Hello Mr. Duskett,

Thank you for reaching out and sharing your concerns regarding noise, speeding, and pedestrian safety at the intersection of Records Way and near the park. We understand how concerning these issues can be when they occur in an area for residents and their families.

Ada County Highway District reviews and approves traffic control measures such as crosswalk enhancements, signage, traffic calming, and signalization. We agree that a Traffic Investigation Report through ACHD may be an appropriate next step so they can evaluate the location, review traffic conditions, and determine whether additional safety improvements are warranted.

I will also make sure this concern is brought forward to the Meridian Transportation Commission, which serves as a recommending body to City Council on transportation concerns within the city. While the City does not directly control traffic signals or roadway improvements on ACHD facilities, we can help elevate these concerns and coordinate with ACHD where appropriate.

If you would like to provide a written statement for the Transportation Commission, you may include it in your response, and I will ensure it is included in the record. You are also welcome to attend the meeting and provide verbal testimony. The meeting is scheduled for July 6 from 3:30 p.m. to 5:30 p.m. Thank you again for taking the time to bring this forward. Safety concerns like this are important to hear

Question/Comment: Please, something has to be done to cut down on the noise and speeding on Records way and around the park. Please consider adding some crosswalk lights. Also, I'd like to see stoplights at Records and E River Valley St. Every day I watch rolling "stops" at this intersection. Let's not wait until someone gets killed on this street!

Thank you

Should we contact you?: Yes
