include any materials or activities that aren't allowed by IDEQ or CDH. However, Staff is not in favor of removing the descriptions of each activity as the descriptions provide clear direction on what activities are allowed to occur on the site.*

- The existing agreement specifies the operation of Timber Creek Recycling on the portion of the site depicted on the site plan as "Recycling Property" is allowed to be conducted on the property for a maximum period of 10 years from the date City Council approved the signed DA, which was on 6/11/2019. The use would terminate on 6/11/2029 unless Timber Creek submits a request for Council to review the recycling activities (no later than one (1) year prior to the expiration date) and determine whether to permit the recycling activities to continue (i.e. #4.8).

The Applicant proposes to remove the maximum operating period of the recycling activities on the site and includes a 5-year maximum timeline on composting activities with an option for an extension (i.e. #6.14.1). The Applicant states the change is necessary to meet the requirements of IDEQ, providing a hard deadline.

*Staff is not in favor of the proposed change to remove the maximum time period of 10 years for recycling activities or the new proposed 5-year timeline for composting activities. Staff recommends the existing timelines remain for the overall use and that the composting use is included in the provision.*

- Inclusion of a statement requiring compliance with all federal, state and local entities with jurisdiction, including, but not limited to IDEQ, CHD, Department of Agriculture, U. S. Environmental Protection Agency, U. S. Department of Agriculture, the Ada County Air Quality Board, and the Idaho Department of Water Resources (#6.2). The City may consider a finding by one of these named agencies of violations of their regulations to be a cause for a violation of this Agreement. If a violation is found, actions to be taken by Timber Creek are included.

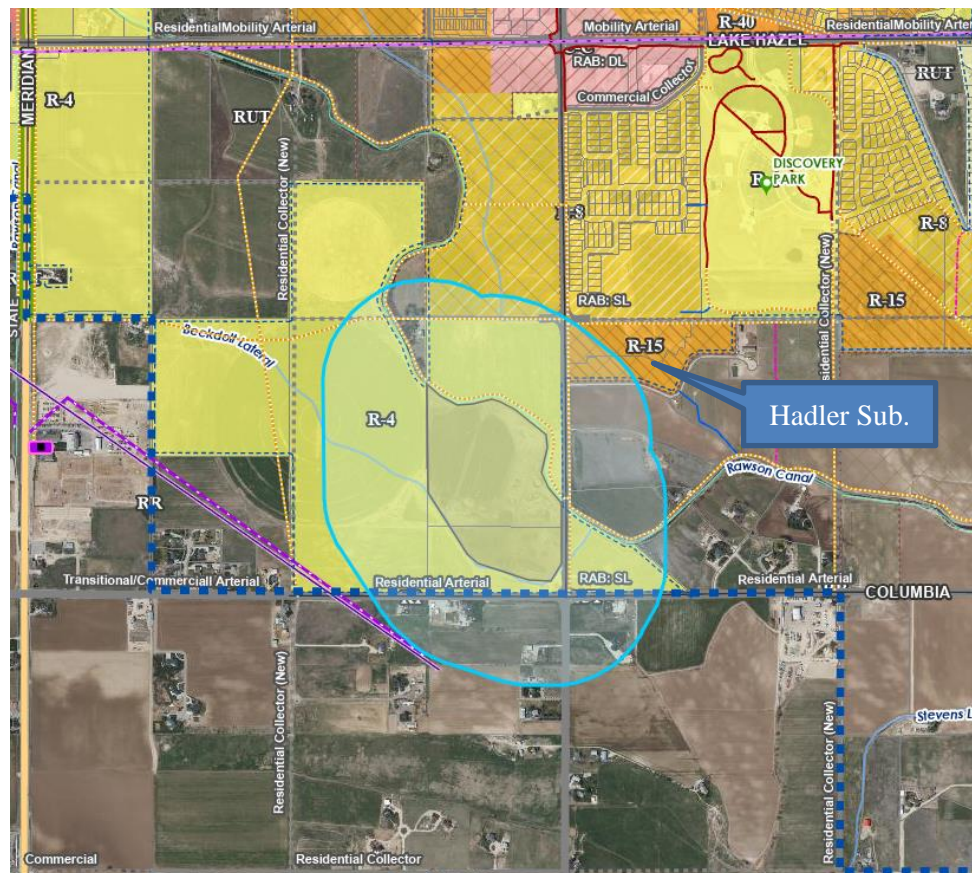

*Staff is in support of this change.*

- Removal of the truck limitation requirement (i.e. 56 truckloads per day). The Applicant states the change is due to the difficulty in keeping track of the number of vehicles and the burden it's placed on operation of the facility (i.e. #6.6.3).

*Staff is not in support of removing the truck limitation as it could result in a much greater number of deliveries to the site, which could negatively impact traffic and neighbors in the area and leave Code Enforcement with no way to address issues if they arise.*

- Removal of the requirement for operations to cease on the site within 30 days of the City granting a Certificate of Occupancy to any new residential or commercial development within 1,000 feet of the recycling property (i.e. #6.8.2).

*Staff is not in favor of removing this requirement as the use will likely negatively impact future residents in this area as existing residents have complained about the negative impacts they've experienced from the facility. Land has been annexed into the City within 550-feet of the facility for the development of Hadler Subdivision northeast of the site; a final plat has been approved within 675-feet of the facility – the first Certificate of Occupancy will likely be issued within the next year, which will require recycling operations to cease on the site.*

- An updated site plan is included in Section VI.C below; the existing site plan is included for reference in Section VI.B.

