

STAFF REPORT
COMMUNITY DEVELOPMENT DEPARTMENT

HEARING DATE: March 21, 2024
 TO: Planning & Zoning Commission
 FROM: Linda Ritter, Associate Planner
 208-884-5533
 SUBJECT: H-2023-0058 Cityside Storage – MDA, CUP
 LOCATION: 2755 N. Eagle Road in the NE ¼ of Section 5, Township 3N., Range 1E.

I. PROJECT DESCRIPTION

Modification to the existing Development Agreements (DA) (Inst. #104107406 amended as Inst. #107044347) to exclude the subject property and parcel #R0945580265, which limits the types of uses and building square footage to 32,500. The new DA would allow one of the properties to develop with a storage facility and increase the building square footage to 135,000 square feet with a building footprint of 32,500; and a Conditional Use Permit for a storage facility, self-service.

II. SUMMARY OF REPORT

A. Project Summary

Description	Details
Acreage	2.08 acres
Future Land Use Designation	Mixed-Use Regional (MU-RG)
Existing Land Use	Vacant
Proposed Land Use(s)	Storage Facility, Self-Service
Current Zoning	General Retail & Service Commercial (C-G)
Physical Features (waterways, hazards, flood plain, hillside)	NA
Neighborhood meeting date; # of attendees:	9/26/2023 via Zoom; 0 people attended
History (previous approvals)	AZ 05-057, RZ-05-019, PP-05-019, CUP-05-052, PS-05-002, FP-07-012, and DA Instr. #1040107406 & #107044347; PBA-2022-0021

III. APPLICANT INFORMATION

A. Applicant:

Peter Stuhldreier, Designhaus Architecture, LLC – 3300 Auburn Road, Suite 300, Auburn Hills, MI 48236

B. Owner:

Kent Hosac – 1775 W. State Street, Suite 340, Boise, ID 83702

C. Agent/Representative:

Same as Applicant

IV. NOTICING

	Planning & Zoning Posting Date	City Council Posting Date
Newspaper Notification	3/5/2024	
Radius notification mailed to properties within 300 feet	3/1/2024	
Public hearing notice sign posted on site	3/6/2024	
Nextdoor posting	3/4/2024	

V. COMPREHENSIVE PLAN ([HTTPS://WWW.MERIDIANCITY.ORG/COMPPLAN](https://www.meridiancity.org/compplan)):

A. Future Land Use Map Designation (<https://www.meridiancity.org/compplan>)

This property is designated Mixed Use Regional on the Future Land Use Map (FLUM).

This designation provides a mix of employment, retail, and residential dwellings and public uses near major arterial intersections for a full range of commercial uses to serve area residents and visitors. The intent is to integrate a variety of uses together, including residential, and to avoid predominantly single use developments such as a regional retail center with only restaurants and other commercial uses. Developments should be anchored by uses that have a regional draw with the appropriate supporting uses. Desired uses may include entertainment uses, major employment centers, clean industry, and other appropriate regional-serving most uses. Sample zoning include: R-15, R-40, TN-C, C-G and M-E.

No changes to the FLUM designation or zoning is proposed with this application.

B. Comprehensive Plan Policies (<https://www.meridiancity.org/compplan>):

Staff finds the following Comprehensive Plan policies to be applicable to this application and apply to the proposed use of this property (staff analysis in *italics*):

- “Permit new development only where it can be adequately served by critical public facilities and urban services at the time of final approval, and in accord with any adopted levels of service for public facilities and services.” (3.03.03F)
City water and sewer service is available and can be extended by the developer of the property proposed to be annexed with development in accord with UDC 11-3A-21.
- “Encourage compatible uses and site design to minimize conflicts and maximize use of land.” (3.07.00)

Storage facilities, self-serviced is an allowed use in the C-G zoning district through an approved conditional use permit. Although the operation of a storage facility could be fairly low impact, the current development agreement does not allow the use. Staff feels the design of the proposed development is not compatible for the following reasons:

