FINDINGS OF FACT, CONCLUSIONS OF LAW
AND
DECISION & ORDER**

In the Matter of the Request for a Conditional Use Permit Modification to amend the fencing requirement, adjust the hours of operation for all uses within the building, and to operate a 51,750 square foot indoor recreation facility (indoor pickleball court facility) in suite 110 for Hickory Warehouse, Located at 1135 N. Hickory Avenue on 9.88 acres of land in the I-L Zoning District, by Josh Shiverick, Cushing Terrell.

Case No(s). MCU-2023-0003

For the Planning & Zoning Commission Hearing Date of: May 4, 2023 (Findings on May 18, 2023)

A. Findings of Fact

1. Hearing Facts (see attached Staff Report for the hearing date of May 4, 2023, incorporated by reference)
2. Process Facts (see attached Staff Report for the hearing date of May 4, 2023, incorporated by reference)
3. Application and Property Facts (see attached Staff Report for the hearing date of May 4, 2023, incorporated by reference)
4. Required Findings per the Unified Development Code (see attached Staff Report for the hearing date of May 4, 2023, incorporated by reference)

B. Conclusions of Law

1. The City of Meridian shall exercise the powers conferred upon it by the “Local Land Use Planning Act of 1975,” codified at Chapter 65, Title 67, Idaho Code (I.C. §67-6503).
2. The Meridian Planning & Zoning Commission takes judicial notice of its Unified Development Code codified at Title 11 Meridian City Code, and all current zoning maps thereof. The City of Meridian has, by ordinance, established the Impact Area and the Amended Comprehensive Plan of the City of Meridian, which was adopted April 19, 2011, Resolution No. 11-784 and Maps.
3. The conditions shall be reviewable by the City Council pursuant to Meridian City Code § 11-5A.
4. Due consideration has been given to the comment(s) received from the governmental subdivisions providing services in the City of Meridian planning jurisdiction.
5. It is found public facilities and services required by the proposed development will not impose expense upon the public if the attached conditions of approval are imposed.
6. That the City has granted an order of approval in accordance with this decision, which shall be signed by the Chairman of the Commission and City Clerk and then a copy served by the Clerk

CITY OF MERIDIAN FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECISION & ORDER

upon the applicant, the Planning Department, the Public Works Department and any affected party requesting notice.

7. That this approval is subject to the conditions of approval in the attached staff report for the hearing date of May 4, 2023, incorporated by reference. The conditions are concluded to be reasonable and the applicant shall meet such requirements as a condition of approval of the application.

C. Decision and Order

Pursuant to the Planning & Zoning Commission's authority as provided in Meridian City Code § 11-5A and based upon the above and foregoing Findings of Fact which are herein adopted, it is hereby ordered that:

1. The applicant's request for Conditional Use Permit Modification is hereby approved in accord with the conditions of approval in the staff report for the hearing date of May 4, 2023, attached as Exhibit A.

D. Notice of Applicable Time Limits

Notice of Two (2) Year Conditional Use Permit Duration

Please take notice that the conditional use permit, when granted, shall be valid for a maximum period of two (2) years unless otherwise approved by the City in accord with UDC 11-5B-6F.1. During this time, the applicant shall commence the use as permitted in accord with the conditions of approval, satisfy the requirements set forth in the conditions of approval, and acquire building permits and commence construction of permanent footings or structures on or in the ground. For conditional use permits that also require platting, the final plat must be signed by the City Engineer within this two (2) year period in accord with UDC 11-5B-6F.2.

Upon written request and filed by the applicant prior to the termination of the period in accord with 11-5B-6.F.1, the Director may authorize a single extension of the time to commence the use not to exceed one (1) two (2) year period. Additional time extensions up to two (2) years as determined and approved by the Commission may be granted. With all extensions, the Director or Commission may require the conditional use comply with the current provisions of Meridian City Code Title 11.

