Hi Phillip,

I talked to the Mayor's Office, and I would like to have our team discuss your issues and perspectives so that we can continue to add these types of topics into any discussion they are having with ACHD as these road projects are being planned. I have copied Brian McClure and Caleb Hood on this email. They are on our Planning team and work with ACHD coordinating efforts of planned road construction projects.

I will ask that either Brian or Caleb reach out to you today or tomorrow to get your feedback and help share what discussion our team can have with ACHD on these concerns.

Sincerely,

Dave Miles | Director

Hello Phillip,

We have received your submission to the Mayor's Office. Thank you for reaching out and sharing your concerns. A representative from the City will be in touch with additional information before the end of the week.

Regards,

Kendall Nagy | Chief of Staff

Question/Comment: I wanted to bring something to you guys attention. I don't know how much involvement if any you've had in this, but I've been keeping a close eye on it since they presented this issue of expanding Locust Grove between Fairview Ustick. They're well into the process now and they're supposed to be wrapping up comments by December of this year. I've been talking to someone over ADHD. They're not gonna be taking any of our property which I originally thought that they were going to do. The lady I talked to said no that they were very fortunate that they weren't gonna have to take peoples property because there's a huge black already built into the Locust Grove Street. This buffer is trees and bushes that comes before our fence line. So this creates a natural barrier for accidents and other dangerous problems. The problem is when Locust Grove is expanded all of that's gonna go away. They'll be absorbing that buffer and taking all of those trees and greenery away. The result will be that the locust Grove will come practically up to our fence line. She told me within two or 3 feet. I then asked her if they were going to pay to put me up a new fence because the fence that I have now has a lot of gaps in it. With the road being only 2 to 3 feet for my fence it's going to be extremely noisy and also dangerous because traffic is going to be traveling very closely to my fence. It would be very easy for someone that's in an accident to take my fence down and perhaps even drive onto my property. I would like to bring this to somebody's attention and hope that somebody can help because ADHD is wrong. Since they're the one that's responsible for widening Locust Grove in creating this problem they should at least pay for putting up a good new fence to protect us from the intense noise and hopefully to cut down the possibility of accidents, causing problems on our property. If there's anything you could do I'd really appreciate it. If you can let me know if there's a council person I can talk to, I can talk to the mayor or perhaps there's a senator a congressman that I can speak to. Please let me know how I can proceed. thank you.

Should we contact you?: Yes
