RE: Budget Amendment for the Mary McPherson Elementary Pathway

Background

The Parks and Recreation Department was approached in August of 2023 about the possibility of executing a project to complete the ten-foot-wide, 935-foot-long pathway from the Reflection Ridge Subdivision to Mary McPherson Elementary (see attached concept). This high priority connection has been talked about as providing important connectivity for school-aged children walking to school. We have bid the project and have secured a license agreement to build and operate this pathway across the undeveloped parcel.

Action

We are requesting approval of a budget amendment in the amount of \$144,900 to move this project forward into construction.