E. Judicial Review

Pursuant to Idaho Code § 67-6521(1)(d), if this final decision concerns a matter enumerated in Idaho Code § 67-6521(1)(a), an affected person aggrieved by this final decision may, within twenty-eight (28) days after all remedies have been exhausted, including requesting reconsideration of this final decision as provided by Meridian City Code § 1-7-10, seek judicial review of this final decision as provided by chapter 52, title 67, Idaho Code. This notice is provided as a courtesy; the City of Meridian does not admit by this notice that this decision is subject to judicial review under LLUPA.

F. Notice of Right to Regulatory Takings Analysis

Pursuant to Idaho Code §§ 67-6521(1)(d) and 67-8003, an owner of private property that is the subject of a final decision may submit a written request with the Meridian City Clerk for a regulatory takings analysis.

V. COMPREHENSIVE PLAN ([HTTPS://WWW.MERIDIANCITY.ORG/COMPPLAN](https://www.meridiancity.org/compplan)):

Land Use:

This property is designated Mixed Use Non-Residential (MU-NR) on the Future Land Use Map (FLUM).

The purpose of the MU-NR designation is to designate areas where new residential dwellings will not be permitted, as residential uses are not compatible with the planned and/or existing uses in these areas. For example, MU-NR areas are used near the City's Wastewater Resource Recovery Facility and where there are heavy industrial or other hazardous operations that need to be buffered from residential.

The Applicant proposes to develop the site with an indoor recreation facility (i.e. an indoor pickleball court facility) within a portion of an existing warehouse building. The warehouse was approved under an administrative application (A-2020-0165) due to the existing industrial zoning and planned unit development in 1991 (through Gemtone CUP). The planned unit development approved in 1991 allowed numerous uses beyond just those typically allowed in the I-L zoning district.

In the surrounding area, there is a church, offices, flex space, other warehousing uses, employment, and other indoor recreation facilities in operation. With the addition of the proposed pickleball courts next to existing multi-family and single family developments to the west, Staff believes the proposed indoor recreation facility is a should complement other uses in the surrounding area and provide opportunities for residents to recreate. .

Therefore, Staff finds the proposed use should be an appropriate use in the MU-NR FLUM designation for the reasons noted above.

In reviewing development applications, the following items will be considered in MU-NR areas: *(Staff's analysis in italics.)*

- No new residential uses will be permitted (existing residential may remain). *No residential uses are proposed.*
- All developments should have a mix of at least two types of land uses. *The overall MU-NR designated area does have a mix of uses; offices, flex space, and a church exist to east of this site within the MU-NR area.*
- Development is not required to comply with the minimum number of uses in the general mixed-use standards. *Noted.*
- Street sections consistent with the Ada County Highway District Master Street Map are required within the Unified Development Code. *No new streets are proposed.*
- There is neither a minimum nor maximum imposed on non-retail commercial uses such as office, food service/restaurants, industry, or warehouse uses. *Noted.*
- A transitional use is encouraged on the perimeter of the MU-NR areas between any existing or planned residential development. *As discussed above, Staff finds an indoor recreation facility as a transitional use between the existing multi-family to the west and the western boundary of the MU-NR area wAnd contributes to the mix of uses in the area for area residents.*

COMPREHENSIVE PLAN POLICIES (<https://www.meridiancity.org/compplan>):

Goals, Objectives, & Action Items: Staff finds the following Comprehensive Plan policies to be applicable to this application and apply to the proposed use of this property (staff analysis in *italics*):

- "Plan for an appropriate mix of land uses that ensures connectivity, livability, and economic vitality." (3.06.02)

The proposed use will contribute to the mix of uses in this area and should add to the livability and economic vitality of the community.