- *Excessive Height: The proposed building is set to exceed the height of the tallest building in the immediate area significantly. This excessive height can lead to issues such as visual impact, overshadowing neighboring structures, or altering the character of the area.*
 - *Visual Impact: The disproportionate height of the building may disrupt the visual harmony of the surrounding area. It could potentially create an eyesore or clash with the existing aesthetic.*
 - *Overshadowing: The height of the proposed building might cast shadows over neighboring structures, impacting their natural lighting and potentially their functionality.*
 - *Character of the Area: The proposed development may alter the character of the neighborhood or area. Maintaining compatibility with existing structures is crucial for preserving the overall aesthetics and functionality of the neighborhood.*
- “Require all new development to create a site design compatible with surrounding uses through buffering, screening, transitional densities, and other best site design practices.” (3.07.01A)

With development a landscaped street buffer will be required along N. Cajun Lane. There is an existing pathway along the south side of the property in which the applicant is proposing additional buffer for the residential properties to the south in accord with UDC standards.

- “Ensure development is connected to City of Meridian water and sanitary sewer systems and the extension to and through said developments are constructed in conformance with the City of Meridian Water and Sewer System Master Plans in effect at the time of development.” (3.03.03A)

The proposed development will be required to connect to City water and sewer systems with development; services are required to be provided to and through this development in accord with current City plans.

- “Require appropriate landscaping, buffers, and noise mitigation with new development along transportation corridors (setback, vegetation, low walls, berms, etc.).” (3.07.01C)

A 25-foot wide street buffer is required to be provided with development along N. Eagle Rd., an arterial street, per UDC Table 11-2B-3, landscaped per the standards in UDC 11-3B-7C. There is an existing landscape buffer along N. Eagle Road. The property owner is proposing an additional ten (10’) feet of landscaping along N. Eagle Road which exceed the required UDC standards.

- “Reduce the number of existing access points onto arterial streets by using methods such as cross-access agreements, access management, and frontage/backage roads, and promoting local and collector street connectivity.” (6.01.02B)

Access to the property is via N. Cajun Lane, a private road. There is no direct access to N. Eagle Road from the property.

- “Require urban infrastructure be provided for all new developments, including curb and gutter, sidewalks, water and sewer utilities.” (3.03.03G)

Curb, gutter and sidewalk was constructed with the road widening project along N. Eagle Rd. Hook-up to City water and sewer service is required with development.

- “Support beautiful and high quality development that reinforces neighborhood character and sustainability.” (5.01.02)

Although the design of the building may be acceptable, the proposed building is set to exceed the height of the tallest building in the immediate area significantly. This excessive height can lead to issues such as visual impact, overshadowing neighboring structures, or altering the character of the area.

- “Support and protect the identity of existing residential neighborhoods.” (5.01.02E)

Staff feels this proposal does not protect the identity of the existing residential neighborhood as the height of the proposed storage facility exceeds the tallest building in the immediate area by a significant margin. This may lead to visual impact, overshadowing neighboring structures, or altering the character of the area. Maintaining compatibility with the existing structures can be crucial for the overall aesthetics and functionality of a neighborhood or area.

VI. STAFF ANALYSIS

The Applicant proposes to develop this site with a four (4) story self-service storage facility containing 777 units and 15 exterior drive up self service storage units in climate controlled structures for a total of 792 units.

The proposed use is subject to the following Specific Use Standards (UDC 11-4-3-34) – Storage Facility, Self-Service: *(Staff analysis in italics)*

