IV. COMPREHENSIVE PLAN ANALYSIS (*Comprehensive Plan*)

A. Comprehensive Plan Text (<https://www.meridiancity.org/compplan>):

3.01.01B - Update the Comprehensive Plan and **Unified Development Code** as needed to accommodate the community's needs and growth trends.

Many of the requested code changes associated with this text amendment are meant to serve community needs, support current growth trends and maintain the integrity of the plan.

3.04.01B – Maintain and update the Unified Development Code and Future Land Use Map to implement the provisions of the Comprehensive Plan.

City staff keeps a running database of code revisions throughout the year. The Department is tasked with keeping the code current and relevant. Staff believes the proposed changes encompass the vision of the plan and is largely supported by those who participated in the process.

V. UNIFIED DEVELOPMENT CODE ANALYSIS (*UDC*)

The proposed text amendment provides a broad range of changes and additions to multiple code sections.

The most notable changes include new definitions; multi-family and vertically integrated parking standards; new live/work standards; private street standards; and changes to the decision-making authority table in Chapter 5.

All the proposed changes to the UDC are included as part of the public record. Staff has purposely not attached the table of changes in the staff report to minimize the size of the report and improve the review quality of document for the public, Commission and Council. Commentary associated with proposed changes are also part of the table that explain the reason for the modification or addition to the code.

All of the proposed changes went through an extensive and collaborative review process over several months between City staff and the UDC Focus Group.

In summary, City Staff believes the proposed changes will make the implementation and use of the UDC more understandable and enforceable.