- Monitor and adjust the amount and mix of industrial, commercial, and office areas needed to meet the employment needs of the City.” (3.06.01B)
The proposed use will contribute to the mix of uses in this area; however, the desire for professional employment opportunities is diminished.
- “Encourage and support mixed-use areas that provide the benefits of being able to live, shop, dine, play, and work in close proximity, thereby reducing vehicle trips, and enhancing overall livability and sustainability.” (3.06.02B)
The subject mixed-use area currently contains office, church uses, flex space, warehousing, and an indoor recreation facility (K1 Speed go-kart track) within the subject warehouse on this property. The proposed use will provide another recreational opportunity in close proximity to residential neighbors to the west thereby reducing vehicle trips and enhancing livability of the area.
- “Preserve the industrial base within designated industrial land use areas by discouraging non-industrial uses and focusing on light manufacturing, distribution, flex-space, and base-employment.” (3.07.01D)
The proposed use is a non-industrial use requesting a CUP to occupy an industrial land use area approved for warehousing. Staff has some concerns about approving another commercial use for an indoor recreation facility (pickleball court) within the same building purposed for industrial uses. If approved, this would be the second such use in this building.
- “Protect public health and safety by guiding growth and development away from hazardous areas that pose a threat to people and property.” (4.10.00)
Operation of the proposed use should comply with City ordinances pertaining to noise, lighting, and odor disturbances.
- “Provide, partner, and preserve public and private indoor and outdoor recreation amenities for a diverse range of physical activities.” (5.01.01C)
The proposed indoor recreation facility offers opportunities for recreation through pickleball courts to the public and will contribute to the range of physical activities offered in the City.

VI. UNIFIED DEVELOPMENT CODE ([UDC](#))

The proposed use, an indoor recreation facility, is listed as a conditional use in the I-L (Light Industrial) zoning district per UDC Table [11-2C-2](#). Compliance with the dimensional standards listed in UDC Table [11-2C-3](#) is required and are met because the proposed use is internal to an approved structure.

VII. STAFF ANALYSIS

As discussed above in Section V, the proposed indoor pickleball court facility is considered an appropriate use and meets the development guidelines listed for the MU-NR designation. The use is also consistent with the Planned Unit Development approved in 1991 for Gemtone Inc., which approved a mix of commercial and light industrial uses in the I-L zoning district.

The Applicant is requesting to modify the following conditions in Conditional Use Permit H-2022-0040 in Section VII.A (Planning) of the Staff Report:

A.(2) *“The applicant shall install a combination of 8 ft. high opaque fencing and additional evergreen landscaping including trees or shrubs in the vicinity of the pathway along the western building elevation and northwest property corner. Such screening shall be sufficient to provide visual screening of the equipment and loading bays as viewed from the pathway and adjacent residential. Fencing and landscaping may have*

breaks and be clustered and grouped to maximize screening efficiency and produce a more natural appearance.”

The Applicant is requesting a modification to the CUP by proposing a 6-foot black polymer-coated chainlink fence and additional evergreen trees and bushes along the northwest property boundary only between the building and the multi-family residential. Therefore, not to obstruct access to the pathway for residents living in the multi-family residential development.

Staff finds that the above-mentioned screening shall be sufficient to provide visual screening of the equipment and loading bays as viewed from the pathway and adjacent residential. A detail of the proposed fencing is included on the site plan submitted with this application that demonstrates compliance with the standards in UDC 11-3A-7.

A.(4) *“Hours of operation for industrial uses shall be limited to 7:00 AM to 5:00 PM. Hours of operation for the indoor recreation facility shall be limited to 12:00pm – 10:00pm Monday-Thursday, 10:00am – 10:00pm on Sundays, and 10:00am – 11:00pm Fridays and Saturdays.”*

The Applicant’s narrative states that they would like to modify the planned hours of operation permitted with CUP (H-2022-0040) for all the proposed uses within the warehouse building that vary throughout the week but do not exceed 6 am to 12 am seven days a week.

Because of the nature of the proposed use and the existing multi-family residential to the west, Staff is recommending a condition of approval consistent with these hours of operation.