*Staff is amenable to replacing the existing site plan with the updated site plan as it appears to be generally the same.*

- Removal of Parcel 2 from the boundary of the property subject to the amended DA due to that property being redeveloped into residential lots; see legal description and exhibit map included below in Section VI.E for property subject to the amended DA.

*Staff is in favor of updating the area subject to the amended DA.*

**In summary, Staff recommends denial of all changes to the DA that expand, extend and/or intensify the existing approved use.**

To date, three (3) letters of public testimony against expansion and extension of the existing use have been received (see [public record](#) for more information).

#### **IV. AGENCY COMMENTS**

*Agency comments may be accessed in the [project file](#), included in the public record.*

#### **V. ACTION**

##### **A. Staff:**

Staff recommends denial of all proposed changes to the DA that expand, extend and/or intensify the existing approved use and approval of other changes as noted in Section III above.

**EXHIBIT A**

**ANNEXATION DESCRIPTION  
FOR THE  
CITY OF MERIDIAN, IDAHO**

**L & G MURGOITIO, LLC - PARCEL NO. 1**

A parcel located in the E ½ of the SE ¼ of Section 6, Township 2 North, Range 1 East, Boise Meridian, Ada County, Idaho, more particularly described as follows:

BEGINNING at an aluminum cap monument marking the southeasterly corner of said SE ¼ of the SE ¼, from which an aluminum cap monument marking the northeasterly corner of the SE ¼ of said Section 6 bears N 0°04'44" W a distance of 2655.72 feet;

Thence N 89°21'59" W along the southerly boundary of said E ½ of the SE ¼ a distance of 1323.88 feet to the southwesterly corner of said E ½ of the SE ¼;

Thence N 0°02'17" W along the westerly boundary of said E ½ of the SE ¼ a distance of 2655.45 feet to the northwesterly corner of said E ½ of the SE ¼;

Thence S 89°22'37" E a distance of 1321.98 feet to an aluminum cap monument marking the northeasterly corner of said E ½ of the SE ¼;

Thence S 0°04'44" E along the easterly boundary of said E ½ of the SE ¼ a distance of 2655.72 feet to the POINT OF BEGINNING.

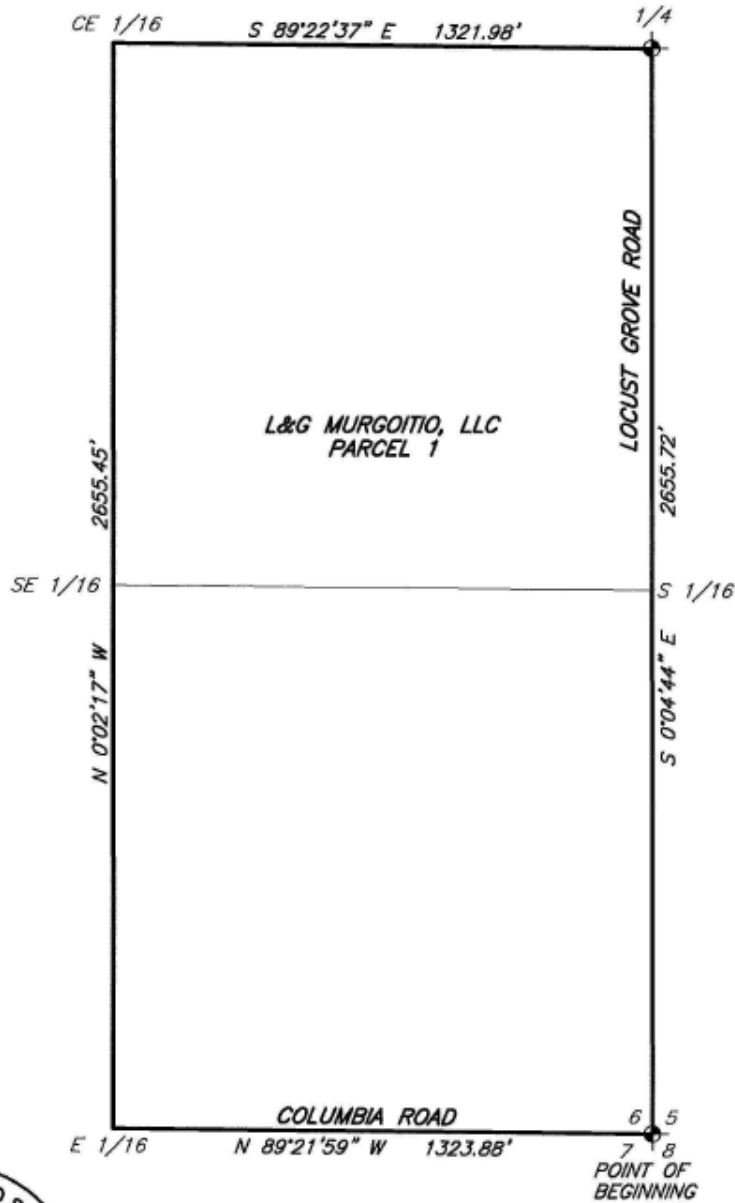

This parcel contains 80.64 acres.

NOTE: This description was prepared using record information including Record of Surveys, subdivision plats and deeds acquired from the Ada County Recorder's office. No field survey has been performed.