- A. Storage units and/or areas shall not be used as dwellings or as a commercial or industrial place of business. The manufacture or sale of any item by a tenant from or at a self-service storage facility is specifically prohibited.
- B. On site auctions of unclaimed items by the storage facility owners shall be allowed as a temporary use in accord with Chapter 3, Article E, "temporary use requirements", of this Title.
- C. The distance between structures shall be a minimum of twenty-five (25) feet.
- D. The storage facility shall be completely fenced, walled, or enclosed and screened from public view. Where abutting a residential district or public road, chain-link shall not be allowed as fencing material.
- E. If abutting a residential district, the facility hours of public operation shall be limited to 6:00 a.m. to 11:00 p.m.
- F. A minimum twenty-five-foot wide landscape buffer shall be provided where the facility abuts a residential use, unless a greater buffer width is otherwise required by this title. Landscaping shall be provided as set forth in subsection 11-3B-9.C of this Title.
- G. If the use is unattended, the standards in accord with [Section 11-3A-16](#), "self-service uses", of this Title shall also apply. *The use will be unattended.*
- H. The facility shall have a second means of access for emergency purposes as determined by the Fire Marshal.

- I. All outdoor storage of material shall be maintained in an orderly manner so as not to create a public nuisance. Materials shall not be stored within the required yards. Stored items shall not block sidewalks or parking areas and may not impede vehicular or pedestrian traffic.
- J. The site shall not be used as a "vehicle wrecking or junk yard" as herein defined.
- K. For any use requiring the storage of fuel or hazardous material, the use shall be located a minimum of one thousand (1,000) feet from a hospital.

Dimensional Standards (UDC [11-2](#)):

The proposal would meet the dimensional standards for setbacks, landscape buffers, parking and height requirements. However, the existing development agreement does not allow storage facilities as a use without an amendment.

Staff finds the proposed storage facility, self-service if approved at the requested height and square footage would not maintain compatibility with existing structures which is crucial not only for aesthetics but also for the functional integration of the new development into the community.

The proposed height will not be harmonious with adjacent residential and commercial uses and will negatively impact these uses as it may lead to overshadowing of neighboring structures, and alterations to the area's character which are a concern. Therefore staff recommends the building height not exceed 35 feet in height which is consistent with the adjacent structures in the area.

Hours of Operations (UDC [11-2B-3B](#)):

The UDC (11-2B-3B) limits business hours of operation in the C-G zoning district from 6:00 a.m. to 11:00 p.m. when the property abuts a residential use or district; extended hours may be requested through a CUP. These restrictions apply to all business operations occurring outside an enclosed structure, including, but not limited to, customer or client visits, trash compacting, and deliveries. These restrictions do not apply to business operations occurring within an enclosed structure, including, but not limited to, cleaning, bookkeeping, and after hours work by a limited number of employees.

The applicant is proposing to operate the business within the following hours: Monday through Sunday - 6 a.m. to 11 p.m.

Access (UDC [11-3A-3](#), [11-3H-4](#)):

Access to the site is from the existing forty-foot (40') private road N. Cajun Lane via Ustick Road or E. Seville Lane from N. Eagle Road. There is no direct access to the property from N. Eagle Road.

Parking (UDC [11-3C](#)):

A minimum of one (1) off-street parking space is required for every 500 square feet (s.f.) of gross floor area of the office space – parking is not required for the storage structures. Based on 862 s.f., a minimum of one (1) parking space is required. A total of eight (8) parking spaces are proposed, exceeding UDC the minimum standards.

A minimum of one (1) bicycle parking space is required for every 25 vehicle parking spaces per UDC 11-3C-6G. Bases on eight (8) vehicle parking spaces, a minimum of one (1) bicycle parking space is required. A bicycle rack is depicted on the landscape plan.

Sidewalks (UDC [11-3A-17](#)):

There is an existing detached ten (10) foot sidewalk along N. Eagle Road and an existing five (5) foot sidewalk along N. Cajun Lane. Per the Parks Department, multi-use pathways already exist in this area. No additional pathways are required with this project. Pedestrian lighting along

Eagle Road shall meet the requirements of UDC 11-3H—4C post and luminaire. Historical type lighting per the Meridian city standard specifications, except the height shall be fourteen (14) feet.

Landscaping (UDC [11-3B](#)):

There is an existing twenty (20) foot landscape buffer with a ten (10) foot detached sidewalk along N. Eagle Road an arterial street. The property owner is proposing an additional ten (10) feet of landscaping along N. Eagle Road which shall be installed per the standards listed in UDC 11-3B-7C.

