#### V. STAFF ANALYSIS

The Applicant proposes to annex 0.75-acre of land, including adjacent right-of-way to the section line of E. Franklin Rd., with an R-2 (Low-Density Residential) zoning district. A legal description for the annexation area is included in Section VII.A., which depicts the area within the Area of City Impact boundary.

The reason for annexation is the existing septic system on the single-family residential property failed late last year and the Applicant had to hook-up to City water and sewer service. No new development or redevelopment of the property is proposed at this time and the use will remain residential for the foreseeable future.

The Applicant entered into an agreement with the City for extension of domestic water and sewer service outside Meridian city limits for the subject property (Inst. #2020-151430). This agreement allowed the property to hook up to City water and sanitary sewer service with disconnection from the private well and septic system. A provision of the agreement requires the property owner to apply for annexation of the property into the City as proposed with this application.

The Comprehensive Plan Future Land Use Map (FLUM) designation for this property is Commercial. Because there is an existing home on this property and the use is proposed to remain residential, an R-2 zoning district is requested as a "placeholder" zoning district until the property redevelops in the future. A commercial zoning district would create a non-conforming use (i.e. a single-family residential dwelling is not a permitted use in a commercial zoning district), which is not preferred. Prior to re-development, a rezone should be requested and development proposed consistent with the Commercial FLUM designation. To ensure future development is consistent with the Comprehensive Plan and the land use desired for this property, Staff recommends a Development Agreement as a provision of annexation pursuant to Idaho Code Section 67-6511A, that requires the property to be rezoned and the agreement modified to include a conceptual development plan prior to any change in use and/or development of the property.

With future redevelopment of the property, access via E. Franklin Rd. and access and interconnectivity with adjacent properties will be evaluated in accord with the provisions listed in UDC 11-3A-3. An attached sidewalk exists along E. Franklin Rd.; a detached sidewalk may be required as set forth in UDC 11-3A-17C. A street buffer will be required along Franklin Rd. as set forth in UDC Table 11-2A-4 with landscaping per the standards listed in UDC 11-3B-7C.
