

MEMO TO CITY COUNCIL

From: Steve Siddoway, Parks & Recreation Director

Date: October 4, 2023

RE: Future Parks Presentation

Recommended Council Action:

This is a workshop discussion. No formal action needed. I am hoping for some direction on the discussion topic at the end.

Background:

This summer, Council requested a presentation and discussion about future park development.

This presentation illustrates our current park system by park type, information from the current Impact Fee Study about impact fee eligible future park development, future impact fee eligible park land purchase, the current plan for future parks as per the Comprehensive Financial Plan (CFP), and a discussion around where Parks should focus our efforts moving forward.