A 25-foot wide buffer is required to the residential land use to the north as set forth in UDC Table 11-2C-3 and 11-4-3-34F, landscaped per the standards listed in UDC 11-3B-9C.

There is existing landscaping along the multi-use pathway along the southern property boundary which was installed with the previous development per the standards listed in UDC 11-3B-12C.

There are no existing trees on this site other than the landscaping along the pathway which will not be removed and protected during construction.

Fencing (UDC [11-3A-6](#), [11-3A-7](#)):

The site plan depicts a faux stucco wall enclosing the property.

Outdoor Lighting (UDC [11-3A-11](#))

All outdoor lighting is required to comply with the standards listed in UDC 11-3A-11C. Light fixtures that have a maximum output of 1,800 lumens or more are required to have an opaque top to prevent up-lighting; the bulb shall not be visible and shall have a full cutoff shield in accord with Figure 1 in UDC 11-3A-11C.

Utilities (UDC [11-3A-21](#)):

Water and sewer services were installed with the construction of N. Cortona Way and stubbed to the parcel. Street lights were installed to the east across N. Cortona Way with the construction of N. Cortona Way. No additional street lights are being proposed with this development.

Waterways (UDC [11-3A-6](#)):

There are no waterways on the property. The Finch Lateral is located on the property to the south.

Structure and Design Standards (UDC [11-3A-19](#) | [Architectural Standards Manual](#)):

Conceptual building elevations were submitted for the proposed structure as shown in Section VIII(C). Building materials consist of metal panels and stone pattern tiles. Final design is required to comply with the design standards in the [Architectural Standards Manual](#) (ASM) and the recorded agreement.

DEVELOPMENT AGREEMENT MODIFICATION (MDA)

The Applicant is requesting a modification to the existing Development Agreement [Inst. #107044347 to include storage facility as an allowed use and increase the building square footage to 135,000 square feet with a maximum buiding footprint of 32,500 square feet. This requires City Council action with a recommendation from the Planning Commission on the requested height and square footage.

The existing development agreement only allows uses such as retail, restaurant and office. A storage facility is not considered office nor retail as UDC 11-1A-1 defines retail as follows:

The use of a site that offers merchandise to the public for monetary compensation. The use includes, but is not limited to, convenience stores; food stores; apparel and accessories stores; book, computer, and music stores; electronics and appliances; florists; furniture and home furnishings; general merchandise stores; health and personal care stores; hobby, office supplies, stationery and gift stores; specialty stores; sporting goods; and used merchandise stores.

Therefore, storage facility is not allowed without an amendment to the existing development agreement.

The existing development agreement has a maximum square footage of one single building in the C-G portion of the project that shall not exceed 32,500 square feet. The applicant’s request is almost four (4) times the square footage for the proposed storage facility than allotted to the existing commercial businesses within this subdivision.

Staff recommends the applicant enter into a new development agreement (DA) as there are too many owners subject to the previous agreements. The new DA should also include parcel number R0945580265 along with a revised concept plan and commercial/office building elevations showing future development of this parcel. A provision in the new DA will limit the height of all buildings to a maximum height of thirty-five (35) feet. Fifteen (15) days prior to the City Council hearing, the applicant should provide a revised concept plan, commercial/office building elevations, and a legal description of the property that will be subject to the new DA.

A comparison table was put together showing the square footage of the existing buildings in the area.

Square Footage Comparison Table

Development Name	Address	Square Feet
Cityside Storage	2775 N. Eagle Rd	126,084
Discount Tire	2821 N. Eagle Rd	6,947
Mason Retail Bldg	2847 N. Eagle Rd	5,904
Mason Creek Retail Bldg	2959 N. Eagle Rd	7,682
Duplexes	Bienville Square No. 2 & 3 – R-15	
SFRs	Bienville Square subdivision - R-8	

The comparison table showing the height of existing buildings in the area is a valuable tool for assessing the proposed development's impact on the neighborhood's visual harmony and overall character. A 64% increase in height compared to the tallest building in the immediate area is a significant difference that warrants careful consideration.