This use is proposed to be contained within an existing warehouse, as noted above. The tenant space for the pickleball court facility will be approximately 51,750 square feet within the warehouse with no exterior modifications proposed to the building. The Applicant submitted a site plan showing tenant spaces that includes additional parking stalls added on the west side of suites 100 & 110.

The proposed use is subject to the following Specific Use Standards ([UDC 11-4-3-2](#)) - Arts, Entertainment or Recreation Facility, Indoors and Outdoors: *(Staff analysis in italics)*

A. General Standards:

1. All outdoor recreation areas and structures that are not fully enclosed shall maintain a minimum setback of one hundred feet (100') from any abutting residential districts. The playing areas of golf courses, including golf tees, fairways, and greens, are an exception to this standard. (Ord. 07-1325, 7-10-2007). *No outdoor recreation areas are proposed; all activities will take place within the building.*
 2. No outdoor event or activity center shall be located within fifty feet (50') of any property line and shall operate only between the hours of six o'clock (6:00) A.M. and eleven o'clock (11:00) P.M. *No outdoor events or activities are proposed.*
 3. Accessory uses including, but not limited to, retail, equipment rental, restaurant, and drinking establishments may be allowed if designed to serve patrons of the use only. *Noted.*
 4. Outdoor speaker systems shall comply with section 11-3A-13, "Outdoor Speaker Systems", of this title. *No outdoor speakers are proposed.*
- B. Additional Standards for Swimming Pools: Any outdoor swimming pool shall be completely enclosed within a six foot (6') non-scalable fence that meets the requirements of the building code in accord with title 10, chapter 1, of this code. *Not applicable.*
- C. Additional Standards for Outdoor Stage or Musical Venue: Any use with a capacity of one hundred (100) seats or more or within one thousand feet (1,000') of a residence or a residential district shall

be subject to approval of a conditional use permit. (Ord. 05-1170, 8-30-2005, eff. 9-15-2005). *No outdoor stage or musical venue is proposed.*

Access (UDC [11-3A-3](#)):

Four (4) driveway accesses are depicted and approved on the overall site plan – two (2) accesses via E. State Avenue (local street) to the south and two (2) accesses via N. Hickory Avenue (industrial collector) to the east. ACHD has approved the location of all access driveways with the administrative approvals for the overall warehouse (A-2020-0165).

Parking (UDC [11-3C](#)):

Based on the proposed tenant space of approximately 51,750 square feet of gross floor area, a minimum of 104 off-street parking spaces are required. As noted throughout the staff report, the building and other site improvements are existing and include the off-street parking for the entire warehouse building. According to the submitted site plan showing the existing site conditions, a total of 235 parking spaces are provided, exceeding UDC standards. Based on 104 parking spaces provided for this use, a minimum of four (4) bicycle parking spaces are required to be provided. The Applicant is proposing an additional 29 parking spaces to be added to the site to accommodate the proposed pickleball court facility. **Bicycle parking facilities were approved at the time of CZC submittal but the submitted plans do not appear to clearly depict where they are located. At the time of Certificate of Zoning Compliance (CZC) application submittal, the Applicant should provide plans that clarify the bicycle parking location(s) for this use.**

Because a vast majority of the area proposed for the pickleball courts has a limited capacity of courts in the facility, Staff does not have concerns on the number of parking spaces available for the proposed use.

Sidewalks (UDC [11-3A-17](#)):

There are existing 5-foot wide attached sidewalks along E. State Avenue and N. Hickory Avenue that meet UDC standards. Any damaged curb, gutter or sidewalk is required to be replaced.

Landscaping (UDC [11-3B](#)):

A 10-foot wide street buffer is required to be provided along E. State Avenue, a local street, and a 20-foot wide street buffer is required along N. Hickory Avenue, a collector street, landscaped per the standards listed in UDC [11-3B-7C](#). Parking lot landscaping is required per the standards listed in UDC [11-3B-8C](#). A 25-foot landscape buffer to the existing multi-family residential to the east is also required. **The Applicant is proposing additional evergreen trees and bushes to be added to the existing landscape buffer along the northwest property boundary to provide further screening due to the underground ACHD drainage facility under the pathway.**

All required landscaping has been proposed and approved with previous approvals. Staff's analysis of the approved landscape plan shows compliance with all applicable landscaping code sections. Staff anticipates the proposed use to be less noxious or detrimental to the existing residential so no additional landscaping is recommended by Staff at this time.

