III. DESCRIPTION

A. Background

The 2017 Collection Systems Master Plan has indicated a portion of the Five Mile Trunkshed experiences surcharging under the Master Plan flows. JUB's solution is to install a diversion structure for the sewer main on the east side of the 711 E Broadway and install a new sewer trunk from the diversion structure to connect to the existing 18" sewer main at NE 3rd Street Broadway and E Broadway Avenue.

Our design consultant found a record of survey when they were designing the 18” sewer trunk in 2006 that shows Union Pacific owns the southern half of E. Broadway Avenue from Main Street to NE 6th Street. We entered into a Longitudinal Pipeline Encroachment Agreement with Union Pacific so we could construct that sewer trunk.

B. Proposed Project

This supplemental agreement extends the boundary of the original 2006 Longitudinal Pipeline Encroachment Agreement. By entering into this agreement with Union Pacific, it will allow the City to construct a sewer trunk in E Broadway from NE 4th Street to NE 6th Street in accordance with our 2017 Collection Systems Master Plan.