Visual impact, overshadowing of neighboring structures, and alterations to the area's character are a concern. Maintaining compatibility with existing structures is crucial not only for aesthetics but also for the functional integration of the new development into the community. The proposed development should enhance rather than detract from the overall quality and character of the area.

Height Comparison Table

Development Name	Address	Height
Cityside Storage	2775 N. Eagle Rd	54.5'
Discount Tire	2821 N. Eagle Rd	26'
Mason Retail Bldg	2847 N. Eagle Rd	30.2'
Mason Creek Retail Bldg	2959 N. Eagle Rd	25.46'
Duplexes	Bienville Square No. 2 & 3 – R-15	24.6'
SFRs	Bienville Square subdivision - R-8	35'

The applicant feels the proposed location will create a better transition with the existing residential areas by moving the mass of the building away from those residential areas and towards Eagle Road

to the east and the existing commercial to the north. The applicant also feels the scale of the building makes the project much more economically feasible since the high cost of the land can be spread across more units. Third, the applicant states the proposed height of 54.5 feet conforms with the existing C-G zoning allowance of 65 feet, which was a significant consideration in the developer's decision to purchase the land.

Although the applicant has put forth several arguments in favor of the proposed location and building scale, emphasizing the transition with existing residential areas, economic feasibility, and adherence to zoning regulations. Staff has concerns regarding the compatibility of the proposed building with the surrounding structures.

The applicant's points about transitioning the mass of the building away from residential areas, optimizing economic feasibility through scale, and conforming to the existing zoning regulations are significant factors. However, it's crucial to consider the visual and architectural harmony within the surrounding context.

The images provided by the applicant and staff suggest that the proposed building may not blend well with the immediate area, particularly in comparison to the existing structures. The suggestion made during the preapplication meeting, recommending a design that aligns better with the development on the east side of Eagle Road where multi-story apartment buildings are prevalent, could be a valid consideration.

Balancing economic feasibility, zoning regulations, and aesthetic integration into the existing environment is often a complex task. It may be beneficial for the applicant to explore design modifications that address the visual compatibility concerns while still meeting their economic objectives and conforming to zoning requirements.

Looking West

Looking East

Existing Development East of the Proposed Project (East Side of Eagle Road)

Based on the information provided above, staff is not in favor of recommending approval of the Development Agreement modification to increase the square footage from 32,500 to 135,000 with a 32,500 building footprint. Staff is in favor of recommending approval of the Development Agreement modification and CUP for a storage facility with a maximum height of 35 feet and building square footage of 32,500.

VII. DECISION

A. Staff:

Approval:

Staff recommends ***approval*** of the proposed modification to the Development Agreement and Conditional Use Permit per the DA provisions and conditions in Sections IX and the Findings in Section X.

C. Building Elevations (12/06/23) (NOT APPROVED)

D. Existing Development Agreement

4. USES PERMITTED BY THIS AGREEMENT:

The uses allowed pursuant to this Agreement are only those uses allowed under City's Zoning Ordinance codified at Meridian Unified Development Code § 11-2A-2 and 11-2B-2 which are herein specified as follows:

Construction and development of up to 54 Single Family Residential lots, 22 Multi Family Residential lots, 14 common lots and up to 7 commercial/office lots (to include up to 65,000 square feet of retail/restaurant/and office uses in the proposed C-G zone) pertinent to AZ-05-057, PP-05-059, RZ-05-019, PS-05-002 and CUP-05-052 applications.

Part of the 28.48 acre site was approved for annexation with a Development Agreement in April, 2004 under the name of Kissler Annexation (file no. AZ 03- 018). The DA, instrument no. 104107406, requires that any future use be approved either through a site specific CUP application or a Planned Development. A concept plan for the overall site was submitted with the application for informational purposes.

