Topic:	License Agreement with Ada County Highway District to allow a painted center line along the Five Mile Pathway		

Recommended Council Action:

Consent Agenda Item. Requesting approval of License Agreement.

Background:

Now that there are several miles of continuous paved pathway along the Five Mile Creek, staff would like to paint a dashed yellow center line along the length of the Five Mile Pathway through the City. Our intention is to support wayfinding along the pathway, especially in parts of town where the route is less evident— on Fairview Avenue, for instance, through existing developments, or where our standard 10' wide pathway is located within public roadway rights-of-way.

Staff has solicited a contractor's bid to provide a center stripe along the pathway, and the City is free to stripe all City-owned and/or maintained facilities. In order to stripe pathway segments where they lie within ACHD rights-of-way, the City must enter into a License Agreement that will grant formal permission for this improvement.

An agreement depicting a standard striping detail and locations where this will occur within ACHD facilities is attached for your consideration.
