III. STAFF ANALYSIS

Staff has reviewed the proposed final plat for substantial compliance with the approved preliminary plats for the Mogul Subdivision (H-2025-0006) in accord with the requirements listed in UDC 11-6B-3C.2. This plat incorporates the second phase of the Mogul Subdivision that was entitled during the

preliminary plat. The number of lots (3) for this phase did not increase, and the landscape buffers did not change.

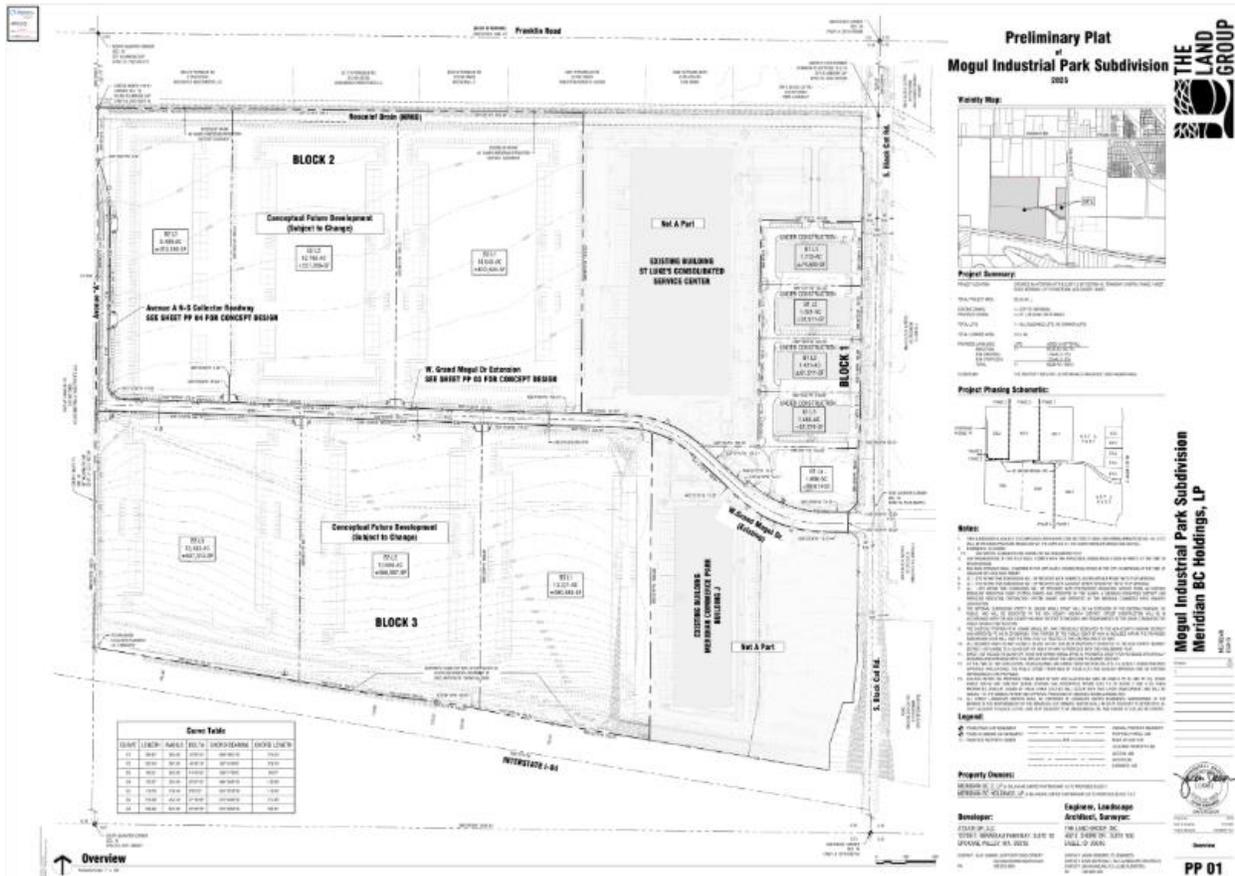

In order for the proposed final plat to be deemed in substantial compliance with the approved preliminary plat as set forth in UDC 11-6B-3C.2, the number of buildable lots cannot increase, and the amount of common area cannot decrease. Since there is no change to the number of buildable lots and no open space is required, Staff deems the proposed final plat to be in substantial compliance with the approved preliminary plat as required.

IV. DECISION

Staff recommends approval of the proposed final plat with the conditions noted in Section VI of this report.