4.2 No change in the uses specified in this Agreement shall be allowed without modification of this Agreement.

5. DEVELOPMENT IN CONDITIONAL USE:

Owner/Developer has submitted to City an application for conditional use permit site plan dated February 13, 2006, and shall be required to obtain the City's approval thereof, in accordance to the City's Zoning and Development Ordinance criteria, therein, provided, prior to, and as a condition of, the commencement of construction of any buildings or improvements on the Property that require a conditional use permit. No new buildings are approved for construction under this conceptual CUP/PD application. Except for the single family lots, all future buildings on this site shall require approval of design review at staff level prior to submittal of any Certificate of Zoning Compliance application and/or building permit.

6. CONDITIONS GOVERNING DEVELOPMENT OF SUBJECT PROPERTY:

6.1 Owner/Developer shall develop the Property in accordance with the following special conditions:

1. The site has an existing development agreement instrument No. 104107406. The entire 28.48 acres shall have a new development agreement which shall incorporate the DA from the prior approval of 2003-2004 and include any further restrictions as detailed in this report.
2. That all future uses shall not involve uses, activities, processes, materials, equipment and conditions of operation that will be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors.
3. That all future development of the subject property shall be constructed in accordance with City of Meridian ordinances in effect at the time of the development.
4. That the applicant be responsible for all costs associated with the sewer and water service extension.
5. That any existing domestic wells and/or septic systems within this project will have to be removed from their domestic service, per City Ordinance Section 5-7-517, when services are available from the City of Meridian. Wells may be used for non-domestic purposes such as landscape irrigation.
6. That the maximum building footprint square footage of the C-G portion of the project shall not exceed a 20% increase or decrease of 54,000 sq. ft. for a minimum of 43,200 sq. ft. and a maximum of 65,000 sq. ft. That the maximum square footage of one single building in the C-G portion of the project shall not exceed 32,500 square feet, which is approximately ½ of the maximum allowable commercial square feet on this property.
7. That prior to issuance of any certificate of zoning compliance all landscaping shall be constructed along the southern and eastern property boundary and along Eagle Road to the point of connection with adjoining projects. The commercial/office lots should include either a permanent easement or be redesigned to include landscaping in common lots.
8. The applicant has committed a plan to provide a pathway with specific fencing along the southern and western boundaries. The fencing plan shall be constructed as detailed at the public hearing on April 4, 2006.
9. The applicant has shown several elevations for both the alley accessed residential, condominium, and detached single family residential products. The elevations shall be in

substantial conformance to the elevations presented at the April 18, 2006 hearing. These elevations shall have similar modulation and treatments to the elevations presented to council as determined by the Planning Director.

10. The elevations for the commercial/office buildings shall substantially comply with the elevations submitted by the applicant at the April 18, 2006 hearing. Further, the applicant shall coordinate with the developer of Sadie Creek Promenade to create a unified appearance throughout both projects.
11. The applicant shall coordinate with the Meridian Parks Department and Nampa Meridian Irrigation District to define the location of the multi use pathway, bridge maintenance, and landscaping along the Finch Lateral.

E. Applicant's Proposed Modifications to the Development Agreement Language

Provisions with Proposed Changes in Strike-Out/Underline Format:

4 USES PERMITTED BY THIS AGREEMENT:

~~4.1 Construction and development of up to 54 Single Family Residential lots, 22 Multi Family Residential lots, 14 common lots and up to 7 commercial/office lots (to include up to 65,000 square feet of retail/residential/ and office uses in in the proposed C-G zone) pertinent to AZ-05-057, PP-05-059, RZ-05-109, PS-05-002 and CUP-05-052 applications.~~

4.3 The construction and development of a self-storage facility on Parcel No. R0945580275 (2755 N. Eagle Road) with combined building footprints of up to 36,000 square feet and a combined gross building area over multiple stories of up to 135,000 square feet.

