

MEMO TO CITY COUNCIL

Request to Include Topic on the City Council Workshop Agenda

From:	Laurelei McVey, Public Works	Meeting Date:	June 6 th , 2023
Presenter:	Laurelei McVey, Public Works	Estimated Time:	30 minutes
Topic:	History and Future of Reclaimed Water		

Recommended Council Action:

No official action required. However, seeking Council guidance on the future direction of Meridian's Reclaimed Water Program.

Background:

The City of Meridian began its Reclaimed Water Program in 2009. This program has been successful and has fulfilled an important regulatory need for the community for many years. However, some of the initial drivers for the program have changed over the past 15 years. It is prudent to review the costs and benefits of any program periodically to establish and/or reaffirm program direction and goals.

This presentation will provide City Council with the history, current status, current constraints, and future opportunities of the Reclaimed Water Program.

Questions related to this topic should be directed to Laurelei McVey, Public Works, lmcvey@meridiancity.org, 208-985-1259.
