I-84 exit 42 merge with Ten Mile.

Patches are not working. Fix the crator please. It has been a problem for nearly 2 years. We drivers are either focused on not damaging our vehicles, or the traffic coming down Ten Mile. We can't do both. It is unsafe.

Hi Nancy,

Thank you for reaching out regarding the Ten Mile interchange, before I reach out to ACHD or ITD, can you give me a description of where the problems are occurring? It would be helpful if you could include a google image highlighting which ramp as that can determine who is responsible for the repairs. Could you also provide specific concerns that you are worried about regarding that ramp? (IE. Painted Lanes, Debris, Loose Pavement sections). This information is helpful to evaluate what measures should be taken to improve the situation.

Feel free to reach out with any questions or concerns

Thank you,

Nancy,

Thank you for the note and bringing this issue to our attention. I'm copying Craig Bergman who works directly with ACHD and ITD on Transportation issues to help address this issue.

Craig,

Can you please reach out to your contacts at ACHD/ITD to help address this issue from Nancy? If you need any specific information about where the repair is needed, I'm sure she can provide more details. Please keep us both posted.

Thank you.

Mayor Robert Simison

Hello Robert. I don't know who is responsible for repairs to the I-84 Ten Mile off ramp but it is ridiculous. For over a year it has been in disrepair. More attention is being directed to the sloppy pot holes than the cars moving down Ten Mile. Please contact ACHD or ITD (whichever alphabet is responsible) before more people have their cars hit, broken. They didn't even repair it prior to chip sealing.

Respectfully yours,

Nancy Holtby