Change: We propose to add a new Section 4.3 that specifies the use self-storage use and adds (for our parcel) the combined building footprints (36K sf) and the combined building area (135K sf).

Note: The 3rd Addendum (5/8/14) inadvertently deleted the commercial/office language in Section 4.1 of the 2nd Addendum (2/21/13), so the original commercial/office language technically no longer exists.

6. CONDITIONS GOVERNING DEVELOPMENT OF SUBJECT PROPERTY:

~~6.1.6 That the maximum square footage of the C-G portion of the project shall not exceed a 20% increase or decrease of 54,000 sq. ft. for a minimum of 43,200 sq. ft. and a maximum of 65,000 sq. ft. That the maximum square footage of one single building in the C-G portion of the project shall not exceed 32,500 square feet, which is approximately 1/2 of the maximum allowable commercial square feet on this property.~~

6.1.6 The maximum square footage for the footprint of a single building within the C-G portion of the project shall not exceed 32,500 square feet. The maximum square footage for the combined footprints of all buildings within the C-G portion of the project shall not exceed 75,000 square feet.

Change: We propose to change the restrictions to limit "building footprints" rather than "building area", with limits of 32.5K sf for a single building and 75K for the entire commercial subdivision.

Note: The 1st Addendum (3/29/07) specifies building area limits of 32.5K sf for a single building and 65K sf for the entire commercial subdivision. The footprints of the existing buildings total 28,247 sf (according to the Ada County Parcel Viewer).

6. CONDITIONS GOVERNING DEVELOPMENT OF SUBJECT PROPERTY:

~~6.1.10 The elevations for the commercial/office buildings shall substantially comply with the elevations submitted by the applicant at the April 18, 2006 hearing. Further, the applicant shall coordinate with the developer of Sadie Creek Promenade to create a unified appearance throughout both projects.~~

6.1.10 The elevations for the proposed buildings on Parcel No. R0945580275 (2755 N. Eagle Road) shall comply with the elevations in the CUP approved concurrently with this 5th Addendum. Elevation requirements for all other commercial/office buildings in the C-G portion of the project shall remain unchanged.

Change: Comply with the new elevations contained in our CUP application rather than the elevations originally submitted on 4/18/06.

Note: The 1st Addendum (3/29/07) specifies compliance with the elevations submitted by the former applicant on 4/18/06.

IX. CITY/AGENCY COMMENTS

A. PLANNING DIVISION

1. Development Agreement Modification

Fifteen (15) days prior to the City Council hearing, the applicant shall provide the revised concept plan that includes parcel R0945580265, commercial/office building elevations and a legal description of the property subject to the new DA.

1.1 The new DA shall be signed by the property owner and returned to the Planning Division within six (6) months of the City Council approval of the Findings. The DA shall, at minimum, incorporate the following provisions:

- a. Future development of this site shall be generally consistent with the concept plan and conceptual building elevations included in Section VIII and the provisions contained herein.
- b. The future use of this site is limited to the self-service storage facility, office, and retail uses. All buildings shall not exceed thirty-five (35) feet in height.

2. Conditional Use Permit

2.1 The Applicant shall comply with the specific use standards listed in UDC [11-4-3-34](#) – Self-Service Storage Facility.

2.2 Outdoor lighting shall comply with the standards listed in UDC [11-3A-11](#). Lighting details shall be submitted with the Certificate of Zoning Compliance application that demonstrate compliance with these standards.

2.3 Add decorative pedestrian lighting along Eagle Road that meet the requirements of UDC 11-3H—4C post and luminaire.

2.4 Protect the existing landscaping on the site during construction, per UDC [11-3B-10](#).

2.5 The facility hours of public operation shall be limited to 6:00 a.m. to 11:00 p.m. because the property abuts a residential zoning district per UDC 11-4-3-34E.

2.6 A Certificate of Zoning Compliance and Design Review application is required to be submitted to the Planning Division and approved prior to submittal of a building permit application.