Outdoor Lighting (UDC [11-3A-11](#)):

All outdoor lighting is required to comply with the standards listed in UDC 11-3A-11C unless otherwise approved through alternative compliance. Light fixtures that have a maximum output of 1,800 lumens or more are required to have an opaque top to prevent up-lighting; the bulb shall not be visible and shall have a full cutoff shield in accord with Figure 1 in UDC 11-3A-11C.

All outdoor lighting was approved with the CZC approval in 2020. However, any future business signage must comply with all standards outlined in UDC 11-3D.

Building Elevations:

The approved building elevations and perspectives were submitted for the warehouse structure as shown in Section IX.D. *As stated throughout this report, these elevations have already been approved through the*

administrative process and the building is already existing. The submitted elevations are for supplementary purposes only.

Certificate of Zoning Compliance (UDC [11-5B-1](#)):

A Certificate of Zoning Compliance (CZC) is required to be submitted for the proposed use and provide staff with the revised plans prior to submittal of a building permit application to ensure compliance with UDC standards and the conditions listed in Section X.

VIII. DECISION

A. Staff:

Staff recommends approval of the proposed modification to the existing Conditional Use Permit per the provisions included in Section IX in accord with the Findings in Section X.

XI. FINDINGS

A. Conditional Use Permit (UDC 11-5B-6E)

The Commission shall base its determination on the Conditional Use Permit requests upon the following:

1. That the site is large enough to accommodate the proposed use and meet all the dimensional and development regulations in the district in which the use is located.

The site meets all the dimensional and development regulations of the I-L zoning district for the proposed use. Therefore, Staff finds the site is large enough to accommodate the proposed use.

2. That the proposed use will be harmonious with the Meridian Comprehensive Plan and in accord with the requirements of this Title.

Staff finds the proposed use will be harmonious with the Comprehensive Plan in that it will provide an indoor recreation use which will contribute to the mix of uses desired in the MU-NR Comprehensive designation and should act as a transitional use to the existing residential to the west as desired.

3. That the design, construction, operation and maintenance will be compatible with other uses in the general neighborhood and with the existing or intended character of the general vicinity and that such use will not adversely change the essential character of the same area.

Staff finds the design, construction, operation and maintenance of the proposed use with the conditions imposed, should be compatible with other uses in the general vicinity but may moderately change the character of the area due to the limited I-L zoning within the City.

4. That the proposed use, if it complies with all conditions of the approval imposed, will not adversely affect other property in the vicinity.

Staff finds that if the applicant complies with the conditions outlined in this report, the proposed use will not adversely affect other property in the area.

5. That the proposed use will be served adequately by essential public facilities and services such as highways, streets, schools, parks, police and fire protection, drainage structures, refuse disposal, water, and sewer.

Staff finds the proposed use will be served by essential public facilities and services as required.

6. That the proposed use will not create excessive additional costs for public facilities and services and will not be detrimental to the economic welfare of the community.

Staff finds the proposed use will not create additional costs for public facilities and services and will not be detrimental to the economic welfare of the community.

7. That the proposed use will not involve activities or processes, materials, equipment and conditions of operation that will be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors.

Staff finds the proposed use will not be detrimental to any persons, property or the general welfare by the reasons noted above.

8. That the proposed use will not result in the destruction, loss or damage of a natural, scenic or historic feature considered to be of major importance. (Ord. 05-1170, 8-30-2005, eff. 9-15-2005).

Staff finds the proposed use will not result in the destruction, loss or damage of any such features.
