

**COVER LETTER**  
TRANSPORTATION COMMISSION

---

April 29, 2026

TO: Transportation Commission  
RE: Questions posed at Transportation Commission by City Council

---

**a. Council Member Taylor**

- i. Looking forward to the upcoming year, are there areas that are achievable that you think we should start focusing on when setting priorities?
- ii. Is there something that Council should start thinking about that is smaller and more bite sized that is worth prioritizing?
- iii. In your opinion or from information you have heard, do you have a sense of how Highway 16 will relieve traffic on the adjacent roadways? What kind of impact do you think this is going to have on other arterials?

**b. Council Member Whitlock**

- i. As you look at safety and transportation in general. How do we focus on keeping our people safe as well as making sure they can get from point A to point B in a timely manner?