2.7 The conditional use permit is valid for a maximum period of two (2) years unless otherwise approved by the City. During this time, the Applicant shall commence the use as permitted in accord with the conditions of approval, satisfy the requirements set forth in the conditions of approval, and acquire building permits and commence construction of permanent footings or structures on or in the ground as set forth in UDC 11-5B-6. A time extension may be requested as set forth in UDC 11-5B-6F.

X. FINDINGS

Conditional Use (UDC 11-5B-6)

Findings: The commission shall base its determination on the conditional use permit request upon the following:

1. That the site is large enough to accommodate the proposed use and meet all the dimensional and development regulations in the district in which the use is located.

Staff finds the site is large enough to accommodate the proposed use (i.e. storage facility, self-service) and can meet all of the dimensional and development regulations of the C-G zoning district.

2. That the proposed use will be harmonious with the Meridian comprehensive plan and in accord with the requirements of this title.

Staff finds the proposed storage facility, self-service if approved at the requested height and square footage would not maintain compatibility with existing structures which is crucial not only for aesthetics but also for the functional integration of the new development into the community.

The proposed height will not be harmonious with adjacent residential and commercial uses and will negatively impact these uses as it may lead to overshadowing of neighboring structures, and alterations to the area's character which are a concern.

3. That the design, construction, operation and maintenance will be compatible with other uses in the general neighborhood and with the existing or intended character of the general vicinity and that such use will not adversely change the essential character of the same area.

Staff finds the proposed height exceeds the tallest building in the immediate area by a significant margin, and may lead to overshadowing of neighboring structures, and alterations to the area's

character which are a concern. Maintaining compatibility with the existing structures is crucial for the overall aesthetics and functionality of a neighborhood or area.

4. That the proposed use, if it complies with all conditions of the approval imposed, will not adversely affect other property in the vicinity.

Staff finds the proposed storage facility, self-service if approved at the requested height and square footage would not maintain compatibility with existing structures which is crucial not only for aesthetics but also for the functional integration of the new development into the community.

The proposed height will not be harmonious with adjacent residential and commercial uses and will negatively impact these uses as it may lead to overshadowing of neighboring structures, and alterations to the area's character which are a concern.

5. That the proposed use will be served adequately by essential public facilities and services such as highways, streets, schools, parks, police and fire protection, drainage structures, refuse disposal, water, and sewer.

Staff finds the proposed use can be served by essential public facilities and services as required; the proposed use (i.e. storage facility, self-service) will not have an impact to the provision of services.

6. That the proposed use will not create excessive additional costs for public facilities and services and will not be detrimental to the economic welfare of the community.

Staff finds the proposed use (i.e. storage facility, self-service) will not create additional costs for public facilities and services and will not be detrimental to the economic welfare of the community.

7. That the proposed use will not involve activities or processes, materials, equipment and conditions of operation that will be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors.

Staff finds the proposed use (i.e. storage facility, self-service), will not involve activities or processes, materials, equipment and conditions of operation that will be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors.

Staff finds the proposed storage facility, self-service if approved at the requested height and square footage would not maintain compatibility with existing structures which is crucial not only for aesthetics but also for the functional integration of the new development into the community.

The proposed height will not be harmonious with adjacent residential and commercial uses and will negatively impact these uses as it may lead to overshadowing of neighboring structures, and alterations to the area's character which are a concern.

8. That the proposed use will not result in the destruction, loss or damage of a natural, scenic or historic feature considered to be of major importance. (Ord. 05-1170, 8-30-2005, eff. 9-15-2005)

Staff finds the proposed use (i.e. storage facility, self-service) will not result in the destruction, loss or damage of any such features.

9. Additional findings for the alteration or extension of a nonconforming use:

- a. That the proposed nonconforming use does not encourage or set a precedent for additional nonconforming uses within the area; and,

This finding is not applicable.

- b. That the proposed nonconforming use is developed to a similar or greater level of conformity with the development standards as set forth in this title as compared to the level of development of the surrounding properties.

This finding is not applicable.
